## **EXECUTIVE SUMMARY**

### **Assessment**

Paterson Group was retained by Avenyn to conduct a Phase I-Environmental Site Assessment (ESA) for the properties addressed 15, 17 and 19 Larch Street, in the City of Ottawa, Ontario. The purpose of this Phase I-ESA was to research the past and current use of the Phase I ESA Property and the Phase I Study Area and to identify any environmental concerns with the potential to have impacted the Phase I ESA Property.

According to the historical research, the subject property was initially developed with a private parking garage circa 1948 on the eastern portion of the site, followed by the present-day residential dwellings in 1956 on the western portion of the site (17 and 19 Larch Street). The western portion of the site (17-19 Larch Street) have always been used for residential purposes, while the eastern portion of the site (15 Larch Street) was expanded to the present-day commercial structure in 1972. This building has been used as a steel fabrication workshop for more than 30 years. The use of the 15 Larch Street as a steel fabrication workshop is a potentially contaminated activity (PCA) that is considered to generate an area of potential environmental concern (APEC).

Neighbouring lands historically have been used for residential and some retail use along Preston Street. Off-site PCAs included a printing depot, retail fuel outlet and automotive garage, cleaners and an ordnance depot. With the exception of the ordnance depot, all of the remaining PCAs were located sufficiently far enough that they are not considered to result in APECs on the Phase I ESA Property. The former presence of the ordnance depot located immediately west of the subject land is considered to result in an APEC on the Phase I ESA Property. The ordnance depot is understood to have served as a war-time warehouse.

Following the historical research, an inspection of the subject property and neighbouring lands was conducted to assess potential environmental concerns. The subject property is currently occupied by a two-storey building at 17 and 19 Larch Street with a finished basement and a steel fabrication workshop at 15 Larch Street. Given the parking areas observed, it is considered that the application of salt to these surfaces represents an APEC.

The neighbouring lands consist primarily of residential properties with commercial businesses along Preston Street. No new PCAs were identified with regard to the neighbouring lands.

## **Recommendations**

Based on our findings of the assessment, it is **our opinion that a Phase II-Environmental Site Assessment is required for the Phase I ESA Property.**

Based on the age of the buildings, potential asbestos containing materials (ACMs) may be present. The potential ACMs include plaster, ceiling stipple and dry wall joint compound. These materials were generally observed to be in good condition at the time of the site visit. An asbestos survey of the buildings must be conducted in accordance with Ontario Regulation 278/05, under the occupational Health and Safety Act, prior to the disturbance of these potential ACMs.

## **1.0 INTRODUCTION**

At the request of Avenyn Capital Partners LP, Paterson Group (Paterson) conducted a Phase I-Environmental Site Assessment (Phase I-ESA) for 15, 17 and 19 Larch Street, in the City of Ottawa, Ontario, herein referred to as the Phase I ESA Property. The purpose of this Phase I-ESA was to research the past and current use of the Phase I ESA Property and properties within the Phase I Study Area to identify any potentially contaminating activities (PCAs) that would result in areas of potential environmental concern (APECs) on the Phase I ESA Property.

Paterson was engaged to conduct this Phase I-ESA by Mr. Domenic Idone, with Avenyn Capital Partners LP. The head office of Avenyn Capital Partners LP is located at 503-359 Kent Street, Ottawa, Ontario.

This report has been prepared specifically and solely for the above noted project which is described herein. It contains all of our findings and results of the environmental conditions at this site.

This Phase I-ESA report has been prepared under the supervision of a Qualified Person, in general accordance with Ontario Regulation (O.Reg.) 153/04, as amended under the Environmental Protection Act, and also complies with the requirements of CSA Z768-01. The conclusions presented herein are based on information gathered from a limited historical review and field inspection program. The findings of the Phase I-ESA are based on a review of readily available geological, historical and regulatory information and a cursory review made at the time of the field assessment. The historical research relies on information supplied by others, such as, local, provincial and federal agencies and was limited within the scope-of-work, time and budget of the project herein.

## 2.0 PHASE I ESA PROPERTY INFORMATION

Address:	15, 17 and 19 Larch Street, Ottawa, Ontario
Legal Description:	Part of Block 122, Registered Plan 13, Lots 35 and 36 and Part of Lot 34, Registered Plan 82974, in the City of Ottawa, Ontario.
PIN:	04107-0066 (LT)
Location:	The Phase I ESA Property is located on the north side of Larch Street, approximately 85 m west of Preston Street. Refer to Figure 1 - Key Plan in Appendix 1 for the site location.
Latitude and Longitude:	45° 24' 19.8" N, 75° 42' 49.6" W

### Site Description:

Configuration:	Irregular
Area:	926 m <sup>2</sup> (approximately)
Zoning:	R4H – Residential Zone
Current Use:	The Phase I ESA Property is currently occupied by a two-storey multi-residential apartment building with a finished basement and a slab-on-grade commercial building formerly used as a steel fabrication workshop.
Services:	The Phase I ESA Property is situated in a municipally serviced area.

### **3.0 SCOPE OF INVESTIGATION**

The scope of work for this Phase I – Environmental Site Assessment was as follows:

- Determine the historical activities on the Phase I ESA Property and study area by conducting a review of readily available records, reports, photographs, plans, mapping, databases, and regulatory agencies;
- Investigate the existing conditions present at the Phase I ESA Property and study area by conducting site reconnaissance;
- Conduct interviews with persons knowledgeable of current and historic operations on the Phase I ESA Property, and if warranted, neighbouring properties;
- Present the results of our findings in a comprehensive report in general accordance with the requirements O.Reg. 153/04 as amended under the Environmental Protection Act and in compliance with the requirements of CSA Z768-01;
- Provide a preliminary environmental site evaluation based on our findings;
- Provide preliminary remediation recommendations and further investigative work if contamination is suspected or encountered.

## 4.0 RECORDS REVIEW

### 4.1 General

#### **Phase I-ESA Study Area Determination**

A radius of approximately 250 m was determined to be appropriate as a Phase I Study Area for this assignment. Properties outside the 250 m radius are not considered to have impacted the Phase I ESA Property based on their significant separation distance.

#### **First Developed Use Determination**

Based on the 1948 Fire Insurance Plans (FIPs), the Phase I ESA Property is occupied by a private garage at 15 Larch Street, followed by residential building at 17 and 19 Larch Street in 1956. Although the exact year of first developed use of the Phase I ESA Property is not known, for the purpose of this assessment, the Phase I ESA Property is considered to have been first developed for residential purposes in 1948.

#### **Fire Insurance Plans**

The 1912, 1948, and 1956 Fire Insurance Plans (FIPs) were reviewed as part of this assessment for the Phase I ESA Property and properties within the Phase I Study Area.

The 1912 FIP show the Phase I ESA Property as being undeveloped land. The 1948 FIP depicts the eastern portion of the subject land (15 Larch Street) as developed with a private garage, while western portion of the site (17 and 19 Larch Street) remains vacant. The 1956 FIPs shows the present-day residential dwellings (17 and 19 Larch Street) and a private garage at 15 Larch Street.

Neighbouring lands in the 1912 FIPs consist of residential dwellings with some commercial buildings located along Preston Street and a vacant lot immediately west of the site. The neighbouring lands in the 1948 and 1956 FIPs are occupied by residential and commercial buildings.

Five (5) potentially contaminating activities (PCAs) were identified during the review of the FIPs.

- An Ordnance Depot (war-time warehouse) at 933 Gladstone Avenue, immediately west of the site.

- A Printing Depot at 975 Gladstone Avenue, approximately 220 m west of the site.
- Cleaners and Dyer at 952 Gladstone Avenue, approximately 205 m southwest of the site.
- A retail fuel outlet with 2 USTs and an automotive repair garage at 225 Preston Street, approximately 105 m east of the site.
- The Canadian National Railway (CNR) and an associated coal storage shed can be seen further west of the site, approximately 100 m west.

Based on the separation distance with respect to the subject land, the CNR and coal storage is not considered to generate an area of potential environmental concern (APEC) to the Phase I ESA Property. The former ordnance depot immediately west is considered to represent an APEC on the Phase I ESA Property. Note that ordnance was not used at this location; the building served as a warehouse to serve war-time needs.

Potentially contaminating activities identified during the FIP review are shown in Drawing PE5506-2 – Surrounding land Use Plan and APECs generated by PCAs are shown in Drawing PE5506-1 – Site Plan.

### **City of Ottawa Directories**

City directories at the National Archives were reviewed. Based on the directories, the Phase I ESA Property as occupied by private individuals at 17 and 19 Larch Street from 1934 to 2011, and 15 Larch Street was listed as V Steel Works Ltd. from 1970 to 2011. It is expected that the eastern portion of the Phase I ESA Property was used as a steel fabrication workshop, which represents an on-site PCA and as such, an APEC on the Phase I ESA Property.

Neighbouring lands consisted of residential as well with some commercial land use along Preston Street. No new PCAs were identified during the directories review.

### **Chain of Title**

Paterson verified the current land title for the Phase I ESA Property with Read Abstracts Limited. The Chain of Title was received and reviewed for the Phase I ESA Property (15, 17 and 19 Larch Street: Lots 35 and 36 and part of Lot 34, Plan 82974, and part of Block 122, Plan 13).

The Phase I ESA Property is currently registered under 15-19 Larch St Inc. since October 2020. Prior to that, Dolita Frigo and Antonio Frigo owned the Phase I ESA

Property since 1970. A review of the Chain of Title did not identify any PCAs on the Phase I ESA Property. A copy of the Chain of Title is provided in Appendix 2.

## **4.2 Environmental Source Information**

### **Environment Canada**

A search of the National Pollutant Release Inventory (NPRI) was conducted electronically on November 11, 2021. No records were found in the NPRI database for properties within the Phase I Study Area.

### **PCB Inventory**

A search of national and provincial PCB waste storage sites was conducted. No PCB waste storage sites were reported within the Phase I Study Area.

### **Areas of Natural Significance**

A search for areas of natural significance and features within the Phase I Study Area was conducted on the website of the Ontario Ministry of Natural Resources (MNR) on November 11, 2021. The search did not reveal any areas of natural significance within the Phase I Study Area.

### **Ministry of the Environment, Conservation and Parks (MECP) Instruments**

A request was submitted to the MECP Freedom of Information (FOI) office for information with respect to certificates of approval, permits to take water, certificates of property use or any other similar MECP issued instruments for the site. No response from the MECP was received at the time of preparing this report. Paterson will notify the client of any environmental concerns noted in future correspondence from the MECP. A copy of the MECP FOI request is appended to this report.

### **MECP Submissions**

A request was submitted to the MECP FOI office for information with respect to reports related to environmental conditions for the properties. No response from the MECP was received at the time of preparing this report. Paterson will notify the client of any environmental concerns noted in future correspondence from the MECP. A copy of the MECP FOI request is appended to this report.

### **MECP Incident Reports**

A request was submitted to the MECP FOI office for information with respect to records concerning environmental incidents, orders, offences, spills, discharges of contaminants or inspections maintained by the MECP for the site or adjacent properties. No response from the MECP was received at the time of preparing this report. Paterson will notify the client of any environmental concerns noted in future correspondence from the MECP. A copy of the MECP FOI request is appended to this report.

### **MECP Waste Management Records**

A request was submitted to the MECP FOI office for information with respect to waste management records. No response from the MECP was received at the time of preparing this report. Paterson will notify the client of any environmental concerns noted in future correspondence from the MECP. A copy of the MECP FOI request is appended to this report.

### **MECP Coal Gasification Plant Inventory**

The Ontario Ministry of Environment document titled "Municipal Coal Gasification Plant Site Inventory, 1991" was reviewed to reference the locations of former plants with respect to the site. No Municipal Coal Gasification Plant Sites are located within the Phase I Study Area.

### **MECP Brownfields Environmental Site Registry (ESR)**

A search of the MECP Brownfields Environmental Site Registry was conducted as part of this assessment for the site, neighbouring properties, and the general area of the site. No Records of Site Condition (RSCs) were filed for the Phase I ESA Property or properties within the Phase I Study Area.

### **MECP Waste Disposal Site Inventory**

The Ontario Ministry of Environment document titled "Waste Disposal Site Inventory in Ontario, 1991" was reviewed as part of the historical research. This document includes all recorded active and closed waste disposal sites, industrial manufactured gas plants and coal tar distillation plants in the Province of Ontario. There are no former waste disposal sites located within 250m of the Phase I Study Area.

### **Technical Standards and Safety Authority (TSSA)**

The TSSA, Fuels Safety Branch in Toronto, was contacted November 11, 2021 to inquire about current and former underground/aboveground storage tanks, spills and incidents for the Phase I ESA Property and neighbouring properties.

No records were found for the subject site or neighbouring properties. A copy of the TSSA correspondence and ERIS report are provided in Appendix 2.

### **Former Industrial Sites**

The report entitled “Mapping and Assessment of Former Industrial Sites, City of Ottawa” was also reviewed. One former industrial site was located within the Phase I Study Area:

- #49: Famer and Garrett Tanners – Leather and allied products industry (c. 1890-1905) located at 187 Preston Street, approximately 90 m northeast of the site.

Based on the separation distance from the Phase I Property, this PCA is not considered to represent an APEC.

### **City of Ottawa Landfill Document**

The document entitled “Old Landfill Management Strategy, Phase I – Identification of Sites, City of Ottawa”, was reviewed. No former landfill sites have been identified within 250m of the Phase I ESA Property.

### **City of Ottawa Historical Land Use Inventory (HLUI)**

A requisition form was sent to the City of Ottawa to request information from the City’s Historical Land Use Inventory (HLUI) database for the Phase I ESA property and properties within a 250 m search area. No response from the City of Ottawa was received at the time of preparing this report. Paterson will notify the client of any environmental concerns noted in future correspondence from the City of Ottawa.

### **Environmental Risk Information Services (ERIS) Report**

An ERIS (Environmental Risk Information Service) Search Report was obtained for the properties within the Phase I Study Area.

According to the ERIS report, one record for the Phase I ESA Property: a Scott’s Manufacturing Directory record pertaining to platework and fabricated structural products as well as ornamental and architectural metal products manufacturing at

15 Larch Street. As previously discussed, the steel fabrication workshop (V Steel Works Ltd.) at 15 Larch Street is considered a potential environmental concern.

The ERIS report identified 23 Scott's Manufacturing Directory records within the study area, from 1886 to 2006 that pertain to plate work, ornamental and architectural, metal products, digital printing, newspaper publishers and men's and boy's clothing. None of the off-site Scott's Manufacturing Directory records are considered to represent an environmental concern to the subject land.

A total of 123 Ontario Waste Generators records were identified within the ERIS report. The records pertained to wastes registered from 1988 to 2019 and waste classes such as: oil skimming's and sludges, aliphatic solvents, light fuels and paint/pigment coating residues, which were identified more than 100 m from the subject site. Based on the separation distances and cross or down gradient orientation in respect to the subject site, the identified waste generators do not represent environmental concern for the Phase I ESA Property. A copy of the ERIS report is provided in the Appendix 2.

### **4.3 Physical Setting Sources**

#### **Aerial Photographs**

Historical air photos from the National Air Photo Library were reviewed in approximate ten (10) year intervals. Based on the review, the following observations have been made:

- |      |   |
|------|---|
| 1928 | The subject site appears to be vacant, and the surrounding lands consist primarily of residential dwellings with some commercial buildings. The property immediately west of the subject site is a large vacant lot. A rail line can be seen further west of the subject site. Larch Street, Laurel Street (north) and Preston Street (east) can be seen in their present-day orientations. |
| 1958 | The existing multi-tenant residential building is centrally located on the subject site. A smaller building can be seen on the southeastern corner of the subject site. A large warehouse building can be present at this time, immediately west of the subject site followed by a rail line. Increased commercial development can now be seen southwest of the rail line.                  |
| 1965 | No significant changes are apparent on the subject site or neighbouring lands.  |

- |      |  |
|------|--|
| 1976 | The eastern building appears to have been expanded, while the remainder of the subject site and neighbouring lands remain unchanged from the previous photograph.                                    |
| 1999 | No significant changes are apparent on the subject site or neighbouring lands.   |
| 2008 | No significant changes are apparent on the subject site or neighbouring lands, exempting the construction of a large recreational building north of the subject site, fronting Somerset Street West. |
| 2018 | No significant changes are apparent on the subject site or neighbouring lands.   |

Copies of selected aerial photographs reviewed are included in Appendix 1.

### **Physiographic Maps**

The Ontario Geological Survey publication ‘The Physiography of Southern Ontario, Third Edition’ was reviewed as a part of this assessment. According to the publication, the Phase I ESA Property is situated within the Ottawa Clay Plain physiographic region.

### **Topographic Maps**

Topographic maps were obtained from Natural Resources Canada – The Atlas of Canada website and from the City of Ottawa website. The topographic maps indicate that the regional topography in the general area of the Phase I ESA Property slopes down in a northwesterly direction towards the Ottawa River.

An illustration of the referenced topographic map is presented on Figure 2 – Topographic Map, appended to this report.

### **Geological Maps**

The Geological Survey of Canada website on the Urban Geology of the National Capital Area was consulted as part of this assessment. Based on the information from NRCAN, the subject site is situated in an area where bedrock consists of interbedded limestone and shale of the Verulam Formation. The surficial geology consists of till with a drift thickness on the order of 3 to 5m.

## **Water Well Records**

A search of the MECPs website for all drilled well records within 250m of the Phase I ESA property was conducted. Based on the online mapping search results, no well records were identified on the Phase I ESA Property. It should be noted that there are three monitoring wells on-site that were drilled in June 2020.

Seventeen (17) well records were identified within the Phase I Study Area, all of which were monitoring wells. With the exception of one monitoring well, the remaining wells were identified on properties more than 200 m away from the Phase I ESA Property and as such, they are not considered a potential concern.

The closest monitoring well was identified at Balsam Avenue at Preston Street. Based on this well record, the stratigraphy in the area consists of fill material (sandy silt to sandy clay), followed by glacial till. The well was drilled to a maximum depth of 4.6 m below the existing ground surface. Bedrock was not encountered. No other information was provided in the well records. A copy of the well records has been included in Appendix 2.

## **Areas of Natural Significance**

No area of natural significance is present on the Phase I ESA Property or within the Phase I Study Area.

## **Water Bodies**

No natural waterbodies are present on the Phase I ESA Property or within the Phase I Study Area.

# **5.0 INTERVIEWS**

## **Property Owner Representative**

As part of this assessment, Mr. Antonio Frigo, the current landowner was present during the site visit. Mr. Frigo's father acquired the properties circa 1971. The multi-tenant homes were always used for residential purposes and were originally heated using furnace oil. According to Mr. Frigo, the residential building was converted to natural gas in the early 1980s.

The private garage at 15 Larch Street was expanded with a north addition in 1972, to which it was converted to a commercial use building used as a steel fabrication workshop that builds custom fencing, gates and structural components for at least 30 years. The commercial building was heated using propane fired equipment and

a wood burning stove. According to Mr. Frigo, no fuels or chemicals are stored on-site.

With the exception of the steel fabrication workshop, no potential environmental concerns were noted during the interview. Mr. Frigo is not aware of any potential concerns regarding the subject site or neighbouring lands. Any other pertinent information obtained during the interview has been included in the relevant sections of this report.

## **6.0 SITE RECONNAISSANCE**

### **6.1 General Requirements**

A site visit was conducted on November 11, 2021, by Ms. Mandy Witteman from the Environmental Department of Paterson Group. Weather conditions were sunny with a temperature of approximately 5° C. In addition to the site, the uses of neighbouring properties within the Phase I Study Area were also assessed at the time of the site visit.

### **6.2 Specific Observations at the Phase I ESA Property**

#### **Existing Buildings and Structures**

The western portion of the Phase I ESA Property is occupied by a two (2) storey multi-tenant apartment building with a finished basement. The residence was constructed with a concrete block foundation and finished exterior in red brick with a sloped shingled style roof.

The commercial building, presently vacant, is situated on the eastern portion of the site was initially used a private parking garage that was constructed with a slab-on-grade foundation and concrete block walls with a sloped shingled style roof. The northern extension was constructed in 1972 with a flat tar-and-gravel style roof. The entire building was used as a steel fabrication workshop.

#### **Site Features**

The Phase I ESA Property is relatively flat and slightly above the grade of Larch Street. The majority of the site is landscaped with a pavement structure fronting Larch Street, which is used for parking. Salt may have been applied to these surfaces during conditions of snow or ice or both. Site drainage consists of infiltration on the landscaped areas and sheet flow to drains located along Larch

Street. No ponding of water, signs of surficial contamination or stressed vegetation were observed at the time of the site visit.

No above ground storage tanks (ASTs) or signs of underground storage tanks (USTs) were observed on the exterior of the subject property at the time of the site visit. No hazardous chemicals or spills were observed at the time of the site visit.

Solid, non-hazardous domestic waste and recyclables are stored on the southwestern side of the subject building at 17-19 Larch Street and collected regularly by the City of Ottawa. No concerns were identified with respect to waste management practices at the subject site. No waste is currently produced by the steel fabrication workshop.

No evidence of current or former railway or spur lines was observed on the Phase I ESA Property at the time of the site visit.

The use of salt, applied to parking or walking surfaces, during conditions of snow or ice or both, is considered to represent an APEC on the Phase I Property. No other PCAs were identified with the current use of the Phase I ESA Property.

### **Subsurface Services and Utilities**

The Phase I ESA Property is situated in a municipally serviced area. Underground utilities and/or structures enter the Phase I ESA Property from Larch Street.

### **Interior Assessment**

A general description of the interior of 17-19 Larch Street is as follows:

- The floors throughout the building consisted of ceramic tiles, hardwood and poured concrete (basement);
- The walls throughout the building consisted of drywall and hard plaster in the units and concrete blocks and steel decking (basement);
- The ceilings throughout the building consisted of ceiling stipple and drywall;
- Lighting throughout the building was provided by incandescent and fluorescent fixtures.

A general description of the interior of 15 Larch Street is as follows:

- The floors throughout the building consisted of poured concrete;
- The walls throughout the building consisted of cement parging and concrete blocks;

- The ceilings throughout the building consisted of steel decking;
- Lighting throughout the building was provided by fluorescent fixtures.

The buildings are heated with natural gas-fired furnaces located in the basements of the residential dwellings, while the furnace in the garage is a ceiling/suspended natural gas fired furnace.

No storage tanks were identified on the Phase I ESA Property. No indications of former oil tanks, leaks or spills were noted during the site visit. Floor drains were noted in the basements of the dwellings, which drain to the municipal sewer system. No floor drains were noted in the garage. No sumps or pits were observed. There were no unidentified substances on the interior or exterior of the Phase I ESA Property at the time of this assessment. No potential environmental concerns were noted in the interior of the subject building.

### **Potentially Hazardous Building Products**

- Asbestos-Containing Materials (ACMs)**

Based on the visual inspection and the age of the subject buildings, asbestos containing materials (ACMs) may be potentially present. Potential ACMs include the plaster, ceiling stipple, and drywall joint compound. Potential ACMs were generally observed to be in good condition at the time of the assessment.

- Lead-Based Paint**

Based on the approximate age of the structures, lead-based paints may be present on painted surfaces. Painted surfaces were generally observed to be in good condition at the time of the assessment.

- Polychlorinated Biphenyls (PCBs)**

Based on the visual inspection of the subject property, no PCBs are suspected to be present.

- Urea Formaldehyde Foam Insulation (UFFI)**

No UFFI was identified during the visual inspection of the residential dwellings, however the wall cavities were not inspected.

## **Neighbouring Properties**

An inspection of the neighbouring properties was conducted from publicly accessible roadways at the time of the site inspection. Land use adjacent to the Phase I ESA Property is as follows:

Land use adjacent to the subject site was as follows:

- North – An easement, followed by residences;
- South – Larch Street, followed by residences;
- East – Residences; and
- West – Vacant land.

Land use within the Phase I Study Area (250 m radius) consists of commercial and residential properties. No new off-site PCAs were identified at the time of the site visit. Surrounding land use is shown on Drawing PE5506-2 – Surrounding Land Use Plan.

## 7.0 REVIEW AND EVALUATION OF INFORMATION

### 7.1 Land Use History

The following tables indicate the current and past uses of the Phase I ESA Property, dating back to the first developed use of the site.

<b>Table 1A: Land Use History – 15 Larch Street Part of Lot 34, Plan 82974, and part of Block 122, Plan 13.</b>				
<b>Year</b>	<b>Name of Owner</b>	<b>Description of Property Use</b>	<b>Property Use</b>	<b>Other Observations from Aerial Photos, FIPs, etc.</b>
Prior to 1855	Crown	Residential or Vacant	Residential use	None available
1855-1905	John Pinhey	Residential or Vacant	Residential use	None available
1905-1907	John Bishop and Christopher Taggart	Residential or Vacant	Residential use	None available
1907-1908	Joseph Wilson	Residential or Vacant	Residential use	None available
1908-1910	William Hunt	Residential or Vacant	Residential use	None available
1910	Philip Lennon	Residential or Vacant	Residential use	None available
1910-1913	Daniel O'Connor	Residential or Vacant	Residential use	1912 FIP depicts the Phase I Property as vacant land.
1913-1916	William Tremble	Residential or Vacant	Residential use	None available
1916-1925	Lydia King	Residential or Vacant	Residential use	None available
1925-1938	Corporation of the City of Ottawa	Residential	Residential use	1928 aerial photograph shows the Phase I Property as being occupied by the present day residential building at 15 and 17 Larch Street.
1938-1952	Isabella Balhanie	Residential	Residential use	1948 FIP depicts the Phase I Property as being occupied by the present day residential building
1952-1954	John F. Herdman	Residential	Residential use	None available.
1954-1970	Estate of Ernest Joannissee	Residential	Residential use	1956 FIP and 1965 aerial photograph shows the Phase I Property remains unchanged.
1970-2020	Antonio and Dolita Frigo	Steel fabrication workshop	Commercial use	Based on a personal interview with the current land owner at that time, the site has always been used for residential purposes, with the exception of the eastern side of the property, which was used as a metal shop.

<b>Table 1A: Land Use History – 15 Larch Street Part of Lot 34, Plan 82974, and part of Block 122, Plan 13.</b>				
<b>Year</b>	<b>Name of Owner</b>	<b>Description of Property Use</b>	<b>Property Use</b>	<b>Other Observations from Aerial Photos, FIPs, etc.</b>
2020-present	15-19 Larch St Inc.	Steel fabrication workshop	Commercial use	Based on the most recent site visit and interview with the current land owner.

1970-2020	Antonio and Dolita Frigo	Welding shop	Commercial use	Based on a personal interview with the current landowner at that time, the site has always been used for residential purposes.
2020-present	15-19 Larch St Inc.	Steel fabrication workshop	Commercial use	Based on the most recent site visit and interview with the current land owner.

The historical land use of the Phase I ESA Property consisted of commercial and residential land uses.

---

## Potentially Contaminating Activities and Areas of Potential Environmental Concern

Based on the findings of the Phase I ESA, three (3) potentially contaminating activities (PCAs) are considered to have resulted in areas of potential environmental concern (APECs) on the Phase I ESA Property.

As per Column A of Table 2 of the O.Reg. 153/04, as amended, the following on-site PCAs that generated APECs on the Phase I ESA Property are:

- PCA 34 – “Metal Fabrication,” associated with the former on-site metal welding and fabrication shop (APEC 1).
- PCA 27 – “Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles” associated with the ordnance building used to store wartime equipment. (APEC 2).
- Application of salt to parking surfaces during conditions of snow or ice or both (APEC3)

The APECs are shown on Drawing PE5506-1 – Site Plan, while the corresponding PCAs are shown in red on Drawing PE5506-2 – Surrounding Land Use Plan.

## Contaminants of Potential Concern

Based on the APECs identified on the Phase I ESA Property, the contaminants of potential concern (CPCs) in soil and/or groundwater are:

- Volatile Organic Compounds (VOCs)
- Petroleum Hydrocarbons (PHCs, F1-F4)
- Metals including arsenic, antimony and selenium, mercury (Hg) and hexavalent chromium (CrVI).

## 7.2 Conceptual Site Model

### Geological and Hydrogeological Setting

According to the Geological Survey of Canada website, the bedrock in the area of the Phase I ESA Property is reported to consist of interbedded limestone and shale, of the Verulam Formation. Overburden consists of plain till, with a drift thickness on the order of 3 to 5 m.

Based on the regional topography, groundwater is expected to flow in a northwesterly direction.

### **Areas of Natural Significance**

No area of natural significance is present on the Phase I ESA Property or within the Phase I Study Area.

### **Water Bodies**

No natural waterbodies are present on the Phase I ESA Property or within the Phase I Study Area.

### **Drinking Water Wells**

There are no potable water wells on the Phase I ESA Property, nor are they expected to be present as the subject land is situated in a municipally serviced area.

### **Existing Buildings and Structures**

The western portion of the Phase I ESA Property is occupied by a two (2) storey multi-tenant apartment building with a finished basement. The residence was constructed circa 1956 with a concrete block foundation and finished exterior in red brick with a sloped shingled style roof.

The commercial building, presently vacant, is situated on the eastern portion of the site was initially used a private parking garage that was constructed circa 1948 with a slab-on-grade foundation and concrete block walls with a sloped shingled style roof. The northern extension was constructed in 1972 with a flat tar-and-gravel style roof. The entire building was used as a steel fabrication workshop.

### **Subsurface Structures and Utilities**

The Phase I ESA Property is situated in a municipally serviced area. Underground utilities and/or structures enter the Phase I ESA Property from Larch Street.

### **Neighbouring Land Use**

Neighbouring land use in the Phase I Study Area consists of commercial and residential properties.

## Potentially Contaminating Activities and Areas of Potential Environmental Concern

As per Section 7.1 of this report, two (2) PCAs and the resultant APECs are summarized in Table 2, along with their respective locations and contaminants of potential concern (CPCs).

<b>Table 2: Potentially Contaminating Activities and Areas of Potential Environmental Concern</b>					
<b>Area of Potential Environmental Concern</b>	<b>Location of Area of Potential Environmental Concern</b>	<b>Potentially Contaminating Activity</b>	<b>Location of PCA (on-site or off-site)</b>	<b>Contaminants of Potential Concern</b>	<b>Media Potentially Impacted (Groundwater, Soil, and/or Sediment)</b>
APEC 1: Resulting from the metal / welding shop	Eastern portion of the Phase I ESA Property	PCA 34 – Metal Fabrication	On-site	BTEX VOCs PHCs (F <sub>1</sub> -F <sub>4</sub> ) Metals (Hg, CrVI)	Soil and/or Groundwater
APEC 2: Resulting from the historical presence of an ordnance depot (warehouse)	Western portion of the Phase I ESA Property	PCA 27 – Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-site	VOCs PHCs (F <sub>1</sub> -F <sub>4</sub> ) Metals (Hg, CrVI)	Groundwater
APEC3: Application of salt to parking surfaces during conditions of snow or ice or both	South portion of the Phase I ESA property	Application of salt to parking surfaces during conditions of snow or ice or both	On-Site	EC/SAR	Soil

## Contaminants of Potential Concern

As per Section 7.1, the contaminants of potential concern (CPCs) in soil and/or groundwater include benzene, toluene, ethylbenzene, and xylenes (BTEX), volatile organic compounds (VOCs), petroleum hydrocarbons (PHCs, F1-F4) and Metals including arsenic, antimony and selenium, mercury (Hg) and hexavalent chromium (CrVI).

### **Assessment of Uncertainty and/or Absence of Information**

The information available for review as part of the preparation of this Phase I- ESA is considered to be sufficient to conclude that there are PCAs that have resulted in APECs on the Phase I ESA Property.

A variety of independent sources were consulted as part of this assessment, and as such, the conclusions of this report are not affected by uncertainty which may be present with respect to the individual sources.

## **8.0 CONCLUSIONS**

### **8.1 Assessment**

Paterson Group was retained by Avenyn to conduct a Phase I-Environmental Site Assessment (ESA) for the properties addressed 15, 17 and 19 Larch Street, in the City of Ottawa, Ontario. The purpose of this Phase I-ESA was to research the past and current use of the Phase I ESA Property and the Phase I Study Area and to identify any environmental concerns with the potential to have impacted the Phase I ESA Property.

According to the historical research, the subject property was initially developed with a private parking garage circa 1948 on the eastern portion of the site, followed by the present-day residential dwellings in 1956 on the western portion of the site (17 and 19 Larch Street). The western portion of the site (17-19 Larch Street) have always been used for residential purposes, while the eastern portion of the site (15 Larch Street) was expanded to the present-day commercial structure in 1972. This building has been used as a steel fabrication workshop for more than 30 years. The use of the 15 Larch Street as a steel fabrication workshop is a potentially contaminated activity (PCA) that is considered to generate an area of potential environmental concern (APEC).

Neighbouring lands historically have been used for residential and some retail use along Preston Street. Off-site PCAs included a printing depot, retail fuel outlet and automotive garage, cleaners and an ordnance depot. With the exception of the ordnance depot, all of the remaining PCAs were located sufficiently far enough that they are not considered to result in APECs on the Phase I ESA Property. The former presence of the ordnance depot located immediately west of the subject land is considered to result in an APEC on the Phase I ESA Property. The ordnance depot is understood to have served as a war-time warehouse.

Following the historical research, an inspection of the subject property and neighbouring lands was conducted to assess potential environmental concerns. The subject property is currently occupied by a two-storey building at 17 and 19 Larch Street with a finished basement and a steel fabrication workshop at 15 Larch Street. Given the parking areas observed, it is considered that the application of salt to these surfaces represents an APEC.

The neighbouring lands consist primarily of residential properties with commercial businesses along Preston Street. No new PCAs were identified with regard to the neighbouring lands.

## 8.2 Recommendations

Based on our findings of the assessment, it is **our opinion that a Phase II-Environmental Site Assessment is required for the Phase I ESA Property.**

Based on the age of the buildings, potential asbestos containing materials (ACMs) may be present. The potential ACMs include plaster, ceiling stipple and dry wall joint compound. These materials were generally observed to be in good condition at the time of the site visit. An asbestos survey of the buildings must be conducted in accordance with Ontario Regulation 278/05, under the occupational Health and Safety Act, prior to the disturbance of these potential ACMs.

## 9.0 STATEMENT OF LIMITATIONS

This Phase I - Environmental Site Assessment report has been prepared under the supervision of a Qualified Person, in general accordance with O.Reg. 153/04, as amended, and meets the requirements of CSA Z768-01. The conclusions presented herein are based on information gathered from a limited historical review and field inspection program. The findings of the Phase I - ESA are based on a review of readily available geological, historical and regulatory information and a cursory review made at the time of the field assessment. The historical research relies on information supplied by others, such as, local, provincial and federal agencies and was limited within the scope-of-work, time and budget of the project herein.

Should any conditions be encountered at the Phase I ESA Property and/or historical information that differ from our findings, we request that we be notified immediately in order to allow for a reassessment.

This report was prepared for the sole use of Avenyn Capital Partners LP. Permission and notification from the Avenyn Capital Partners LP and Paterson will be required to release this report to any other party.

Dear Mandy Witteman:

RE: ***Freedom of Information and Protection of Privacy Act Request***  
**Our File # A-2021-07872, Your Reference PE4945-X**

The Ministry is in receipt of your request made pursuant to the *Freedom of Information and Protection of Privacy Act* and has received your payment in the amount of \$5.00 (non-refundable application fee).

**The search will be conducted on the following: 15 & 19 Larch Street, Ottawa. If there is any discrepancy please contact us immediately.**

You may expect a reply or additional communication as your request is processed. For your information, the Ministry charges for search and preparation time.

Due to the COVID-19 outbreak, requesters may experience some delays with FOI requests at this time.

This is to advise you, we've gone digital! Requests submitted by fax will no longer be accepted starting August 31, 2021. If you submitted requests by fax before August 31, 2021, we'll process it. Please don't re-submit it using the online form or you might get charged twice. The online form can be found on the central forms repository at the following link

<https://www.forms.ssb.gov.on.ca/mbs/ssb/forms/ssbforms.nsf/FormDetail?OpenForm&ACT=RDR&TAB=PROFILE&SRCH=1&ENV=WWE&TIT=freedom+of+information&NO=012-2146E>.

If you have any questions regarding this matter, please contact Nasreen Salar at or [nasreen.salar@ontario.ca](mailto:nasreen.salar@ontario.ca).

Yours truly,

Well Record

Regulation 903 Ontario Water Resources Act

01287 Page 3 of 4

Measurements recorded in:  Metric  Imperial

Well Owner's Information

First Name: City of Last Name / Organization: Ottawa E-mail Address: Well Constructed by Well Owner

Mailing/Address (Street Number/Name): 175 Loretta St N Municipality: Ottawa Province: ON Postal Code: K1Y 4H8 Telephone No. (inc. area code):

Well Location Address of Well Location (Street Number/Name): 175 Loretta St. N. Township: Lot: Concession:

County/District/Municipality: City/Town/Village: Ottawa Province: Ontario Postal Code:

UTM Coordinates: Zone: 18 Easting: 11814441055 Northing: 5028051 Municipal Plan and Sublot Number: Other:

Overburden and Bedrock Materials/Abandonment Sealing Record (see instructions on the back of this form)

Table with 5 columns: General Colour, Most Common Material, Other Materials, General Description, Depth (m/ft) From To. Rows include Brn cobbles/gravel, silt, sand fill, sand clay, Hard dry, soft wet.

Annular Space

Table with 3 columns: Depth Set at (m/ft) From To, Type of Sealant Used (Material and Type), Volume Placed (m³/ft³). Rows include Concrete/Flushmount, Benseal, Sand.

Results of Well Yield Testing

Table with 4 columns: Draw Down (Time (min), Water Level (m/ft)), Recovery (Time (min), Water Level (m/ft)). Includes sections for After test of well yield, water was; If pumping discontinued, give reason; Pump intake set at; Pumping rate; Duration of pumping; Final water level end of pumping; If flowing give rate; Recommended pump depth; Recommended pump rate; Well production; Disinfected?

Method of Construction

- Method of Construction: Cable Tool, Rotary (Conventional), Rotary (Reverse), Boring, Air percussion, Other, specify Direct Push. Well Use: Public, Commercial, Not used, Domestic, Municipal, Dewatering, Test Hole, Monitoring, Livestock, Irrigation, Cooling & Air Conditioning, Industrial, Other, specify.

Construction Record - Casing

Table with 4 columns: Inside Diameter (cm/in), Open Hole OR Material (Galvanized, Fibreglass, Concrete, Plastic, Steel), Wall Thickness (cm/in), Depth (m/ft) From To. Status of Well: Water Supply, Replacement Well, Test Hole, Recharge Well, Dewatering Well, Observation and/or Monitoring Hole, Alteration (Construction), Abandoned, Insufficient Supply, Abandoned, Poor Water Quality, Abandoned, other, specify, Other, specify.

Construction Record - Screen

Table with 4 columns: Outside Diameter (cm/in), Material (Plastic, Galvanized, Steel), Slot No., Depth (m/ft) From To.

Water Details

Table with 3 columns: Water found at Depth (m/ft), Kind of Water: Fresh, Untested, Gas, Other, specify. Hole Diameter: Depth (m/ft) From To, Diameter (cm/in).

Well Contractor and Well Technician Information

Business Name of Well Contractor: Strata Soil Sampling Well Contractor's Licence No.: 7241 Business Address (Street Number/Name): 147-2 W. Beaver creek Municipality: Richmond Hill Province: ON Postal Code: L4Y 1C6 Business E-mail Address: wrecords@stratasoil.com

Bus. Telephone No. (inc. area code): 90571649304 Name of Well Technician (Last Name, First Name): Beathy Brian Well Technician's Licence No.: 3616 Signature of Technician and/or Contractor: Date Submitted: 2012/11/17

Map of Well Location

Comments:

Table with 3 columns: Well owner's information package delivered (Yes/No), Date Package Delivered (YYYYMMDD), Date Work Completed (YYYYMMDD), Ministry Use Only (Audit No., Received).

Measurements recorded in:  Metric  Imperial

**Subject:** RE: Search Records Request (PE5506)

**Please refrain from sending documents to head office and only submit your requests electronically via email along with credit card payment. We are all working remotely and mailing in applications with cheques will lengthen the overall processing time.**

### NO RECORD FOUND

Hello,

Thank you for your request for confirmation of public information.

- We confirm that there are no records in our database of any fuel storage tanks at the subject addresses.

For a further search in our archives please complete our release of public information form found at <https://www.tssa.org/en/about-tssa/release-of-public-information.aspx?mid=392> and email the completed form to [publicinformationsservices@tssa.org](mailto:publicinformationsservices@tssa.org) along with a fee of \$56.50 (including HST) per location. The fee is payable with credit card (Visa or MasterCard).

Although TSSA believes the information provided pursuant to your request is accurate, please note that TSSA does not warrant this information in any way whatsoever.

Kind regards,

Mariah

Planning Fee

\$128.00

## Submittal Requirements

The following are required to be submitted with this application:

- 1. Consent to Disclose Information:** Consultants and other third parties may make requests for information on behalf of an individual or corporation. However, if the requester is not the owner of the property, **the requester must provide the City of Ottawa with a 'consent to disclose information' letter, signed by the property owner.** This will authorize the City of Ottawa to release any relevant information about the property or its owner(s) to the requester. Consent for disclosure is required in the event that personal information or proprietary company information is found concerning the property and its owner. All consents must clearly indicate the name of the property owner as well as the name of the requester, and must be signed and dated.
- 2. Disclaimer:** Requesters must read and understand the conditions included in the attached disclaimer and submit a signed disclaimer to the City of Ottawa's Planning, Infrastructure and Economic Development Department. This disclaimer is related to the Historic Land Use Inventory and must be received by the City of Ottawa, signed and dated by the requestor, before the process can begin.
- 3. A site plan or key plan of the property, its location and particular features.**
- 4. Any significant dates or time frames that you would like researched.**

**Disclaimer**  
**For use with HLUI Database**

CITY OF OTTAWA ("the City") is the owner of the Historical Land Use Inventory ("HLUI"), a database of information on the type and location of land uses within the geographic area of Ottawa, which had or have the potential to cause contamination in soil, groundwater or surface water.

The City, in providing information from the HLUI, to Paterson Group Inc. ("the Requester") does so only under the following conditions and understanding:

1. The HLUI may contain erroneous information given that such records and sources of information may be flawed. Changes in municipal addresses over time may have introduced error in such records and sources of information. The City is not responsible for any errors or omissions in the HLUI and reserves the right to change and update the HLUI without further notice. The City does not, however, make any commitment to update the HLUI. Accordingly, all information from the HLUI is provided on an "as is" basis with no representation or warranty by the City with respect to the information's accuracy or exhaustiveness in responding to the request.
2. City staff will perform a search of the HLUI based on the information given by the Requester. City staff will make every effort to be accurate, however, the City does not provide an assurance, guarantee, warranty, representation (express or implied), as to the availability, accuracy, completeness or currency of information which will be provided to the Requester. The HLUI in no way confirms the presence or absence of contamination or pollution of any kind. The information provided by the City to the Requester is provided on the assumption that it will not be relied upon by any person whatsoever. The City denies all liability to any such persons attempting to rely on any information provided from the HLUI database.
3. The City, its employees, servants, agents, boards, officials or contractors take no responsibility for any actions, claims, losses, liability, judgments, demands, expenses, costs, damages or harm suffered by any person whatsoever including negligence in compiling or disseminating information in the HLUI.
4. Copyright is reserved to the City.
5. Any use of the information provided from the HLUI which a third party makes, or any reliance on or decisions to be based on it, are the responsibilities of such third parties. The City, its employees, servants, agents, boards, officials or contractors accept no responsibility for any damages, if any, suffered by a third party as a result of decisions made as a result of an information search of the HLUI.
6. Any use of this service by the Requestor indicates an acknowledgement, acceptance and limits of this disclaimer.
7. All information collected under this request and all records provided in response to this request are subject to the provisions of the Municipal Freedom of Information and Protection of Privacy Act, R.S.O. 1990, c. M.56, as amended.

# Executive Summary

## Property Information:

**Project Property:** PE4945 - 15 - 19 Larch Street  
15-19 Larch Street Ottawa ON K1R 6W4

**Project No:** 30126

## **Coordinates:**

**Latitude:** 45.4055553  
**Longitude:** -75.713835  
**UTM Northing:** 5,028,251.87  
**UTM Easting:** 444,137.21  
**UTM Zone:** 18T

**Elevation:** 211 FT  
64.18 M

## Order Information:

**Order No:** 20200515158  
**Date Requested:** May 15, 2020  
**Requested by:** Paterson Group Inc.  
**Report Type:** Standard Report

## Historical/Products:

## Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. **Note:** Databases denoted with " \* " indicates that the database will no longer be updated. See the individual database description for more information.

### **Abandoned Aggregate Inventory:**

Provincial

[AAGR](#)

The MAAP Program maintains a database of abandoned pits and quarries. Please note that the database is only referenced by lot and concession and city/town location. The database provides information regarding the location, type, size, land use, status and general comments.\*

**Government Publication Date: Sept 2002\***

### **Aggregate Inventory:**

Provincial

[AGR](#)

The Ontario Ministry of Natural Resources maintains a database of all active pits and quarries. The database provides information regarding the registered owner/operator, location name, operation type, approval type, and maximum annual tonnage.

**Government Publication Date: Up to Sep 2019**

### **Abandoned Mine Information System:**

Provincial

[AMIS](#)

The Abandoned Mines Information System contains data on known abandoned and inactive mines located on both Crown and privately held lands. The information was provided by the Ministry of Northern Development and Mines (MNDM), with the following disclaimer: "the database provided has been compiled from various sources, and the Ministry of Northern Development and Mines makes no representation and takes no responsibility that such information is accurate, current or complete". Reported information includes official mine name, status, background information, mine start/end date, primary commodity, mine features, hazards and remediation.

**Government Publication Date: 1800-Oct 2018**

### **Anderson's Waste Disposal Sites:**

Private

[ANDR](#)

The information provided in this database was collected by examining various historical documents which aimed to characterize the likely position of former waste disposal sites from 1860 to present. The research initiative behind the creation of this database was to identify those sites that are missing from the Ontario MOE Waste Disposal Site Inventory, as well as to provide revisions and corrections to the positions and descriptions of sites currently listed in the MOE inventory. In addition to historic waste disposal facilities, the database also identifies certain auto wreckers and scrap yards that have been extrapolated from documentary sources. Please note that the data is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

**Government Publication Date: 1860s-Present**

### **Aboveground Storage Tanks:**

Provincial

[AST](#)

Historical listing of aboveground storage tanks made available by the Department of Natural Resources and Forestry. Includes tanks used to hold water or petroleum. This dataset has been retired as of September 25, 2014 and will no longer be updated.

**Government Publication Date: May 31, 2014**

### **Automobile Wrecking & Supplies:**

Private

[AUWR](#)

This database provides an inventory of known locations that are involved in the scrap metal, automobile wrecking/recycling, and automobile parts & supplies industry. Information is provided on the company name, location and business type.

**Government Publication Date: 1999-Jan 31, 2020**

### **Borehole:**

Provincial

[BORE](#)

A borehole is the generalized term for any narrow shaft drilled in the ground, either vertically or horizontally. The information here includes geotechnical investigations or environmental site assessments, mineral exploration, or as a pilot hole for installing piers or underground utilities. Information is from many sources such as the Ministry of Transportation (MTO) boreholes from engineering reports and projects from the 1950 to 1990's in Southern Ontario. Boreholes from the Ontario Geological Survey (OGS) including The Urban Geology Analysis Information System (UGAIS) and the York Peel Durham Toronto (YPDT) database of the Conservation Authority Moraine Coalition. This database will include fields such as location, stratigraphy, depth, elevation, year drilled, etc. For all water well data or oil and gas well data for Ontario please refer to WWIS and OOGW.

**Government Publication Date: 1875-Jul 2018**

**Certificates of Approval:**

Provincial CA

This database contains the following types of approvals: Air & Noise, Industrial Sewage, Municipal & Private Sewage, Waste Management Systems and Renewable Energy Approvals. The MOE in Ontario states that any facility that releases emissions to the atmosphere, discharges contaminants to ground or surface water, provides potable water supplies, or stores, transports or disposes of waste, must have a Certificate of Approval before it can operate lawfully. Fields include approval number, business name, address, approval date, approval type and status. This database will no longer be updated, as CofA's have been replaced by either Environmental Activity and Sector Registry (EASR) or Environmental Compliance Approval (ECA). Please refer to those individual databases for any information after Oct.31, 2011.

**Government Publication Date: 1985-Oct 30, 2011\***

**Dry Cleaning Facilities:**

Federal CDRY

List of dry cleaning facilities made available by Environment and Climate Change Canada. Environment and Climate Change Canada's Tetrachloroethylene (Use in Dry Cleaning and Reporting Requirements) Regulations (SOR/2003-79) are intended to reduce releases of tetrachloroethylene to the environment from dry cleaning facilities.

**Government Publication Date: Jan 2004-Dec 2017**

**Commercial Fuel Oil Tanks:**

Provincial CFOT

Locations of commercial underground fuel oil tanks. This is not a comprehensive or complete inventory of commercial fuel tanks in the province; this listing is a copy of records of registered commercial underground fuel oil tanks obtained under Access to Public Information.

Note that the following types of tanks do not require registration: waste oil tanks in apartments, office buildings, residences, etc.; aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: Feb 28, 2017**

**Chemical Register:**

Private CHEM

This database includes information from both a one time study conducted in 1992 and private source and is a listing of facilities that manufacture or distribute chemicals. The production of these chemical substances may involve one or more chemical reactions and/or chemical separation processes (i.e. fractionation, solvent extraction, crystallization, etc.).

**Government Publication Date: 1999-Jan 31, 2020**

**Compressed Natural Gas Stations:**

Private CNG

Canada has a network of public access compressed natural gas (CNG) refuelling stations. These stations dispense natural gas in compressed form at 3,000 pounds per square inch (psi), the pressure which is allowed within the current Canadian codes and standards. The majority of natural gas refuelling is located at existing retail gasoline that have a separate refuelling island for natural gas. This list of stations is made available by the Canadian Natural Gas Vehicle Alliance.

**Government Publication Date: Dec 2012 - Feb 2020**

**Inventory of Coal Gasification Plants and Coal Tar Sites:**

Provincial COAL

This inventory includes both the "Inventory of Coal Gasification Plant Waste Sites in Ontario-April 1987" and the Inventory of Industrial Sites Producing or Using Coal Tar and Related Tars in Ontario-November 1988) collected by the MOE. It identifies industrial sites that produced and continue to produce or use coal tar and other related tars. Detailed information is available and includes: facility type, size, land use, information on adjoining properties, soil condition, site operators/occupants, site description, potential environmental impacts and historic maps available. This was a one-time inventory.\*

**Government Publication Date: Apr 1987 and Nov 1988\***

**Compliance and Convictions:**

Provincial CONV

This database summarizes the fines and convictions handed down by the Ontario courts beginning in 1989. Companies and individuals named here have been found guilty of environmental offenses in Ontario courts of law.

**Government Publication Date: 1989-Dec 2019**

**Certificates of Property Use:**

Provincial CPU

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all CPU's on the registry such as (EPA s. 168.6) - Certificate of Property Use.

**Government Publication Date: 1994-Apr 30, 2020**

**Drill Hole Database:**

Provincial DRL

The Ontario Drill Hole Database contains information on more than 113,000 percussion, overburden, sonic and diamond drill holes from assessment files on record with the department of Mines and Minerals. Please note that limited data is available for southern Ontario, as it was the last area to be completed. The database was created when surveys submitted to the Ministry were converted in the Assessment File Research Image Database (AFRI) project. However, the degree of accuracy (coordinates) as to the exact location of drill holes is dependent upon the source document submitted to the MNDM. Levels of accuracy used to locate holes are: centering on the mining claim; a sketch of the mining claim; a 1:50,000 map; a detailed company map; or from submitted a "Report of Work".

**Government Publication Date: 1886 - Sep 2019**

**Environmental Activity and Sector Registry:**

Provincial [EASR](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. The EASR allows businesses to register certain activities with the ministry, rather than apply for an approval. The registry is available for common systems and processes, to which preset rules of operation can be applied. The EASR is currently available for: heating systems, standby power systems and automotive refinishing. Businesses whose activities aren't subject to the EASR may apply for an ECA (Environmental Compliance Approval), Please see our ECA database.

**Government Publication Date: Oct 2011-Apr 30, 2020**

**Environmental Registry:**

Provincial [EBR](#)

The Environmental Registry lists proposals, decisions and exceptions regarding policies, Acts, instruments, or regulations that could significantly affect the environment. Through the Registry, thirteen provincial ministries notify the public of upcoming proposals and invite their comments. For example, if a local business is requesting a permit, license, or certificate of approval to release substances into the air or water; these are notified on the registry. Data includes: Approval for discharge into the natural environment other than water (i.e. Air) - EPA s. 9, Approval for sewage works - OWRA s. 53(1), and EPA s. 27 - Approval for a waste disposal site. For information regarding Permit to Take Water (PTTW), Certificate of Property Use (CPU) and (ORD) Orders please refer to those individual databases.

**Government Publication Date: 1994-Apr 30, 2020**

**Environmental Compliance Approval:**

Provincial [ECA](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. In the past, a business had to apply for multiple approvals (known as certificates of approval) for individual processes and pieces of equipment. Today, a business either registers itself, or applies for a single approval, depending on the types of activities it conducts. Businesses whose activities aren't subject to the EASR may apply for an ECA. A single ECA addresses all of a business's emissions, discharges and wastes. Separate approvals for air, noise and waste are no longer required. This database will also include Renewable Energy Approvals. For certificates of approval prior to Nov 1st, 2011, please refer to the CA database. For all Waste Disposal Sites please refer to the WDS database.

**Government Publication Date: Oct 2011-Apr 30, 2020**

**Environmental Effects Monitoring:**

Federal [EEM](#)

The Environmental Effects Monitoring program assesses the effects of effluent from industrial or other sources on fish, fish habitat and human usage of fisheries resources. Since 1992, pulp and paper mills have been required to conduct EEM studies under the Pulp and Paper Effluent Regulations. This database provides information on the mill name, geographical location and sub-lethal toxicity data.

**Government Publication Date: 1992-2007\***

**ERIS Historical Searches:**

Private [EHS](#)

ERIS has compiled a database of all environmental risk reports completed since March 1999. Available fields for this database include: site location, date of report, type of report, and search radius. As per all other databases, the ERIS database can be referenced on both the map and "Statistical Profile" page.

**Government Publication Date: 1999-Jan 31, 2020**

**Environmental Issues Inventory System:**

Federal [EIS](#)

The Environmental Issues Inventory System was developed through the implementation of the Environmental Issues and Remediation Plan. This plan was established to determine the location and severity of contaminated sites on inhabited First Nation reserves, and where necessary, to remediate those that posed a risk to health and safety; and to prevent future environmental problems. The EIS provides information on the reserve under investigation, inventory number, name of site, environmental issue, site action (Remediation, Site Assessment), and date investigation completed.

**Government Publication Date: 1992-2001\***

**Emergency Management Historical Event:**

Provincial [EMHE](#)

List of locations of historical occurrences of emergency events, including those assigned to the Ministry of Natural Resources by Order-In-Council (OIC) under the Emergency Management and Civil Protection Act, as well as events where MNR provided requested emergency response assistance. Many of these events will have involved community evacuations, significant structural loss, and/or involvement of MNR emergency response staff. These events fall into one of ten (10) type categories: Dam Failure; Drought / Low Water; Erosion; Flood; Forest Fire; Soil and Bedrock Instability; Petroleum Resource Center Event, EMO Requested Assistance, Continuity of Operations Event, Other Requested Assistance. EMHE record details are reproduced by ERIS under License with the Ontario Ministry of Natural Resources © Queen's Printer for Ontario, 2017.

**Government Publication Date: Dec 31, 2016**

**Environmental Penalty Annual Report:**

Provincial [EPAR](#)

This database contains data from Ontario's annual environmental penalty report published by the Ministry of the Environment and Climate Change. These reports provide information on environmental penalties for land or water violations issued to companies in one of the nine industrial sectors covered by the Municipal Industrial Strategy for Abatement (MISA) regulations.

**Government Publication Date: Jan 1, 2011 - Dec 31, 2019**

**List of Expired Fuels Safety Facilities:**

Provincial EXP

List of facilities and tanks for which there was once a fuel registration. This is not a comprehensive or complete inventory of expired tanks/tank facilities in the province; this listing is a copy of previously registered tanks and facilities obtained under Access to Public Information. Includes private fuel outlets, bulk plants, fuel oil tanks, gasoline stations, marinas, propane filling stations, liquid fuel tanks, piping systems, etc; includes tanks which have been removed from the ground.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: Feb 28, 2017**

**Federal Convictions:**

Federal FCON

Environment Canada maintains a database referred to as the "Environmental Registry" that details prosecutions under the Canadian Environmental Protection Act (CEPA) and the Fisheries Act (FA). Information is provided on the company name, location, charge date, offence and penalty.

**Government Publication Date: 1988-Jun 2007\***

**Contaminated Sites on Federal Land:**

Federal FCS

The Federal Contaminated Sites Inventory includes information on known federal contaminated sites under the custodianship of departments, agencies and consolidated Crown corporations as well as those that are being or have been investigated to determine whether they have contamination arising from past use that could pose a risk to human health or the environment. The inventory also includes non-federal contaminated sites for which the Government of Canada has accepted some or all financial responsibility. It does not include sites where contamination has been caused by, and which are under the control of, enterprise Crown corporations, private individuals, firms or other levels of government. Includes fire training sites and sites at which Per- and Polyfluoroalkyl Substances (PFAS) are a concern.

**Government Publication Date: Jun 2000-Nov 2019**

**Fisheries & Oceans Fuel Tanks:**

Federal FOFT

Fisheries & Oceans Canada maintains an inventory of aboveground & underground fuel storage tanks located on Fisheries & Oceans property or controlled by DFO. Our inventory provides information on the site name, location, tank owner, tank operator, facility type, storage tank location, tank contents & capacity, and date of tank installation.

**Government Publication Date: 1964-Sep 2019**

**Federal Identification Registry for Storage Tank Systems (FIRSTS):**

Federal FRST

A list of federally regulated Storage tanks from the Federal Identification Registry for Storage Tank Systems (FIRSTS). FIRSTS is Environment and Climate Change Canada's database of storage tank systems subject to the Storage Tank for Petroleum Products and Allied Petroleum Products Regulations. The main objective of the Regulations is to prevent soil and groundwater contamination from storage tank systems located on federal and aboriginal lands. Storage tank systems that do not have a valid identification number displayed in a readily visible location on or near the storage tank system may be refused product delivery.

**Government Publication Date: May 31, 2018**

**Fuel Storage Tank:**

Provincial FST

List of registered private and retail fuel storage tanks. This is not a comprehensive or complete inventory of private and retail fuel storage tanks in the province; this listing is a copy of registered private and retail fuel storage tanks, obtained under Access to Public Information.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: Feb 28, 2017**

**Fuel Storage Tank - Historic:**

Provincial FSTH

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks. Public records of private fuel storage tanks are only available since the registration became effective in September 1989. This information is now collected by the Technical Standards and Safety Authority.

**Government Publication Date: Pre-Jan 2010\***

**Ontario Regulation 347 Waste Generators Summary:**

Provincial GEN

Regulation 347 of the Ontario EPA defines a waste generation site as any site, equipment and/or operation involved in the production, collection, handling and/or storage of regulated wastes. A generator of regulated waste is required to register the waste generation site and each waste produced, collected, handled, or stored at the site. This database contains the registration number, company name and address of registered generators including the types of hazardous wastes generated. It includes data on waste generating facilities such as: drycleaners, waste treatment and disposal facilities, machine shops, electric power distribution etc. This information is a summary of all years from 1986 including the most currently available data. Some records may contain, within the company name, the phrase "See & Use..." followed by a series of letters and numbers. This occurs when one company is amalgamated with or taken over by another registered company. The number listed as "See & Use", refers to the new ownership and the other identification number refers to the original ownership. This phrase serves as a link between the 2 companies until operations have been fully transferred.

**Government Publication Date: 1986-Jan 31, 2020**

**Greenhouse Gas Emissions from Large Facilities:**

Federal

GHG

List of greenhouse gas emissions from large facilities made available by Environment Canada. Greenhouse gas emissions in kilotonnes of carbon dioxide equivalents (kt CO2 eq).

**Government Publication Date: 2013-Dec 2017**

**TSSA Historic Incidents:**

Provincial

HINC

List of historic incidences of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen recorded by the TSSA in their previous incident tracking system. The TSSA's Fuels Safety Program administers the Technical Standards & Safety Act 2000, providing fuel-related safety services associated with the safe transportation, storage, handling and use of fuels such as gasoline, diesel, propane, natural gas and hydrogen. Under this Act, the TSSA regulates fuel suppliers, storage facilities, transport trucks, pipelines, contractors and equipment or appliances that use fuels. Records are not verified for accuracy or completeness. This is not a comprehensive or complete inventory of historical fuel spills and leaks in the province. This listing is a copy of the data captured at one moment in time and is hence limited by the record date provided here.

**Government Publication Date: 2006-June 2009\***

**Indian & Northern Affairs Fuel Tanks:**

Federal

IAFT

The Department of Indian & Northern Affairs Canada (INAC) maintains an inventory of aboveground & underground fuel storage tanks located on both federal and crown land. Our inventory provides information on the reserve name, location, facility type, site/facility name, tank type, material & ID number, tank contents & capacity, and date of tank installation.

**Government Publication Date: 1950-Aug 2003\***

**Fuel Oil Spills and Leaks:**

Provincial

INC

Listing of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen reported to the Spills Action Centre (SAC). This is not a comprehensive or complete inventory of fuel-related leaks, spills, and incidents in the province; this listing is a copy of incidents reported to the SAC, obtained under Access to Public Information. Includes incidents from fuel-related hazards such as spills, fires, and explosions. Records are not verified for accuracy or completeness.

**Government Publication Date: Feb 28, 2017**

**Landfill Inventory Management Ontario:**

Provincial

LIMO

The Landfill Inventory Management Ontario (LIMO) database is updated every year, as the ministry compiles new and updated information. The inventory will include small and large landfills. Additionally, each year the ministry will request operators of the larger landfills complete a landfill data collection form that will be used to update LIMO and will include the following information from the previous operating year. This will include additional information such as estimated amount of total waste received, landfill capacity, estimated total remaining landfill capacity, fill rates, engineering designs, reporting and monitoring details, size of location, service area, approved waste types, leachate of site treatment, contaminant attenuation zone and more. The small landfills will include information such as site owner, site location and certificate of approval # and status.

**Government Publication Date: Feb 28, 2019**

**Canadian Mine Locations:**

Private

MINE

This information is collected from the Canadian & American Mines Handbook. The Mines database is a national database that provides over 290 listings on mines (listed as public companies) dealing primarily with precious metals and hard rocks. Listed are mines that are currently in operation, closed, suspended, or are still being developed (advanced projects). Their locations are provided as geographic coordinates (x, y and/or longitude, latitude). As of 2002, data pertaining to Canadian smelters and refineries has been appended to this database.

**Government Publication Date: 1998-2009\***

**Mineral Occurrences:**

Provincial

MNR

In the early 70's, the Ministry of Northern Development and Mines created an inventory of approximately 19,000 mineral occurrences in Ontario, in regard to metallic and industrial minerals, as well as some information on building stones and aggregate deposits. Please note that the "Horizontal Positional Accuracy" is approximately +/- 200 m. Many reference elements for each record were derived from field sketches using pace or chain/tape measurements against claim posts or topographic features in the area. The primary limiting factor for the level of positional accuracy is the scale of the source material. The testing of horizontal accuracy of the source materials was accomplished by comparing the plan metric (X and Y) coordinates of that point with the coordinates of the same point as defined from a source of higher accuracy.

**Government Publication Date: 1846-Jan 2020**

**National Analysis of Trends in Emergencies System (NATES):**

Federal

NATE

In 1974 Environment Canada established the National Analysis of Trends in Emergencies System (NATES) database, for the voluntary reporting of significant spill incidents. The data was to be used to assist in directing the work of the emergencies program. NATES ran from 1974 to 1994. Extensive information is available within this database including company names, place where the spill occurred, date of spill, cause, reason and source of spill, damage incurred, and amount, concentration, and volume of materials released.

**Government Publication Date: 1974-1994\***

**Non-Compliance Reports:**

Provincial

NCPL

The Ministry of the Environment provides information about non-compliant discharges of contaminants to air and water that exceed legal allowable limits, from regulated industrial and municipal facilities. A reported non-compliance failure may be in regard to a Control Order, Certificate of Approval, Sectoral Regulation or specific regulation/act.

**Government Publication Date:** Dec 31, 2018

**National Defense & Canadian Forces Fuel Tanks:**

Federal

NDFT

The Department of National Defense and the Canadian Forces maintains an inventory of all aboveground & underground fuel storage tanks located on DND lands. Our inventory provides information on the base name, location, tank type & capacity, tank contents, tank class, date of tank installation, date tank last used, and status of tank as of May 2001. This database will no longer be updated due to the new National Security protocols which have prohibited any release of this database.

**Government Publication Date:** Up to May 2001\*

**National Defense & Canadian Forces Spills:**

Federal

NDSP

The Department of National Defense and the Canadian Forces maintains an inventory of spills to land and water. All spill sites have been classified under the "Transportation of Dangerous Goods Act - 1992". Our inventory provides information on the facility name, location, spill ID #, spill date, type of spill, as well as the quantity of substance spilled & recovered.

**Government Publication Date:** Mar 1999-Apr 2018

**National Defence & Canadian Forces Waste Disposal Sites:**

Federal

NDWD

The Department of National Defence and the Canadian Forces maintains an inventory of waste disposal sites located on DND lands. Where available, our inventory provides information on the base name, location, type of waste received, area of site, depth of site, year site opened/closed and status.

**Government Publication Date:** 2001-Apr 2007\*

**National Energy Board Pipeline Incidents:**

Federal

NEBI

Locations of pipeline incidents from 2008 to present, made available by the Canada Energy Regulator (CER) - previously the National Energy Board (NEB). Includes incidents reported under the Onshore Pipeline Regulations and the Processing Plant Regulations related to pipelines under federal jurisdiction, does not include incident data related to pipelines under provincial or territorial jurisdiction.

**Government Publication Date:** 2008-Mar 31, 2020

**National Energy Board Wells:**

Federal

NEBP

The NEBW database contains information on onshore & offshore oil and gas wells that are outside provincial jurisdiction(s) and are thereby regulated by the National Energy Board. Data is provided regarding the operator, well name, well ID No./UWI, status, classification, well depth, spud and release date.

**Government Publication Date:** 1920-Feb 2003\*

**National Environmental Emergencies System (NEES):**

Federal

NEES

In 2000, the Emergencies program implemented NEES, a reporting system for spills of hazardous substances. For the most part, this system only captured data from the Atlantic Provinces, some from Quebec and Ontario and a portion from British Columbia. Data for Alberta, Saskatchewan, Manitoba and the Territories was not captured. However, NEES is also a repository for previous Environment Canada spill datasets. NEES is composed of the historic datasets ' or Trends ' which dates from approximately 1974 to present. NEES Trends is a compilation of historic databases, which were merged and includes data from NATES (National Analysis of Trends in Emergencies System), ARTS (Atlantic Regional Trends System), and NEES. In 2001, the Emergencies Program determined that variations in reporting regimes and requirements between federal and provincial agencies made national spill reporting and trend analysis difficult to achieve. As a consequence, the department has focused efforts on capturing data on spills of substances which fall under its legislative authority only (CEPA and FA). As such, the NEES database will be decommissioned in December 2004.

**Government Publication Date:** 1974-2003\*

**National PCB Inventory:**

Federal

NPCB

Environment Canada's National PCB inventory includes information on in-use PCB containing equipment in Canada including federal, provincial and private facilities. Federal out-of-service PCB containing equipment and PCB waste owned by the federal government or by federally regulated industries such as airlines, railway companies, broadcasting companies, telephone and telecommunications companies, pipeline companies, etc. are also listed. Although it is not Environment Canada's mandate to collect data on non-federal PCB waste, the National PCB inventory includes some information on provincial and private PCB waste and storage sites. Some addresses provided may be Head Office addresses and are not necessarily the location of where the waste is being used or stored.

**Government Publication Date:** 1988-2008\*

**National Pollutant Release Inventory:**

Federal

NPRI

Environment Canada has defined the National Pollutant Release Inventory ("NPRI") as a federal government initiative designed to collect comprehensive national data regarding releases to air, water, or land, and waste transfers for recycling for more than 300 listed substances.

**Government Publication Date:** 1993-May 2017

**Oil and Gas Wells:**

Private

[OGWE](#)

The Nickle's Energy Group (publisher of the Daily Oil Bulletin) collects information on drilling activity including operator and well statistics. The well information database includes name, location, class, status and depth. The main Nickle's database is updated on a daily basis, however, this database is updated on a monthly basis. More information is available at [www.nickles.com](http://www.nickles.com).

**Government Publication Date: 1988-Feb 29, 2020**

**Ontario Oil and Gas Wells:**

Provincial

[OOGW](#)

In 1998, the MNR handed over to the Ontario Oil, Gas and Salt Resources Corporation, the responsibility of maintaining a database of oil and gas wells drilled in Ontario. The OGSR Library has over 20,000+ wells in their database. Information available for all wells in the ERIS database include well owner/operator, location, permit issue date, and well cap date, license No., status, depth and the primary target (rock unit) of the well being drilled. All geology/stratigraphy table information, plus all water table information is also provide for each well record.

**Government Publication Date: 1800-Jun 2019**

**Inventory of PCB Storage Sites:**

Provincial

[OPCB](#)

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of PCB storage sites within the province. Ontario Regulation 11/82 (Waste Management - PCB) and Regulation 347 (Generator Waste Management) under the Ontario EPA requires the registration of inactive PCB storage equipment and/or disposal sites of PCB waste with the Ontario Ministry of Environment. This database contains information on: 1) waste quantities; 2) major and minor sites storing liquid or solid waste; and 3) a waste storage inventory.

**Government Publication Date: 1987-Oct 2004; 2012-Dec 2013**

**Orders:**

Provincial

[ORD](#)

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all Orders on the registry such as (EPA s. 17) - Order for remedial work, (EPA s. 18) - Order for preventative measures, (EPA s. 43) - Order for removal of waste and restoration of site, (EPA s. 44) - Order for conformity with Act for waste disposal sites, (EPA s. 136) - Order for performance of environmental measures.

**Government Publication Date: 1994-Apr 30, 2020**

**Canadian Pulp and Paper:**

Private

[PAP](#)

This information is part of the Pulp and Paper Canada Directory. The Directory provides a comprehensive listing of the locations of pulp and paper mills and the products that they produce.

**Government Publication Date: 1999, 2002, 2004, 2005, 2009-2014**

**Parks Canada Fuel Storage Tanks:**

Federal

[PCFT](#)

Canadian Heritage maintains an inventory of known fuel storage tanks operated by Parks Canada, in both National Parks and at National Historic Sites. The database details information on site name, location, tank install/removal date, capacity, fuel type, facility type, tank design and owner/operator.

**Government Publication Date: 1920-Jan 2005\***

**Pesticide Register:**

Provincial

[PES](#)

The Ontario Ministry of the Environment and Climate Change maintains a database of licensed operators and vendors of registered pesticides.

**Government Publication Date: 1988 - Apr 2020**

**Pipeline Incidents:**

Provincial

[PINC](#)

List of pipeline incidents (strikes, leaks, spills). This is not a comprehensive or complete inventory of pipeline incidents in the province; this listing in an historical copy of records previously obtained under Access to Public Information. Records are not verified for accuracy or completeness.

**Government Publication Date: Feb 28, 2017**

**Private and Retail Fuel Storage Tanks:**

Provincial

[PRT](#)

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks and licensed retail fuel outlets. This database includes an inventory of locations that have gasoline, oil, waste oil, natural gas and/or propane storage tanks on their property. The MCCR no longer collects this information. This information is now collected by the Technical Standards and Safety Authority (TSSA).

**Government Publication Date: 1989-1996\***

**Permit to Take Water:**

Provincial

[PTTW](#)

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all PTTW's on the registry such as OWRA s. 34 - Permit to take water.

**Government Publication Date: 1994-Apr 30, 2020**

**Ontario Regulation 347 Waste Receivers Summary:**

Provincial

REC

Part V of the Ontario Environmental Protection Act ("EPA") regulates the disposal of regulated waste through an operating waste management system or a waste disposal site operated or used pursuant to the terms and conditions of a Certificate of Approval or a Provisional Certificate of Approval. Regulation 347 of the Ontario EPA defines a waste receiving site as any site or facility to which waste is transferred by a waste carrier. A receiver of regulated waste is required to register the waste receiving facility. This database represents registered receivers of regulated wastes, identified by registration number, company name and address, and includes receivers of waste such as: landfills, incinerators, transfer stations, PCB storage sites, sludge farms and water pollution control plants. This information is a summary of all years from 1986 including the most currently available data.

**Government Publication Date: 1986-2016**

**Record of Site Condition:**

Provincial

RSC

The Record of Site Condition (RSC) is part of the Ministry of the Environment's Brownfields Environmental Site Registry. Protection from environmental clean-up orders for property owners is contingent upon documentation known as a record of site condition (RSC) being filed in the Environmental Site Registry. In order to file an RSC, the property must have been properly assessed and shown to meet the soil, sediment and groundwater standards appropriate for the use (such as residential) proposed to take place on the property. The Record of Site Condition Regulation (O. Reg. 153/04) details requirements related to site assessment and clean up.

RSCs filed after July 1, 2011 will also be included as part of the new (O.Reg. 511/09).

**Government Publication Date: 1997-Sept 2001, Oct 2004-Mar 2020**

**Retail Fuel Storage Tanks:**

Private

RST

This database includes an inventory of retail fuel outlet locations (including marinas) that have on their property gasoline, oil, waste oil, natural gas and / or propane storage tanks.

**Government Publication Date: 1999-Jan 31, 2020**

**Scott's Manufacturing Directory:**

Private

SCT

Scott's Directories is a data bank containing information on over 200,000 manufacturers across Canada. Even though Scott's listings are voluntary, it is the most comprehensive database of Canadian manufacturers available. Information concerning a company's address, plant size, and main products are included in this database.

**Government Publication Date: 1992-Mar 2011\***

**Ontario Spills:**

Provincial

SPL

This database identifies information such as location (approximate), type and quantity of contaminant, date of spill, environmental impact, cause, nature of impact, etc. Information from 1988-2002 was part of the ORIS (Occurrence Reporting Information System). The SAC (Spills Action Centre) handles all spills reported in Ontario. Regulations for spills in Ontario are part of the MOE's Environmental Protection Act, Part X.

**Government Publication Date: 1988-Nov 2019**

**Wastewater Discharger Registration Database:**

Provincial

SRDS

Information under this heading is combination of the following 2 programs. The Municipal/Industrial Strategy for Abatement (MISA) division of the Ontario Ministry of Environment maintained a database of all direct dischargers of toxic pollutants within nine sectors including: Electric Power Generation; Mining; Petroleum Refining; Organic Chemicals; Inorganic Chemicals; Pulp & Paper; Metal Casting; Iron & Steel; and Quarries. All sampling information is now collected and stored within the Sample Result Data Store (SRDS).

**Government Publication Date: 1990-Dec 31, 2017**

**Anderson's Storage Tanks:**

Private

TANK

The information provided in this database was collected by examining various historical documents, which identified the location of former storage tanks, containing substances such as fuel, water, gas, oil, and other various types of miscellaneous products. Information is available in regard to business operating at tank site, tank location, permit year, permit & installation type, no. of tanks installed & configuration and tank capacity. Data contained within this database pertains only to the city of Toronto and is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

**Government Publication Date: 1915-1953\***

**Transport Canada Fuel Storage Tanks:**

Federal

TCFT

List of fuel storage tanks currently or previously owned or operated by Transport Canada. This inventory also includes tanks on The Pickering Lands, which refers to 7,530 hectares (18,600 acres) of land in Pickering, Markham, and Uxbridge owned by the Government of Canada since 1972; properties on this land has been leased by the government since 1975, and falls under the Site Management Policy of Transport Canada, but is administered by Public Works and Government Services Canada. This inventory provides information on the site name, location, tank age, capacity and fuel type.

**Government Publication Date: 1970-Aug 2018**

**Variances for Abandonment of Underground Storage Tanks:**

Provincial

[VAR](#)

Listing of variances granted for storage tank abandonment. This is not a comprehensive or complete inventory of tank abandonment variances in the province; this listing is a copy of tank abandonment variance records previously obtained under Access to Public Information. In Ontario, registered underground storage tanks must be removed within two years of disuse; if removal of a tank is not feasible, an application may be sought for a variance from this code requirement.

Records are not verified for accuracy or completeness.

**Government Publication Date: Feb 28, 2017**

**Waste Disposal Sites - MOE CA Inventory:**

Provincial

[WDS](#)

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of known open (active or inactive) and closed disposal sites in the Province of Ontario. Active sites maintain a Certificate of Approval, are approved to receive and are receiving waste. Inactive sites maintain Certificate(s) of Approval but are not receiving waste. Closed sites are not receiving waste. The data contained within this database was compiled from the MOE's Certificate of Approval database. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number. All new Environmental Compliance Approvals handed out after Oct 31, 2011 for Waste Disposal Sites will still be found in this database.

**Government Publication Date: Oct 2011-Apr 30, 2020**

**Waste Disposal Sites - MOE 1991 Historical Approval Inventory:**

Provincial

[WDSH](#)

In June 1991, the Ontario Ministry of Environment, Waste Management Branch, published the "June 1991 Waste Disposal Site Inventory", of all known active and closed waste disposal sites as of October 30st, 1990. For each "active" site as of October 31st 1990, information is provided on site location, site/CA number, waste type, site status and site classification. For each "closed" site as of October 31st 1990, information is provided on site location, site/CA number, closure date and site classification. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number.

**Government Publication Date: Up to Oct 1990\***

**Water Well Information System:**

Provincial

[WWIS](#)

This database describes locations and characteristics of water wells found within Ontario in accordance with Regulation 903. It includes such information as coordinates, construction date, well depth, primary and secondary use, pump rate, static water level, well status, etc. Also included are detailed stratigraphy information, approximate depth to bedrock and the approximate depth to the water table.

**Government Publication Date: Feb 28, 2019**

# Definitions

**Database Descriptions:** This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

**Detail Report:** This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

**Distance:** The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

**Direction:** The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

**Elevation:** The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

**Executive Summary:** This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

**Map Key:** The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

**Unplottables:** These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

# **APPENDIX 3**

## **QUALIFICATIONS OF ASSESSORS**

## Adrian Menyhart P.Eng, ing., QP<sub>esa</sub>

Adrian received his Bachelor of Engineering from Carleton University in 2011, with a specialization in environmental engineering, and joined Paterson Group shortly after graduation. Over the next seven years, Adrian gained significant experience in all aspects of environmental engineering beginning with field work and later, with reporting and project management. In 2018, Adrian joined the National Research Council as an environmental officer, working in the field of polyfluoroalkyl substances (PFAS) at the National Fire Laboratory. Following the National Research Council, Adrian returned to consulting at WSP Canada Inc. At WSP, Adrian assisted the Ottawa environmental group as a project manager, managing large and small federal environmental projects such as the investigations for the proposed Alexandra interprovincial bridge. Finally, after two years away, Adrian returned to Paterson Group as a senior project manager within the environmental department.

Over the course of his career, Adrian has become well versed with environmental site assessments and remediation programs, in both Ontario and Quebec, designated substance surveys, mould assessments and indoor air quality assessments. Adrian has filed multiple Records of Site Condition with the Ontario Ministry of the Environment, Conservation and Parks. Fluently bilingual, Adrian holds engineering licenses in both Ontario and Quebec, as well as being a Qualified Person in the Province of Ontario.

### EDUCATION

B.Eng. 2011, Environmental Engineering, Carleton University, Ottawa, ON

### LICENCE/ PROFESSIONAL AFFILIATIONS

Ordre des Ingénieurs du Québec  
Professional Engineers of Ontario  
Ottawa Geotechnical Group

### YEARS OF EXPERIENCE 10 years

WSP Canada Inc.  
2019-2020

National Research Council  
2018-2019

Paterson Group  
2011 – 2018

### OFFICE LOCATION

Paterson's Ottawa Office

### SELECT LIST OF PROJECTS

- Alexandra Bridge Replacement, Phase II ESA, Ottawa/Gatineau – provided oversight of the Phase I and Phase II program for the bridge replacement program.
- National Fire Laboratory, PFAS investigation – Provided technical support for the National Research Council, with respect to the ongoing PFAS investigation.
- Ottawa Arts Gallery Expansion, Ottawa, ON (remediation supervisor) – Provided guidance in the segregation of soils on the site, managing contaminated and clean materials, providing daily correspondence with the client. Successfully filed a Record of Site Condition for the property.
- Ottawa Heart Institute Construction, Ottawa, ON (project manager) – Conducted air sampling for parameters such as particulate matter, lead, mould and asbestos
- Conducted and managed numerous designated substance surveys and asbestos surveys throughout Ontario and Quebec, for private and federal clients, collecting representative samples of potential asbestos containing materials and preparing comprehensive reports.
- Conducted and managed numerous air sampling programs, collecting samples for environmental parameters such as asbestos, lead and mould, and preparing reports.
- Conducted and managed Phase I and II Environmental Site Assessments across Ontario and Quebec

**PROFESSIONAL EXPERIENCE**

November 2020 to Present, **Environmental Engineer, Paterson Group Inc.**, Ottawa, Ontario

- Coordination, preparation and management of Phase I and Phase II Environmental Site Assessment.
- Coordination, preparation and managed Designated Substance Surveys and indoor air quality assessments.
- Preparation of soil and groundwater remediation plans.
- Filing records of site condition with the Ontario Ministry of the Environment, Conservation and Parks.
- Implementation of Excess Soil Regulations, Ontario.

March 2019 to 2020, **Environmental Engineer, WSP Canada Inc.**, Ottawa, Ontario

- Coordinated, prepared Phase I and Phase II Environmental Site Assessments for Federal and private clients.
- Coordinated, prepared and managed Designated Substance Surveys for various Federal and private clients, in both English and French.
- Managed all projects from preparation of proposals, to final invoicing.

September 2018 to 2019, **Environmental Officer, National Research Council**, Ottawa, Ontario

- Oversaw on-going PFAS investigation program at the National Fire Laboratory in Almonte, Ontario, being carried out by NRC consultants.
- Reviewed and commented on deliverables prepared by consultants, while coordinating with internal legal, communications, and presidential departments within the NRC.
- Corresponded with area residents surrounding the Laboratory.
- Coordinated potable water supply program.

September 2011 to 2018, **Environmental Engineer, Paterson Group Inc.**, Ottawa, Ontario

- Prepare, revise and submit all documentation and reports for the successful filing of Records of Site Condition with the Ministry of the Environment and Climate Change
- Provide on-site environmental expertise for remediation projects including Ottawa Arts Gallery, Rideau Centre Expansion and Tall Ships Landing, among various small scale remediation project within the greater Ottawa area.
- Coordinate field programs and prepare reports for Phase I and II projects across Ontario and Quebec.
- Oversee environmental investigations for drilling and test pitting on numerous proposed utility installations, residential and commercial developments.
- Conduct designated substance surveys in Ontario and Quebec.
- Coordinate air sampling programs for various environmental parameters, comparing results with regulatory standards and other guidelines.
- Problem solving to help advance or maintain project schedules.
- Complete environmental reports with recommendations for environmental concerns.
- Liaising with contractors, consultants and government officials.
- Provide cost estimates for environment field programs and construction costs.

June to September from 2009 to 2011, **Inspector, Canadian Food Inspection Agency**, Ottawa, Ontario

- Conducted the trapping program for the Emerald Ash Borer across Eastern Ontario.
- Assisted in the preparation and training of other inspectors for the trapping program.
- Conducted inspections for restricted wood products at various campgrounds.
- Assisted other inspectors in inspecting shipments of wood products from other countries, in certain cases, seizing and disposing of items.
- Compiling data and preparing reports.
