**To** : **The City of Ottawa**  
**Re** : **Site Lighting Plan with Photometrics**  
**Project Title** : **3817-3843 Innes Road, Orleans**  
**Project Address** : **3817-3843 Innes Road, Orleans**  
**Quasar Project #** : **NCR-22-RE-010**

To Whom It May Concern

This letter is to confirm that the site lighting plan drawing E-100, "Issued for Site Plan Control", and dated 09/06/2022, has been designed with sharp cut-off fixtures such that minimal light spillage occurs on adjoining properties (maximum 0.5 fc). The location of the fixtures, as well as height, fixture type, make, model and part numbers are shown on the site lighting plan. The photometrics are also shown on the same plan.

Please do not hesitate to contact the undersigned should you have any questions.

Yours truly,

Terry Sedore, P.Eng.
