

Twin Topper

Shown: **6-Bike Starter Module**, Model: 851250-6
Plus **4-Bike Add-On Module**, Model: 851250-4A
Total Capacity: 10 Bikes

Description and Use:

The Twin Topper Bi-Level Bike Rack System allows you to park 2 bikes in the space normally required for just 1 bike. The simple Twin Topper System has no moving parts which makes it safe, secure and reliable. The upper tiers are well-suited for lighter road or hybrid city bikes that must be lifted up into the convenient, self-guiding trays. Simply set the front wheel into the tray and push the bike ahead until the rear wheel is securely in the rear chock.

The first component required is the **6-Bike Starter Module** which is fully self-supporting. You can then add any number of **4-Bike Add-On Modules**.
(6 + 4 + 4 + 4 + 4, etc.)

Total Bike Capacity Increments:

6 (Min.), 10, 14, 18, 22, 26, 30, 34, 38, 42, etc.

Important Stainless Steel Hardware Notes

- Use "Anti-Seize" to Prevent Galling -

To prevent galling, we strongly recommend that all fasteners be initially assembled by hand to prevent cross-threading. Anti-seize compound should be applied to the threads prior to assembly.
