### MMLOS Analysis

## Segment MMLOS Analysis

This section provides an existing conditions review of the boundary street Hazeldean Road, using complete streets principles. The *Multi-Modal Level of Service (MMLOS) Guidelines*, produced by IBI Group in October 2015, were used to evaluate the levels of service for each alternative mode of transportation on Hazeldean Road, based on the targets for Arterial Mainstreets.

Exhibit 4 of the *MMLOS Guidelines* has been used to evaluate the segment pedestrian level of service (PLOS) of Hazeldean Road. Exhibit 22 of the *MMLOS Guidelines* identifies a target PLOS C for all Arterial Mainstreets. The results of the segment PLOS analysis are summarized in **Table 1**.

Exhibit 11 of the *MMLOS Guidelines* has been used to evaluate the segment bicycle level of service (BLOS) of Hazeldean Road. Exhibit 22 of the *MMLOS Guidelines* identifies a target BLOS C for Arterial Mainstreets with a Spine Route designation. The results of the segment BLOS analysis are summarized in **Table 2**.

Exhibit 15 of the *MMLOS Guidelines* has been used to evaluate the segment transit level of service (TLOS) of Hazeldean Road. Exhibit 22 of the *MMLOS Guidelines* identifies a target TLOS D for Arterial Mainstreets that is a designated Transit Priority Corridor with Isolated Measures. The results of the segment TLOS analysis are summarized in **Table 3**.

Exhibit 20 of the *MMLOS Guidelines* has been used to evaluate the segment truck level of service (TkLOS) of Hazeldean Road. Exhibit 22 of the *MMLOS Guidelines* identifies a target TkLOS D for Arterial Mainstreets with a truck route designation. The results of the segment TkLOS analysis are summarized in **Table 4**.

## Intersection MMLOS Analysis

The following is an existing conditions review of the MMLOS of the signalized intersections within the study area, using complete streets principles. The MMLOS targets associated with Arterial Mainstreets have been considered for all intersections with Hazeldean Road, and the targets associated with the 'General Urban Area' designation have been considered for all intersections with Terry Fox Drive. Whichever target is stricter has been considered for the intersection at Hazeldean Road/Terry Fox Drive.

Exhibit 5 of the *Addendum to the MMLOS Guidelines* has been used to evaluate the existing PLOS at the study area intersections. Exhibit 22 of the *MMLOS Guidelines* suggests a target PLOS C for Arterial Mainstreets or all roadways within the General Urban Area. The results of the intersection PLOS analysis are summarized in **Table 5** through **Table 13**.

Exhibit 12 of the *MMLOS Guidelines* has been used to evaluate the existing BLOS at the study area intersections. Exhibit 22 of the *MMLOS Guidelines* suggests a target BLOS C for Arterial Mainstreets or roadways within the General Urban Area with a Spine Route designation (Hazeldean Road, Terry Fox Drive), and a target BLOS D for all roadways with no cycling route designation (all roadways crossing Hazeldean Road or Terry Fox Drive). The results of the intersection BLOS analysis are summarized in **Table 14**.

Exhibit 16 of the *MMLOS Guidelines* has been used to evaluate the existing TLOS at the study area intersections. Exhibit 22 of the *MMLOS Guidelines* identifies a target TLOS D for Transit Priority Corridors with Isolated Measures (Hazeldean Road and Terry Fox Drive north of Hazeldean Road), and does not identify a target TLOS for roadways without a Rapid Transit or Transit Priority designation (Terry Fox Drive south of Hazeldean Road). No target TLOS is identified for the roadways crossing Hazeldean Road or Terry Fox Drive. The TLOS has been evaluated for every approach that is currently used by transit. The results of the intersection TLOS analysis are summarized in **Table 15**.

Exhibit 21 of the *MMLOS Guidelines* has been used to evaluate the existing TkLOS at the study area intersections. Exhibit 22 of the *MMLOS Guidelines* identifies a target TkLOS D for Arterial Mainstreets and roadways within the General Urban Area with a truck route designation. No target TkLOS is identified for the roadways crossing Hazeldean Road or Terry Fox Drive. The results of the intersection TkLOS analysis are summarized in **Table 16**.
