

Preliminary Construction Management Plan

Date: August 13, 2025

Project Location: 4850 Bank Street

Owner / Application: Edge at Pathways Regional Inc.

Applicant Submission Checklist:

Question 1: Will Construction require the temporary detour of a bus route

A: The proposed work may require a temporary bus detour. Further details on the scope of work will be determined through the detailed design process once the engineering design has been finalized and a general contractor has been consulted.

Question 2: Will this work block a bike lane:

A: We are not aware of any bike lanes along Bank Street that would be impacted. Further details on the scope of work will be determined through the detailed design process once the engineering design has been finalized and a general contractor has been consulted.

Question 3: Will this work block a sidewalk?

A: We are not aware of any sidewalks along Bank Street that would be impacted. Further details on the scope of work will be determined through the detailed design process once the engineering design has been finalized and a general contractor has been consulted.

Question 4: Will this work require a lane of traffic to be closed:

A: The proposed work may require a lane of traffic to be closed. Further details on the scope of work will be determined through the detailed design process once the engineering design has been finalized and a general contractor has been consulted.
