Dear Madame,

Paterson Group (Paterson) have prepared this letter to provide an update regarding the previous Phase I Environmental Site Assessment (ESA) for the aforementioned property. It should be noted that the site was previously part of 6371 Renaud Road.

The original Phase I Environmental Site Assessment (ESA) for the subject property was prepared by Paterson Group and was issued on September 7, 2022. Based on the 2022 Phase I ESA, the subject property was historically used as agricultural land since at least 1960. The subject property has never been developed. Neighbouring properties consisted primarily of agricultural land and residential properties. No potential environmental concerns were identified on the subject property or the surrounding properties.

At the time of the 2022 Phase I ESA, the site was found to be lightly vegetated vacant land. Small stockpiles of rebar and concrete were observed in the western portion of the project site. Although the stockpiled concrete and rebar were not considered to have the potential to impact the Phase I Property, it was recommended that they be removed. Based on the results from the Phase I, a Phase II ESA was not required.

Since the 2022 Phase I ESA is over 18 months old, Paterson has prepared this letter to provide an opinion on the validity of the conclusion of that Phase I ESA.

## **Historical and Records Review**

### **Aerial Photographs**

The latest aerial photograph reviewed as part of the 2022 Phase I ESA was dated 2021. An aerial photograph from 2022 was reviewed as part of the current Phase I ESA Update. No significant changes are apparent with respect to the Phase I Property. Asphalt roads were paved approximately 250m northeast of the project site. No other changes were observed to the surrounding properties. A copy of the 2022 aerial photograph has been appended to this report.

### **Ministry of the Environment, Conservation and Parks (MECP) Submissions**

A request was submitted to the MECP Freedom of Information (FOI) office for information with respect to reports related to environmental conditions for the Phase I Property as part of the original Phase I ESA. At the time of issuing the 2022 Phase I report, a response from the MECP had not been received. As part of this Phase I ESA Update, the received MECP FOI report has been reviewed.

### **MECP Instruments**

A request was submitted to the MECP FOI office for information with respect to certificates of approval, permits to take water, certificates of property use or any other similar MECP issued instruments. The 2022 MECP FOI response has been reviewed as part of this update. A record of a certificate of approval titled "Storm and Sanitary Sewers to Service Trails Edge Subdivision Phase 2" was issued November 28, 2014. A record for a permit to take water with fees for the duration of three years was issued January 3, 2014. Neither of these records are considered to pose a risk to the property.

### **MECP Waste Management Records**

A request was submitted to the MECP FOI office for information with respect to waste management records. As part of this assessment the response from the 2022 MECP response has been reviewed. No waste management records were found for the subject property or surrounding area.

### **MECP Incident Reports**

A request was submitted to the MECP FOI office for information with respect to records concerning environmental incidents, orders, offences, spills, discharges of contaminants or inspections maintained by the MECP. As part of this assessment the response from the

MECP has been reviewed. No records of prior incidents were found for the subject property or surrounding area.

## Site Reconnaissance

A site visit was conducted on October 16, 2024, by Paterson personnel. Use of the subject property as well as the neighbouring properties within the surrounding area were assessed at the time of the site visit.

The subject property is currently undeveloped land. A pile of large stones was found along the west property border, with a second pile located further north consisting of rusted rebar and large stones. No concerns were identified with respect to the project site.

The neighbouring lands to the south and west consist of residential dwellings. To the north is Brian Coburn Boulevard, followed by vacant land. To the east is vacant land, followed by Fern Casey Street and residential dwellings. No significant changes were noted with respect to the surrounding properties since the previous Phase I ESA.

Based on a general review of more recent records and the site visit observations, no potential environmental concerns were noted on or surrounding the Phase I Property and as such, the conclusion of our 2022 Phase I ESA is considered to remain valid, a Phase II Environmental Site Assessment is not required.

## Statement of Limitations

This report was prepared for the sole use of Richcraft Homes. Permission and notification from Richcraft Homes and Paterson Group will be required to release this report to any other party.

We trust that this submission satisfies your current requirements. Should you have any questions please contact the undersigned.

Sincerely,

all in accordance with the application from Richcraft Homes Ltd., dated October 21, 2014 and received on October 27, 2014, including final plans and specifications prepared by David Schaeffer Engineering Ltd.

*For the purpose of this environmental compliance approval, the following definitions apply:*

1. "Approval" means this Environmental Compliance Approval and any Schedules to it, including the application and supporting documentation;
2. "Director" means any Ministry employee appointed by the Minister pursuant to section 5 of the Part II.1 of the Environmental Protection Act;
3. "District Manager" means the District Manager of the Ottawa District Office of the Ministry, where the Works are geographically located;;
4. "Ministry" means the Ontario Ministry of the Environment and Climate Change;
5. "Owner" means Richcraft Homes Ltd. and includes its successors and assignees;
6. "Water Supervisor" means the Water Supervisor of the Ottawa District Office of the Safe Drinking Water Branch of the Ministry, where the Works are geographically located; and
7. "Works" means the sewage works described in the Owner's application, this Approval and in the supporting documentation referred to herein, to the extent approved by this Approval.

*You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:*

## **TERMS AND CONDITIONS**

### **1. GENERAL PROVISIONS**

- 1.1 The Owner shall ensure that any person authorized to carry out work on or operate any aspect of the Works is notified of this Approval and the conditions herein and shall take all reasonable measures to ensure any such person complies with the same.
- 1.2 Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Works in accordance with the description given in this Approval, the application for approval of the Works and the submitted supporting documents and plans and specifications as listed in this Approval.
- 1.3 Where there is a conflict between a provision of any submitted document referred to in this Approval and the Conditions of this Approval, the Conditions in this Approval shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.
- 1.4 Where there is a conflict between the listed submitted documents, and the application, the application shall take precedence unless it is clear that the purpose of the document was to amend the application.
- 1.5 The requirements of this Approval are severable. If any requirement of this Approval, or the application

of any requirement of this Approval to any circumstance, is held invalid or unenforceable, the application of such requirement to other circumstances and the remainder of this Approval shall not be affected thereby.

## **2. EXPIRY OF APPROVAL**

The approval issued by this Approval will cease to apply to those parts of the Works which have not been constructed within five (5) years of the date of this Approval.

## **3. CHANGE OF OWNER**

3.1 The Owner shall notify the District Manager and the Director, in writing, of any of the following changes within thirty (30) days of the change occurring:

- (a) change of Owner;
- (b) change of address of the Owner;
- (c) change of partners where the Owner is or at any time becomes a partnership, and a copy of the most recent declaration filed under the Business Names Act, R.S.O. 1990, c.B17 shall be included in the notification to the District Manager; and
- (d) change of name of the corporation where the Owner is or at any time becomes a corporation, and a copy of the most current information filed under the Corporations Information Act, R.S.O. 1990, c. C39 shall be included in the notification to the District Manager.

3.2 In the event of any change in ownership of the Works, other than a change to a successor municipality, the Owner shall notify in writing the succeeding owner of the existence of this Approval, and a copy of such notice shall be forwarded to the District Manager and the Director.

3.3 Notwithstanding any other requirements in this Approval, upon transfer of the ownership or assumption of the Works to a municipality if applicable, any reference to the District Manager shall be replaced with the Water Supervisor.

*The reasons for the imposition of these terms and conditions are as follows:*

- 1. Condition 1 is imposed to ensure that the Works are built and operated in the manner in which they were described for review and upon which Approval was granted. This Condition is also included to emphasize the precedence of Conditions in the Approval and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review. The Condition also advises the Owners their responsibility to notify any person they authorized to carry out work pursuant to this Approval of the existence of this Approval.
- 2. Condition 2 is included to ensure that, when the Works are constructed, the Works will meet the standards that apply at the time of construction to ensure the ongoing protection of the environment.
- 3. Condition 3 is included to ensure that the Ministry records are kept accurate and current with respect to approved Works and to ensure that subsequent owners of the Works are made aware of the Approval and continue to operate the Works in compliance with it.

*In accordance with Section 139 of the Environmental Protection Act, you may by written Notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act provides that the Notice requiring the hearing shall state:*

1. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The environmental compliance approval number;
6. The date of the environmental compliance approval;
7. The name of the Director, and;
8. The municipality or municipalities within which the project is to be engaged in.

*And the Notice should be signed and dated by the appellant.*

all in accordance with the application from Richcraft Homes Ltd., dated October 21, 2014 and received on October 27, 2014, including final plans and specifications prepared by David Schaeffer Engineering Ltd.

*For the purpose of this environmental compliance approval, the following definitions apply:*

1. "Approval" means this Environmental Compliance Approval and any Schedules to it, including the application and supporting documentation;
2. "Director" means any Ministry employee appointed by the Minister pursuant to section 5 of the Part II.1 of the Environmental Protection Act;
3. "District Manager" means the District Manager of the Ottawa District Office of the Ministry, where the Works are geographically located;;
4. "Ministry" means the Ontario Ministry of the Environment and Climate Change;
5. "Owner" means Richcraft Homes Ltd. and includes its successors and assignees;
6. "Water Supervisor" means the Water Supervisor of the Ottawa District Office of the Safe Drinking Water Branch of the Ministry, where the Works are geographically located; and
7. "Works" means the sewage works described in the Owner's application, this Approval and in the supporting documentation referred to herein, to the extent approved by this Approval.

*You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:*

## **TERMS AND CONDITIONS**

### **1. GENERAL PROVISIONS**

- 1.1 The Owner shall ensure that any person authorized to carry out work on or operate any aspect of the Works is notified of this Approval and the conditions herein and shall take all reasonable measures to ensure any such person complies with the same.
- 1.2 Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Works in accordance with the description given in this Approval, the application for approval of the Works and the submitted supporting documents and plans and specifications as listed in this Approval.
- 1.3 Where there is a conflict between a provision of any submitted document referred to in this Approval and the Conditions of this Approval, the Conditions in this Approval shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

- 1.4 Where there is a conflict between the listed submitted documents, and the application, the application shall take precedence unless it is clear that the purpose of the document was to amend the application.
- 1.5 The requirements of this Approval are severable. If any requirement of this Approval, or the application of any requirement of this Approval to any circumstance, is held invalid or unenforceable, the application of such requirement to other circumstances and the remainder of this Approval shall not be affected thereby.

## **2. EXPIRY OF APPROVAL**

The approval issued by this Approval will cease to apply to those parts of the Works which have not been constructed within five (5) years of the date of this Approval.

## **3. CHANGE OF OWNER**

- 3.1 The Owner shall notify the District Manager and the Director, in writing, of any of the following changes within thirty (30) days of the change occurring:
  - (a) change of Owner;
  - (b) change of address of the Owner;
  - (c) change of partners where the Owner is or at any time becomes a partnership, and a copy of the most recent declaration filed under the Business Names Act, R.S.O. 1990, c.B17 shall be included in the notification to the District Manager; and
  - (d) change of name of the corporation where the Owner is or at any time becomes a corporation, and a copy of the most current information filed under the Corporations Information Act, R.S.O. 1990, c. C39 shall be included in the notification to the District Manager.
- 3.2 In the event of any change in ownership of the Works, other than a change to a successor municipality, the Owner shall notify in writing the succeeding owner of the existence of this Approval, and a copy of such notice shall be forwarded to the District Manager and the Director.
- 3.3 Notwithstanding any other requirements in this Approval, upon transfer of the ownership or assumption of the Works to a municipality if applicable, any reference to the District Manager shall be replaced with the Water Supervisor.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition 1 is imposed to ensure that the Works are built and operated in the manner in which they were described for review and upon which Approval was granted. This Condition is also included to emphasize the precedence of Conditions in the Approval and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review. The Condition also advises the Owners their responsibility to notify any person they authorized to carry out work pursuant to this Approval of the existence of this Approval.

2. Condition 2 is included to ensure that, when the Works are constructed, the Works will meet the standards that apply at the time of construction to ensure the ongoing protection of the environment.
3. Condition 3 is included to ensure that the Ministry records are kept accurate and current with respect to approved Works and to ensure that subsequent owners of the Works are made aware of the Approval and continue to operate the Works in compliance with it.

*In accordance with Section 139 of the Environmental Protection Act, you may by written Notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act provides that the Notice requiring the hearing shall state:*

1. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.
