1 Executive Summary

Englobe Corp. (Englobe) was retained by API Consultants Inc. (herein referred to as the “Client”), on behalf of 401 Real Estate Trust, the property owner at the time of this assessment, to conduct a Phase I Environmental Site Assessment (ESA) for the property located at 40 Frank Nighbor Place in Kanata, Ontario (herein referred to as the “Site” or “Phase I Property”). The Site location is shown in Figure 1, in Appendix A.

The purpose of this Phase I ESA was to evaluate actual and potential environmental concerns on Site and to assess the potential for the Site to be impacted by the current and/or historical uses of the Site and surrounding properties. This Phase I ESA was completed in general accordance with the requirements of *Ontario Regulation 153/04 Records of Site Condition - Part XV.1 of the Act under the Ontario Environmental Protection Act, R.S.O. 1990, chapter E.19* (O. Reg. 153/04), as amended, in support of a City of Ottawa Site Plan Control Application (SPCA). This report is not intended to be utilized as supporting documentation for the filing of a Record of Site Condition for the Site in accordance with O. Reg. 153/04 (as amended). It is Englobe’s understanding that there are current plans for the construction of a six-storey hotel at the Site.

The scope of this Phase I ESA did not include sampling and analysis of potentially contaminated media. Information regarding the Phase I Study Area (the Site and the area within 250 m of the Site boundaries) was compiled through a records review, Site reconnaissance visit, and interview with persons knowledgeable about the Site. Federal, provincial, municipal, and private agencies/databases were searched during the records review for indicators of potential environmental concerns with regards to the Site and Phase I Study Area.

The Site is located at 40 Frank Nighbor Place, Kanata, ON K2V 1B9. It is located in the City of Ottawa’s Kanata South Ward, on the west side of Frank Nighbor Place. The Site is an irregularly shaped parcel of land, with a total property area of approximately 8115 m² (GeoOttawa, 2022). It is located within an area zoned as IL6[1414] H(30)-h - Light Industrial Zone. At the time of Englobe’s assessment, the Site consisted of vacant land.

The following one Area of Potential Environmental Concern (APEC) was identified on the Phase I Property:

APECs identified at the Phase I Property.

PCA				APEC			
PCA No.	O. Reg. 153/04 PCA Item No.	PCA Location (On/Off Site)	Historical and/or Current Activities	APEC No.	Location of APEC on the Site	Contaminants of Potential Concern (COPCs)	Potentially Impacted Media (Groundwater, Soil, and/or Sediment)
1	40. Pesticides (including Herbicides, Fungicides and Anti-Fouling Agents) Manufacturing, Processing, Bulk Storage and Large-Scale Applications	On Site	Historic agricultural use and assumed pesticide application	APEC 1	Entire Phase I Property	OC Pesticides	Soil and Groundwater

Note:

OC Pesticides = Organochlorine Pesticides

Based on the information obtained as part of this Phase I ESA, one APEC requiring additional investigation was identified at the Site. Therefore, further investigation in the form of a Phase II ESA is recommended in order to assess the environmental quality of the soil and groundwater at the Site.

Property and Confidentiality

“This report can only be used for the purposes stated therein. Any use of the report must take into consideration the object and scope of the mandate by virtue of which the report was prepared, as well as the limitations and conditions specified therein and the state of scientific knowledge at the time the report was prepared. Englobe Corp. provides no warranty and makes no representations other than those expressly contained in the report.

This document is the work product of Englobe Corp. Any reproduction, distribution or adaptation, partial or total, is strictly forbidden without the prior written authorization of Englobe Corp. and its Client. For greater certainty, use of any and all extracts from the report is strictly forbidden without the written authorization of Englobe Corp. and its Client, given that the report must be read and considered in its entirety.

No information contained in this report can be used by any third party without the prior written authorization of Englobe Corp. and its Client. Englobe Corp. disclaims any responsibility or liability for any unauthorized reproduction, distribution, adaptation or use of the report.

If tests have been carried out, the results of these tests are valid only for the sample described in this report.

Englobe Corp.’s subcontractors who have carried out on-site or laboratory work are duly assessed according to the purchase procedure of our quality system. For further information, please contact your project manager.”

2 Introduction

Englobe Corp. (Englobe) was retained by API Consultants Inc. (herein referred to as the “Client”), on behalf of 401 Real Estate Trust, the property owner at the time of this assessment, to conduct a Phase I Environmental Site Assessment (ESA) for the property located at 40 Frank Nighbor Place in Kanata, Ontario (herein referred to as the “Site” or “Phase I Property”). The Site location is shown in Figure 1, in Appendix A.

The purpose of this Phase I ESA was to evaluate actual and potential environmental concerns on Site and to assess the potential for the Site to be impacted by the current and/or historical uses of the Site and surrounding properties. This Phase I ESA was completed in general accordance with the requirements of *Ontario Regulation 153/04 Records of Site Condition - Part XV.1 of the Act under the Ontario Environmental Protection Act, R.S.O. 1990, chapter E.19* (O. Reg. 153/04), as amended, in support of a City of Ottawa Site Plan Control Application (SPCA). This report is not intended to be utilized as supporting documentation for the filing of a Record of Site Condition for the Site in accordance with O. Reg. 153/04 (as amended). It is Englobe’s understanding that there are current plans for the construction of a six-storey hotel at the Site.

The scope of this Phase I ESA did not include sampling and analysis of potentially contaminated media. Information regarding the Phase I Study Area (the Site and the area within 250 m of the Site boundaries) was compiled through a records review, Site reconnaissance visit, and interview with persons knowledgeable about the Site. Federal, provincial, municipal, and private agencies/databases were searched during the records review for indicators of potential environmental concerns with regards to the Site and Phase I Study Area.

This report was prepared for the exclusive use of the Client. Any use of this report by any third party, or any reliance on or decisions to be made based on it, are the responsibility of such parties. Englobe accepts no responsibility for damages, if any, suffered by any third party as a result of decisions made or actions based on this report. Full Report Limitations are provided in Section 11 of this report.

2.1 Site Information

The Site is located at 40 Frank Nighbor Place, Kanata, ON K2V 1B9. It is located in the City of Ottawa’s Kanata South Ward, on the west side of Frank Nighbor Place. The Site is an irregularly shaped parcel of land, with a total property area of approximately 8115 m² (GeoOttawa, 2022). It is located within an area zoned as IL6[1414] H(30)-h - Light Industrial Zone. At the time of Englobe’s assessment, the Site consisted of vacant land.

A summary of the Site details are presented below.

Table 2.1. Site detail summary.

Item	Detail
Municipal Address	40 Frank Nighbor Place, Kanata, ON K2V 1B9
Site Area	8114.61 m ²
Property Identification No.	04509-0152 (LT)
Legal Description	Part Block 2 Plan 4M1012 Part 1, Plan 4R30745 TOGETHER WITH AN EASEMENT OVER PART OF BLOCK 2 PLAN 4M1012, PARTS 2, 2, 5, 8, 11 AND 13 PLAN 4R30745 AS IN OC1955094; CITY OF OTTAWA

It should be noted that as of the commencement of this Phase I ESA, the municipal address for the Phase I Property was reportedly incorrectly labelled as 46 Frank Nighbor Place by several public sources (e.g., GeoOttawa). During the Phase I ESA process, Englobe was advised of the naming convention error; and that the correct municipal address was 40 Frank Nighbor Place. As such, some supporting documents (i.e., ERIS database report, city directory search, chain of title, etc.) identify the Site at 46 Frank Nighbor Place; however, the correct municipal address is 40 Frank Nighbor Place.

2.2 Contact Information

Contact information for the Client representative is as follows:

Natalie Garavito, Site Plan and Development Coordinator

- Email: ngaravito@apiconsultants.net
- Business Address: 1464 Cornwall Road, Unit 7, Oakville, ON, L6J 7W5

Contact information for the registered property owner is as follows:

Drew Barlow, Construction Project Manager

- Email: drew.barlow@401Auto.ca
- Business Address: 2225 Eagle St. North, Cambridge, ON, N3H 4R7

3 Scope of Investigation

The scope of work for the Phase I ESA is summarized in the following subsections. Englobe has performed this Phase I ESA in general accordance with the requirements outlined in O. Reg. 153/04, as amended.

3.1 Records Review

A records review was completed that involved collecting data from federal, provincial, and municipal databases, aerial photographs, geological maps, land title information, etc., in order to determine the presence or absence of actual and/or potential contaminants at the Site and the surrounding properties within the Phase I Study Area.

3.2 Site Reconnaissance

The Site reconnaissance, to inspect the Site and surrounding properties, was conducted on February 14, 2023. The Client arranged for access to the Site, as required. Surrounding properties were assessed from publicly accessible locations.

3.3 Interviews

Englobe personnel conducted an interview with the Client. The interview was designed to confirm, and/or augment information gathered during the records review and/or Site Reconnaissance visit regarding past or present land uses or events that may affect the environmental condition of the Site. Information from this interview has been incorporated into various sections of this report and summarized in Section 5 below.

3.4 Data Evaluation and Reporting

The data collected during the records review and the Site visit was compiled and collated by Englobe. The information is presented in a logical manner that clearly defines actual and potential environmental issues that may affect the Site. The identified potentially contaminating activities (PCAs) and areas of potential environmental concern (APECs) have been summarized in Tables 7.2 and 7.3, respectively.

4 Records Review

4.1 General

Information related to the Site was received and/or requested from numerous sources as detailed in this section. The agencies contacted, information requested, and responses received are summarized in the following sub-sections.

4.1.1 Phase I Study Area Determination

The Phase I Study Area encompasses the Site, as well as properties wholly and partly located within 250 m of the Site, as shown on Figure 2, in Appendix A.

4.1.2 First Developed Use Determination

Based on the O. Reg. 153/04 (as amended) definition of “first developed use” and available information, the Site was first developed during, or before, the year 1947. The first available aerial photograph (1947) shows a small area along the eastern portion of the property being used for what appears to be agricultural purposes.

4.1.3 Fire Insurance Plans

Englobe requested a search of Fire Insurance Plans (FIPs) through Opta Information Intelligence (Opta). Opta maintains records, including plans and maps for Canadian cities which indicate past and existing structures on properties, including but not limited to, aboveground storage tanks (ASTs), underground storage tanks (USTs), and other building structure information. No FIPs were available for the Phase I Property.

A copy of the FIP search is provided in Appendix B.

4.1.4 Chain of Title

Englobe requested a title search for the Site through Environment Risk Information Services (ERIS), from Crown ownership to the present. The below table provides a summary of the chain of title information.

Table 4.1.4. Summary of Chain of Title.

Property Identification Number	Registered Property Owner	Owned From
04509-0152 (LT)	Crown	Prior to April 4, 1856
	Thomas James Sr.	April 4, 1856 to April 26, 1918
	Thomas James Jr., William James, Elizabeth James, Sarah James & Mary James	April 26, 1918 to November 3, 1919
	Adam H. Acres	November 3, 1919 to June 1, 1920
	Alexander B. Boyd	June 1, 1920 to June 1, 1920
	Gertrude R. Bennett & John A. Bennett	June 1, 1920 to June 14 1929
	Thomas B Acres	June 14, 1929 to September 24, 1940
	Percy R. Grant	September 24, 1940 to May 9, 1955
	Samuel C. Stevenson	May 9, 1955 to January 20, 1960
	Percy & Max Weinstein	January 20, 1960 to June 1, 1988
	Daniel Cantor, in trust	June 1, 1988 to December 21, 1989
	764703 Ontario Inc.	December 21, 1989 to December 12, 2017
	40 Frank Nighbor Inc.	December 12, 2017 to September 2, 2022
	401 Real Estate Trust Inc. (name change - was previously 40 Frank Nighbor Inc.)	September 2, 2022 to Present

A copy of the Chain of Title is provided in Appendix C.

4.1.5 Environmental Reports/Documents

No previous environmental reports were provided for review.

4.2 Environmental Source Information

Environmental information for the Site was obtained from the sources described in the sub-sections below. Distances provided relative to the Site are approximations. Locations of records with respect to local topography relative to the Site are also inferred.

4.2.1 ERIS Database Report

ERIS was retained by Englobe to complete a search of federal, provincial and private databases for environmental information regarding the Site and properties within the Phase I Study Area.

In total, there were zero records found for the Site and 131 records found for surrounding properties in the Phase I Study Area. The following table is a summary of the pertinent results of the database search as they relate to potential impacts to the environmental condition of the soil and groundwater at the Site.

Table 4.2.1. Summary of ERIS database search results.

Name/Location	Approximate Distance from the Site	Details
20 Frank Nighbor Place	75 m northwest	One GEN ¹ database record indicates the address was listed as a waste generator of petroleum distillates as of 2019 (SiteCast Construction Corp.).
50 Frank Nighbor Place	60 m south	<p>Two SCT² database records indicate the address was listed as a manufacturer of semiconductors and other electronic components, communication and energy wire and cables, wiring devices (Volex Canada Inc.), established in 1984.</p> <p>One SCT database record indicates the address was listed as a manufacturer of radio and television broadcasting and wireless communications equipment (International Datacasting Corp.) in 1984</p> <p>Five GEN database records indicate the address was listed as a waste generator of paint/pigment/coating residues from 2007-2009 (International Datacasting Corp.), and waste crankcase oils/waste oils and lubricants from 2020-2022 (Enercare Home Services).</p>
10 Frank Nighbor Place	80 m northeast	<p>Four PES³ database record indicates the address is listed as a limited vendor of pesticides (Home Depot of Canada Inc.).</p> <p>13 GEN database records indicate the address is listed as a waste generator of acid waste - heavy metals, alkaline wastes - other metals, paint/pigment/coating residues, inorganic laboratory chemicals, aromatic solvents, aliphatic solvents, petroleum distillates, light fuels, halogenated pesticides, oil skimmings and sludges, waste oils and lubricants, organic laboratory chemicals, inorganic laboratory chemicals, non-halogenated pesticides, waste compressed gases, acid waste - other metals, other specific inorganics, chemical fertilizer wastes, halogenated pesticides, non-halogenated pesticides, and waste compressed gases from 1999-2016, 2018, and 2020-2022 (Home Depot of Canada Inc.).</p>
750 Palladium Drive	175 m southwest	<p>Two SCT database records indicate the address is listed as a manufacturing facility related to physical, engineering, and life sciences (Spirent Communications - DSL Division), established in 1973.</p> <p>One SCT database record indicates the address is listed as a wholesale distributor of professional machinery/equipment/supplies, electronic components, navigational and communications equipment, and industrial machinery/equipment/supplies (Rohde & Schwarz Canada Inc), established in 1970.</p> <p>Two SCT database records indicate the address is listed as a manufacturing facility related to software publishers (Trigence Corp. & AppZero Corp.), established in 2002.</p> <p>One SCT database record indicates the address is listed as a telephone apparatus manufacturing facility (Vocantas Inc.), established in 2003.</p> <p>One GEN database record indicates the address is listed as waste generator (no further details provided) from 2002-2004 (Trillium Photonics Inc.).</p> <p>Six GEN database records indicate the address is listed as a waste generator of organic laboratory chemicals, other specific inorganics, acid waste - heavy metals, aliphatic solvents,</p>

Name/Location	Approximate Distance from the Site	Details
		inorganic laboratory chemicals, alkaline wastes - heavy metals, waste compressed gases, other specified inorganic sludges, slurries or solids, misc. wastes and inorganic chemicals, misc. waste organic chemicals, in 2012, 2014, 2015, 2016, 2018, and 2019 (SkyWave Mobile Communications - camera and photographic supplies store).
700 Palladium Drive	175 m southwest	<p>Nine GEN database records indicate the address is listed as a waste generator of acid waste - heavy metals, paint/pigment/coating residues, graphic art wastes, inorganic laboratory chemicals, organic laboratory chemicals, waste compressed gases, petroleum distillates, aliphatic solvents, other specified inorganics, and waste oils and lubricants in 2005-2006, 2011-2016, 2018, and 2021 (Dundee Reality Management Corp., DRS Technologies Canada, & Ford Motor Company).</p> <p>One SCT database record indicates the address is listed as a manufacturing facility of semiconductors and other electronic components (DRS Technologies Canada Ltd.), established in 1995.</p>
770 Palladium Drive	245 m west	One GEN database record indicates the address is listed as a waste generator of light fuels in 2019 (Gal Power Systems).
500 Palladium Drive	245 m southeast	<p>36 GEN database records indicate the address is listed as a waste generator of acid waste - other metals, acid waste - heavy metals, alkaline wastes - heavy metals, reactive anion wastes, other specified inorganics, inorganic laboratory chemicals, aliphatic solvents, polymeric resins, halogenated solvents, waste oils and lubricants, organic laboratory chemicals, amines, pathological wastes, waste compressed gases, paint/pigment/coating residues, petroleum distillates, polymeric resins, aromatic solvents, latex wastes, pharmaceuticals, other specified inorganics, emulsified oils, detergents/soaps, light fuels, other specified inorganic sludges, slurries or solids in 1999-2022 (Nortel Networks, BreconRidge Manufacturing Solutions, Sanmina-SCI-Centre, H&R Reit Property Management, DNA Genotek Inc., Equispheres, DRS Technologies Canada Ltd., Pro Reit Acquisition,).</p> <p>Two SCT database records indicate the address is listed as a manufacturer of semiconductor and other electronic components in 2001 (Breconridge Corp.).</p> <p>One SCT database record indicates the address is listed as a manufacturer of semiconductor and other electronic components as well as computer and peripheral equipment in 1980 (Sanmina-SCI-Centre).</p>

¹ GEN = Ontario Regulation 347/07 Waste Generators Summary

² SCT = Scott's Manufacturing Directory

³ PES = Pesticide Registry

Note: Any spills ≤ 25 L are considered small and localized in nature and have not been identified as PCAs in this report.

Based on a review of the information gathered in the above tables, as per Table 2 of O. Reg. 153/04, the following PCAs were identified:

- 50 Frank Nighbor Place - Electronic and Computer Equipment Manufacturing;
- 750 Palladium Drive - Electronic and Computer Equipment Manufacturing;

- 700 Palladium Drive - Electronic and Computer Equipment Manufacturing; and
- 500 Palladium Drive - Electronic and Computer Equipment Manufacturing.

A copy of the ERIS report is provided in Appendix D.

4.2.2 City Directory Information

The city directory search provides the names of businesses/tenants that were operating at certain municipal addresses at one point in time. They do not provide details as to the activities at the properties.

Englobe retained ERIS to conduct a city directory search for the Site and various properties within the Phase I Study Area. City directory results were provided for years 1996, 2000, 2012, 2017, and 2021.

The results are summarized in the tables below.

Table 4.2.2a City directory search summary for the subject Site.

Address	Year Listed	Listing
40 Frank Nighbor Place	2021	No listing found
	2017	No listing found
	2012	No listing found
	2000	Address not listed
	1996	Street not listed

Table 4.2.2b City directory search summary for surrounding properties.

Address	Year Listed	Listing
10 Frank Nighbor Place	2021	No listing found
	2017	No listing found
	2012	No listing found
	2000	Harvey's Restaurant / Home Depot Canada Inc.
	1996	Street not listed
19 Frank Nighbor Place	2021	No listing found
	2017	No listing found
	2012	No listing found
	2000	Address not listed
	1996	Street not listed
20 Frank Nighbor Place	2021	No listing found
	2017	No listing found
	2012	No listing found
	2000	Address not listed
	1996	Street not listed
50 Frank Nighbor Place	2021	No listing found

	1996	Street not listed
	2021	Catered 2

Address	Year Listed	Listing
700 Palladium Drive	2017	DA-Test Incorporated, DRS Technologies Canada Ltd., DRS Technologies Canada Co.
	2012	DA-Test, DRS Technologies Canada Co.
	2000	Address not listed
	1996	Address not listed

A copy of the city directory results is included in Appendix E.

4.2.3 MECP Inventory of Coal Gasification Waste Plants in Ontario

A review of the MECP’s Inventory of Coal Gasification Plant Waste Sites in Ontario (April 1987) revealed that the Site has not been used for the gasification of coal. No coal gasification plants were identified within the Phase I Study Area.

4.2.4 MECP Inventory of Industrial Sites Producing Tars and Related Tars in Ontario

A review of the MECP’s Inventory of Industrial Sites Producing Coal Tars and Related Tars in Ontario (November 1988) revealed that the production and use of coal or other tars has not taken place at the Site or the surrounding properties within the Phase I Study Area.

4.2.5 MECP Inventory of PCB Sites in Ontario

The 1991 and 1995 Inventories of polychlorinated biphenyl (PCB) Storage Sites in Ontario indicate that the Site has not been used for PCB storage. Additionally, no PCB storage sites were identified within the Phase I Study Area.

4.2.6 MECP Waste Disposal Site Inventory

Englobe reviewed the 1991 Waste Disposal Site Inventory. Results indicate that the Site was not previously used as a waste disposal site, and that there are no previous waste disposal sites in the Phase I Study Area.

4.2.7 Intera Former Industrial Sites

Englobe reviewed the Intera map of Former Industrial Sites (1998) in the Ottawa Area. The Site and Phase I Study Area is not captured in the available mapping.

4.2.8 City Of Ottawa Old Landfill Management Strategy Report

Englobe reviewed the Golder Associates Old Landfill Management Strategy Phase I Report. This report identifies old landfill Sites in the City of Ottawa. No old landfill sites were identified within the Phase I Study Area.

4.2.9 Environment and Climate Change Canada

Englobe submitted a request to Environment and Climate Change Canada (ECCC) under the *Access to Information Act*, to provide available information related to environmental concerns (general correspondence, occurrence reports, abatement), orders, tanks (ASTs/USTs), spills, investigations/prosecutions (with owner/tenant information), and waste generator number/classes. A response was received indicating that no records were identified for the Phase I Property. A copy of the response is provided in Appendix F.

4.2.10 Ministry of the Environment, Conservation, and Parks

The Ministry of the Environment, Conservation and Parks (MECP) Freedom of Information (FOI) office was contacted for information on the Site, such as past or existing environmental permits, existing environmental orders, fuel storage tanks, or any other environmentally related information. A response was received indicating that no records were identified for the Phase I Property. A copy of the response is provided in Appendix F.

4.2.11 City of Ottawa Historic Land Use Inventory

Englobe submitted a request to the City of Ottawa for Historical Land Use Inventory (HLUI) information for the Site and properties within the Phase I Study Area. A response was received indicating that no records were identified for the Phase I Property. Records were identified for properties within the Phase I Study Area, although no new PCAs were identified. A copy of the response is provided in Appendix F.

4.2.12 Technical Safety and Standards Association

The Technical Safety and Standards Association (TSSA) Fuel Handling Division is responsible for records regarding licensing of fuel handling facilities in Ontario. The TSSA was contacted for any information with respect to environmental concerns, which could include past or existing environmental spills, information on fuel tanks, or any other related environmental information at the Site and adjacent properties located at the Site. A response was received indicating that no petroleum fuel tanks were identified at the Site or nearby search properties. A copy of the response is provided in Appendix F.

4.3 Physical Setting Sources

Aerial photographs, as well as soil, bedrock geology, and topography maps were reviewed for information pertaining to the physical setting of the Site. A description of the results for each record reviewed is provided below.

4.3.1 Aerial Photographs

Aerial photographs can provide an indication of historical land uses with respect to the Site and surrounding properties. Three aerial photographs were obtained from ERIS, for the years 1947, 1955, and 1965. 1947 was the earliest available aerial photograph. Another eight aerial photographs were obtained from the GeoOttawa website, for the years 1976, 1991, 1999, 2002, 2011, 2015, 2019 and 2021. Aerial photographs were selected to be approximately 10 years apart, where available, and based on their resolution.

The following table summarizes the observed features of the Site and surrounding properties within the Phase I Study Area for each aerial photograph.

Table 4.3.1 Summary of aerial photographs.

Aerial Photograph Year	Site Observations	Surrounding Properties Observations
1947	Appears to be primarily vegetated area with a small area appearing to be used for agricultural purposes along eastern portion of the property.	North of the Site: Agricultural land. East of the Site: Agricultural land. South of the Site: Agricultural land. West of the Site: Vegetated areas, Carp River Municipal Drain, and agricultural land.
1955	Similar to 1947 photograph.	Similar to 1947 photograph.
1965	Similar to 1955 photograph.	Similar to 1955 photograph.
1976	Similar to 1965 photograph.	Similar to 1965 photograph.
1991	Similar to 1976 photograph.	North of the Site: Similar to 1976 photograph. East of the Site: Development of Silver Seven Road. South of the Site: Similar to 1976 photograph. West of the Site: Similar to 1976 photograph.
1999	Land appears cleared.	North of the Site: Land appears cleared. East of the Site: Development of Frank Nighbor Place and Home Depot building a 10 Frank Nighbor Place is now visible. South of the Site: Land clearing at 50 Frank Nighbor Place. West of the Site: Land clearing at 700/770 Palladium Drive visible.
2002	Similar to 1999 photograph.	North of the Site: Land appears vegetated with grass/short vegetation. East of the Site: 19 Frank Nighbor Place land appears cleared. 500 Palladium Drive is now developed with a large parking lot and building. South of the Site: 50 Frank Nighbor Place is developed with one large building and parking area. West of the Site: 700/770 Palladium Drive is developed with three large buildings in total and large supporting parking areas.
2011	Site appears vegetated.	North of the Site: Similar to 2002 photograph. East of the Site: 19 Frank Nighbor Place land appears revegetated with a small, gravelled area in the southern portion of the property. South of the Site: Similar to 2002 photograph. West of the Site: Similar to 2002 photograph.
2015	Site appears to be used for agricultural purposes.	North of the Site: 20 and 30 Frank Nighbor Place appear to be used for agricultural purposes. East of the Site: 19 Frank Nighbor Place developed with a large parking lot and building (currently Movati Gym). South of the Site: Similar to 2011 photograph. West of the Site: Similar to 2011 photograph.
2019	Site appears revegetated.	North of the Site: Similar to 2015 photograph. East of the Site: Similar to 2015 photograph. South of the Site: Similar to 2015 photograph. West of the Site: Similar to 2015 photograph.
2021	Site appears to be graded land (potential agricultural use).	North of the Site: 20 Frank Nighbor is now developed with a large building (currently Camp Mart RV Superstore). East of the Site: Similar to 2019 photograph.

Aerial Photograph Year	Site Observations	Surrounding Properties Observations
		South of the Site: Similar to 2019 photograph. West of the Site: Similar to 2019 photograph.

Based on a review of the information gathered in the above table, it appears as though the Phase I Property has historically been utilized for agricultural purposes. Given the past agricultural use of the property, it is likely that pesticides have historically been applied to surficial soils at the Site. As per Table 2 of O. Reg. 153/04 (as amended), the following PCAs have been identified from a review of aerial photographs:

- On-Site (40 Frank Nighbor Place) - Pesticide (including Herbicides, Fungicides and Anti-Fouling Agents) Manufacturing, Processing, Bulk Storage and Large-Scale Applications; and
- 20/30 Frank Nighbor Place - Pesticide (including Herbicides, Fungicides and Anti-Fouling Agents) Manufacturing, Processing, Bulk Storage and Large-Scale Applications.

A copy of the reviewed aerial photographs are provided in Appendix G.

4.3.2 Topography, Hydrology, and Geology

Englobe reviewed available maps to determine Site and surrounding features, such as local geology, topography, hydrogeology and locations of nearby watercourses. The maps reviewed and a description of the noted Site and surrounding property features are described in the table below.

Table 4.3.2 Summary of maps reviewed.

Map Title	Source	Site and Surrounding Property Features
Natural Heritage Areas	Ministry of Natural Resources and Forestry, 2020	The Site is located at an approximate elevation of 94-95 m above sea level (masl). Local topography slopes westward, towards the Carp River Municipal Drain. The nearest surface waterbody to the Site is the Carp River Municipal Drain, which is approximately 50 m west of the Site. There are no mapped Areas of Natural and Scientific Interest (ANSIs) or wetlands within the Phase I Study Area.
OGS Earth Bedrock Geology	Ministry of Northern Development and Mines, 2014a	The bedrock geology in the Phase I Study Area consists of Middle Devonian limestone, dolostone, shale, arkose, and sandstone of the Ottawa Group; Simcoe Group; and Shadow Lake Formation.
OGS Surficial Geology	Ministry of Northern Development and Mines, 2000	The Surficial Geology of the Site is composed of Pleistocene massive to well laminated fine-textured glaciomarine deposits: silt and clay, minor sand and gravel.

4.3.3 Fill Materials

There is no evidence of fill materials at the Site at this time.

4.3.4 Water Bodies, Areas of Natural Significance, & Groundwater Information

The nearest surface waterbody to the Site is the Carp River Municipal Drain, which is approximately 50 m west of the Site. There are no mapped ANSIs or wetlands within the Phase I Study Area. The

surrounding properties within the Phase I Study Area appear to be serviced by municipal water. The Site does not appear to have any water servicing in place at the time of Englobe's assessment. Based on available City of Ottawa mapping, the Site does not exist within any intake protection zones or wellhead protection areas.

4.3.5 Well Records

A search of the Water Well Information System (WWIS) database completed in the ERIS database report yielded one well record within the Phase I Study Area. This well record relates to the installation of monitoring wells at 620 Palladium Drive. The well record noted the underlying stratigraphy as clayey silt (0-0.85 metres below ground surface - m bgs), followed by silty sand (0.85 - 1.52 m bgs), followed by fissured silty clay with sand seams (1.52 - 3.05 m bgs), underlain by silty clay to the depth of the advanced borehole(s) (7.32 m bgs). The static water level was noted at 1.75 mbgs. Depths to bedrock were not reported.

No well records were identified for the Site.

4.4 On-Site Operating Records

No Site operating records were made available for Englobe's review.

5 Interview

An interview questionnaire prepared by Englobe was completed by Drew Barlow, a representative of the current property owner. Relevant information provided via the interview questionnaire is summarized below:

- The Site was reportedly vacant until 2012. After 2012, the Site was reportedly farmed with corn for the approximately the following eight years. The Site has been vacant since 401 Real Estate Trust Inc. acquired the property;
- Possible pesticide and fertilizer use historically occurred at the property, but this is reportedly unconfirmed;
- Surrounding property uses include an athletics centre, office spaces, and an RV dealership for sales and service;
- The property is currently not serviced with electricity, potable water, or any sanitary sewer system; and
- There have been no reported spills, tanks, or waste on Site.

6 Site Reconnaissance

6.1 General Requirements

The findings documented in this Section are based on observations made by Englobe's Site Assessor, Colette Robitaille (Qualifications of the Assessors are included in Appendix H) during the Site Reconnaissance. The reconnaissance began at 8:00 am on February 14, 2023 and was approximately one hour in duration. Weather conditions at the time were a of mix sun and clouds, with a temperature of approximately -1°C. No operations were ongoing nor were any tenants or buildings noted on Site during the Site Reconnaissance.

Figures depicting the Site are presented in Appendix A. Select photographs taken during the Site reconnaissance are included in Appendix I.

6.2 Specific Observations at the Phase I Property

6.2.1 Description of the Phase I Property

The Site is located at 40 Frank Nighbor Place in Kanata, ON. It is located in the City of Ottawa's Kanata South Ward, on the west side of Frank Nighbor Place. The Site is an irregularly shaped parcel of land, with a total property area of approximately 8115 m² (GeoOttawa, 2022). It is located within an area zoned as IL6[1414] H(30)-h - Light Industrial Zone. At the time of Englobe's Site Reconnaissance, the Site was observed to be vacant and there were no operations ongoing. The lands were snow covered at the Phase I Property at the time of Englobe's Site Reconnaissance; however, was noted to be generally a flat area with short (under 1 metre in height) vegetation.

Refer to Figure 1 in Appendix A for a Site Location Map.

6.2.2 Description of Structures and Other Improvements

No buildings or structures were observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.3 Description of Below-Ground Structures

No below-ground structures were observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.4 Details of Storage Tanks

No storage tanks were observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.5 Potable and Non-Potable Water Sources

No potable or non-potable water sources were observed at the Phase I Property at the time of Englobe's Site Reconnaissance. Based on the Site characteristics and information provided through the interview, it is assumed that the Site is not currently serviced by municipal water.

6.2.6 Underground Utility and Service Corridors

Public and private utility locates were not completed as part of this Phase I ESA. Based on the Site characteristics and information provided through the interview, it is assumed that the Site is not currently serviced by municipal water, sewer, natural gas, or electricity.

6.2.7 Features of Structures and Buildings

6.2.7.1 Description of Entry and Exit Points

No buildings or structures were observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.7.2 Heating Systems

No heating systems were observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.7.3 Cooling Systems

No cooling systems were observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.7.4 Drains, Pits, and Sumps

No drains, pits, or sumps were observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.7.5 Unidentified Substances

No unidentified substances were observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.7.6 Chemical Storage

No chemical storage was observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.7.7 Stains or Corrosion

No stains or corrosion was observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.8 Wells

No wells were observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.9 Sewage Works

No sewage works were observed at the Phase I Property at the time of Englobe's Site Reconnaissance. Based on the Site characteristics and information provided through the interview, it is assumed that the Site is not currently serviced by the municipal sewer.

6.2.10 Solid Wastes

No solid wastes were observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.11 Liquid Industrial Wastes

No liquid industrial wastes were observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.12 Air Emissions

No sources of air emissions were observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.13 Ground Surface

The ground surface was overlain by snow at the Phase I Property at the time of Englobe's Site Reconnaissance; however, was noted to be generally flat.

6.2.14 Railway Lines or Spurs

No railway lines or spurs were observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.15 Stained Soil

No stained soil was observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.16 Stressed Vegetation

No stressed vegetation were observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.2.17 Fill and Debris Materials

No evidence of imported fill or debris was observed at the Phase I Property at the time of Englobe's Site Reconnaissance.

6.3 Phase I Study Area Observations

Properties in the Phase I Study Area were observed from publicly accessible areas and from within the Site boundaries. Surrounding property uses include residential, commercial, parkland, and institutional.

6.4 Potentially Contaminating Activities

Based on a review of the information collected as part of the Site reconnaissance, no additional PCAs were identified.

7 Review and Evaluation of Information

7.1 Current and Past Uses

Based on the O. Reg. 153/04 (as amended) definition of “first developed use” and available information, the Site was first developed during, or before, the year 1947. The first available aerial photograph (1947) shows a small area along the eastern portion of the property being used for what appears to be agricultural purposes.

Table 7.1 Table of current and past uses.

Year	Name of owner	Description of property use	Property use	Other observations from aerial photographs, fire insurance plans, etc.
Prior to 1856	Crown	Agricultural or other use	Agricultural or other use	Based on aerial photographs and land title search records.
1856 to 1989	Various Individuals	Agricultural or other use	Agricultural or other use	Based on aerial photographs and land title search records.
1989 to 2022	764703 Ontario Inc. and 40 Frank Nighbor Inc.	Agricultural or other use	Agricultural or other use	Based on aerial photographs and land title search records.
2017 to present	40 Frank Nighbor Inc. and 401 Real Estate Trust	Agricultural or other use	Agricultural or other use	Based on aerial photographs and land title search records.

7.2 Potentially Contaminating Activities

The presence of PCAs in the Phase I Study Area does not necessarily indicate that the soil and groundwater at the Site are affected by these contaminants. This depends on individual use of best management practices at the locations of the PCAs and the location of any contamination relative to the Site (i.e., on Site, up-gradient or down-gradient).

The following table summarizes the identified PCAs within the Phase I Study Area and at the Phase I Property.

Table 7.2. Summary of PCAs.

PCA No.	Potentially Contaminating Activity (PCA)			Location of PCA			Source of Information	Potentially Impacted Media (Groundwater, Soil and/or Sediment)	Considered an APEC (Yes/No)
	O. Reg. 153/04 PCA Item No.	Property Address	Historical and/or Current Activities	On/Off Site	Proximity to Site (approximate)	Relative Direction to the Site			
1	40. Pesticides (including Herbicides, Fungicides and Anti-Fouling Agents) Manufacturing, Processing, Bulk Storage and Large-Scale Applications	On Site	Historic agricultural use and assumed pesticide application	On Site	N/A	N/A	Aerial Photographs	Soil and Groundwater	Yes
2	40. Pesticides (including Herbicides, Fungicides and Anti-Fouling Agents) Manufacturing, Processing, Bulk Storage and Large-Scale Applications	20/30 Frank Nighbor Place	Historic agricultural use and assumed pesticide application Historic agricultural use and assumed pesticide application	Off Site	10 m	North	Aerial Photographs	Groundwater	No
3	19. Electronic and Computer Equipment Manufacturing	50 Frank Nighbor Place	Electronic and Computer Equipment Manufacturing	Off Site	60 m	South	ERIS Database Report	Groundwater	No
4	19. Electronic and Computer Equipment Manufacturing	750 Palladium Drive	Electronic and Computer Equipment Manufacturing	Off Site	175 m	Southwest	ERIS Database Report	Groundwater	No
5	19. Electronic and Computer Equipment Manufacturing	700 Palladium Drive	Electronic and Computer Equipment Manufacturing	Off Site	175 m	Southwest	ERIS Database Report	Groundwater	No
6	19. Electronic and Computer Equipment Manufacturing	500 Palladium Drive	Electronic and Computer Equipment Manufacturing	Off Site	245 m	Southeast	ERIS Database Report	Groundwater	No
7	10. Commercial Autobody Shop	20 Frank Nighbor Place	Camp Mart RV Sale and Service Centre	Off Site	125 m	North	Interview	Groundwater	No

Based on the nature of the above-noted PCAs, their proximity to the Site, and the local topography, all PCAs, except for PCA No. 1 are unlikely to pose a potential environmental concern at the Site and do not warrant further investigation.

7.3 Areas of Potential Environmental Concern

Based on the findings of this Phase I ESA, there is one APEC requiring further investigation identified at the Site. The following table summarizes the APEC identified on Site (Refer to clause 16(2)(a), Schedule D, O. Reg. 153/04). This APEC was identified based on the available information at the time of preparation of this Phase I ESA report only.

Table 7.3. Summary of APEC.

PCA						APEC			
PCA No.	O. Reg. 153/04 PCA Item No.	PCA Location (On/Off Site)	Historical and/or Current Activities	PCA Proximity to Site (m)	PCA Relative Direction to the Site	APEC No.	Location of APEC on the Site	Contaminants of Potential Concern (COPCs)	Potentially Impacted Media (Groundwater, Soil, and/or Sediment)
1	40. Pesticides (including Herbicides, Fungicides and Anti-Fouling Agents) Manufacturing, Processing, Bulk Storage and Large-Scale Applications	On Site	Historic agricultural use and assumed pesticide application	On Site	On Site	APEC 1	Entire Phase I Property	OC Pesticides	Soil and Groundwater

Note:

OC Pesticides = Organochlorine Pesticides

7.4 Phase I Conceptual Site Model

The illustrative requirements, according to O. Reg. 153/04, of the Phase I Conceptual Site Model (CSM) are shown on Figures 1 through 4 provided in Appendix A. These figures identify the locations of the water bodies, roads, the uses of properties adjacent to the Site, the location of PCAs within the Phase I Study Area and any applicable APECs at the Site. The PCAs and evaluation of any APECs are discussed in Sections 7.2 and 7.3 above.

Table 7.4 Summary of Phase I Conceptual Site Model Requirements.

O. Reg. 153/04 Schedule D (Part VI) Table 1 Requirement	Phase I ESA Findings / Details
Show any existing buildings and structures	No buildings or structures were observed at the Phase I Property at the time of Englobe's Site Reconnaissance. The location of the Site is shown on Figure 1, in Appendix A.
Identify and locate water bodies located in whole or in part on the Phase I Study Area	The nearest surface waterbody to the Site is the Carp River Municipal Drain, which is approximately 50 m west of the Site.
Identify and locate any areas of natural significance located in whole or in part on the Phase I Study Area	There are no mapped Areas of Natural and Scientific Interest (ANSIs) or wetlands within the Phase I Study Area.
Locate any drinking water wells at the Phase I Property	No known water supply wells were identified or observed at the Site. No known water supply wells were identified within the Phase I Study Area.
Show roads, including names, within the Phase I Study Area	The Site is bordered to the north by a walking path followed by 20/30 Frank Nighbor Place, to the east by Frank Nighbor Place, to the south by 50 Frank Nighbor Place, and to the west by a walking path followed by the Carp River Municipal Drain.
Show uses of properties adjacent to the Phase I Property	The Site is located in an area of mixed property use that mainly consists of commercial and industrial land uses. Agricultural use is visible north of the Site at 30 Frank Nighbor.
Identify and locate areas where any PCA has occurred and show tanks in such areas.	Seven PCAs as outlined in table 7.2 above were identified in the Phase I Study Area.
Identify and locate any APECs	One APEC, as outlined in table 7.3, above was identified on Site.
Describe and assess any areas where potentially contaminating activity on or potentially affecting the Phase I Property has occurred.	Based on the PCAs and resulting APECs at the Site, media potentially impacted includes soil and groundwater.
Describe and assess any contaminants of potential environmental concern	Based on the identified APECs on Site, the following contaminants of potential environmental concern have been identified in the soil and/or groundwater: OC Pesticides.
Describe and assess the potential for underground utilities, if any present, to affect contaminant distribution and transport	Based on the Site characteristics and information provided through the interview, it is assumed that the Site is not currently serviced by municipal water, sewer, natural gas, or electricity. Any underground utilities may affect the distribution and transport of contaminants.
Describe and assess available regional or site specific geological and hydrogeological information	Based on available OGS mapping, the bedrock geology in the area of the Site consists of Middle Devonian limestone, dolostone, shale, arkose, and sandstone of the Ottawa Group; Simcoe Group; and Shadow Lake Formation. The surficial geology in the area of the Site composed of Pleistocene massive to well laminated fine-textured glaciomarine deposits: silt and clay, minor sand and gravel.
Describe and assess how any uncertainty or absence of information obtained in each of the components of the Phase I ESA could affect the validity of the model.	All FOI requests from ECCC, the MECP, and the City of Ottawa been received as of the issuance date of this report. At this time, no absence of information is expected to alter the conclusions of this report.

O. Reg. 153/04 Schedule D (Part VI) Table 1 Requirement	Phase I ESA Findings / Details
<p>If the exemption set out in paragraph 1, 1.1 or 2 of section 49.1 of the regulation is being relied upon, document the rationale for relying upon the exemption, which may be based on information gathered during one or more of the records review, interviews and site reconnaissance.</p>	<p>Englobe does not intend to rely upon the exemption set out in Paragraph 1, 1.1, or 2 of Section 49.1 of O. Reg. 153/04, as amended, as Englobe is not aware of any previously identified exceedances at the Site to which this exemption would apply.</p>
<p>If there is an intention to rely upon the exemption set out in paragraph 3 of section 49.1 of the regulation, set out the intention to rely upon the exemption and provide a brief explanation as to why the exemption may apply, which may be based on information gathered during one or more of the records review, interviews and site reconnaissance.</p>	<p>Englobe does not intend to rely upon the exemption set out in Paragraph 3 of Section 49.1 of O. Reg. 153/04, as amended, as Englobe is not aware of any previously identified exceedances at the Site to which this exemption would apply.</p>

This report was prepared based on the available information at the time of preparation of this Phase I ESA report only.

8 Conclusions

Based on the information obtained as part of this Phase I ESA, one APEC requiring additional investigation was identified at the Site. Therefore, further investigation in the form of a Phase II ESA is recommended in order to assess the environmental quality of the soil and groundwater at the Site.

11 Statement of Limitations

This report (hereinafter, the “Report”) was prepared by Englobe Corp. (herein the “Company”) and is provided for the sole exclusive use and benefit of the API Consultants Inc. (the “Client”). Ownership in and copyright for the contents of the Report belong to the Company.

No other person is authorized to rely on, use, copy, duplicate, reproduce, or disseminate this Report, in whole or in part and for any reason whatsoever, without the express prior written consent of the Company. Any person using this Report, other than the person(s) to whom it is directly addressed, does so entirely at its own risk. The Company assumes no responsibility or liability in connection with decisions made or actions taken based on the Report, or the observations and/or comments contained within the Report. Others with interest in the site and/or subject matter of this Report should undertake their own investigations and studies to determine how or if they or their plans could be affected.

This Report should be considered in its entirety; selecting specific portions of the Report may result in the misinterpretation of the content.

The work performed by the Company was carried out in accordance with the terms and conditions specified in the Professional Services Agreement between the Company and the Client, in accordance with currently accepted engineering standards and practices and in a manner consistent with the level of skill, care and competence ordinarily exercised by members of the same profession currently practicing under similar conditions and like circumstances in the same jurisdiction in which the services were provided. Standards, guidelines, and practices may change over time; those which were applied to produce this Report may be obsolete or unacceptable at a later date.

The findings, recommendations, suggestions, or opinions expressed in this Report reflect the Company’s best professional judgement based on observations and/or information reasonably available at the time the work was performed, as appropriate for the scope, work schedule and budgetary constraints established by the Client. No other warranty or representation, expressed or implied, is included in this Report including, but not limited to, that the Report deals with all issues potentially applicable to the site and/or that the Report deals with any and all of the important features of the Site, except as expressly provided in the scope of work.

This report has been prepared for the specific site, development, building, design or building assessment objectives and/or purposes that were described to the Company by the Client. The applicability and reliability of the content of this Report, subject to the limitations provided herein, are only valid to the extent that there has been no material alteration or variation thereto, and the Company expressly disclaims any obligation to update the Report. However, the Company reserves the right to amend or supplement this Report based on additional information, documentation or evidence made available to it.

The Company makes no representation concerning the legal significance of its findings, nor as to the present or future value of the property, or its fitness for a particular purpose and hereby disclaims any responsibility or liability for consequential financial effects on transactions or property values, or requirements for follow-up actions and costs.

Since the passage of time, natural occurrences, and direct or indirect human intervention may affect the views, conclusions, and recommendations (if any) provided in the Report, it is intended for immediate use.

This Statement of Limitations forms an integral part of the Report.

In preparing this Report, the Company has relied in good faith on information provided by others and has assumed that such information is factual, accurate, and complete. The Company accepts no responsibility

 - (P3) - Plan 4R-16147
 - (P4) - Plan 4R-14133
 - (P5) - Plan 4R-29309

All found bars are (AOG) unless otherwise noted.
 Distances shown on this plan are ground distances and can be converted to grid distances by multiplying by the combined scale factor of 0.999915.
 Bearings are grid, derived from Can-Net 2016 Real Time Network GPS observations on reference points A and B, shown hereon, having a bearing of N62°06'10"E and are referenced to Specified Control Points 01919680037 and 01919791051, MTM Zone 9 (76°30' West Longitude) NAD-83 (original).

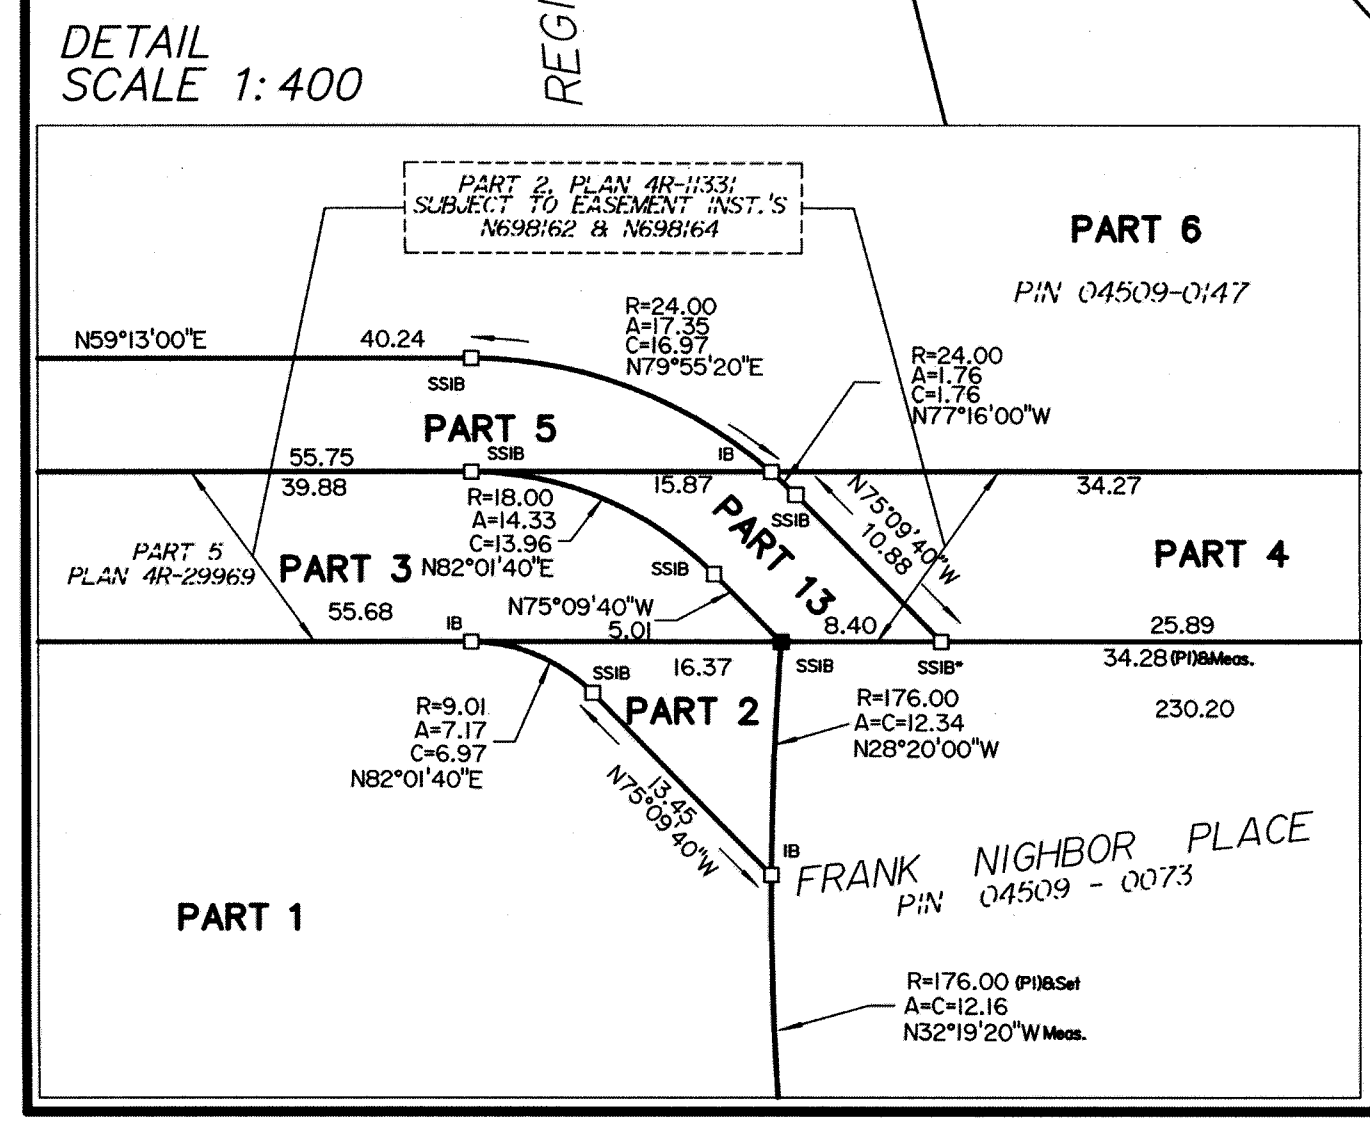

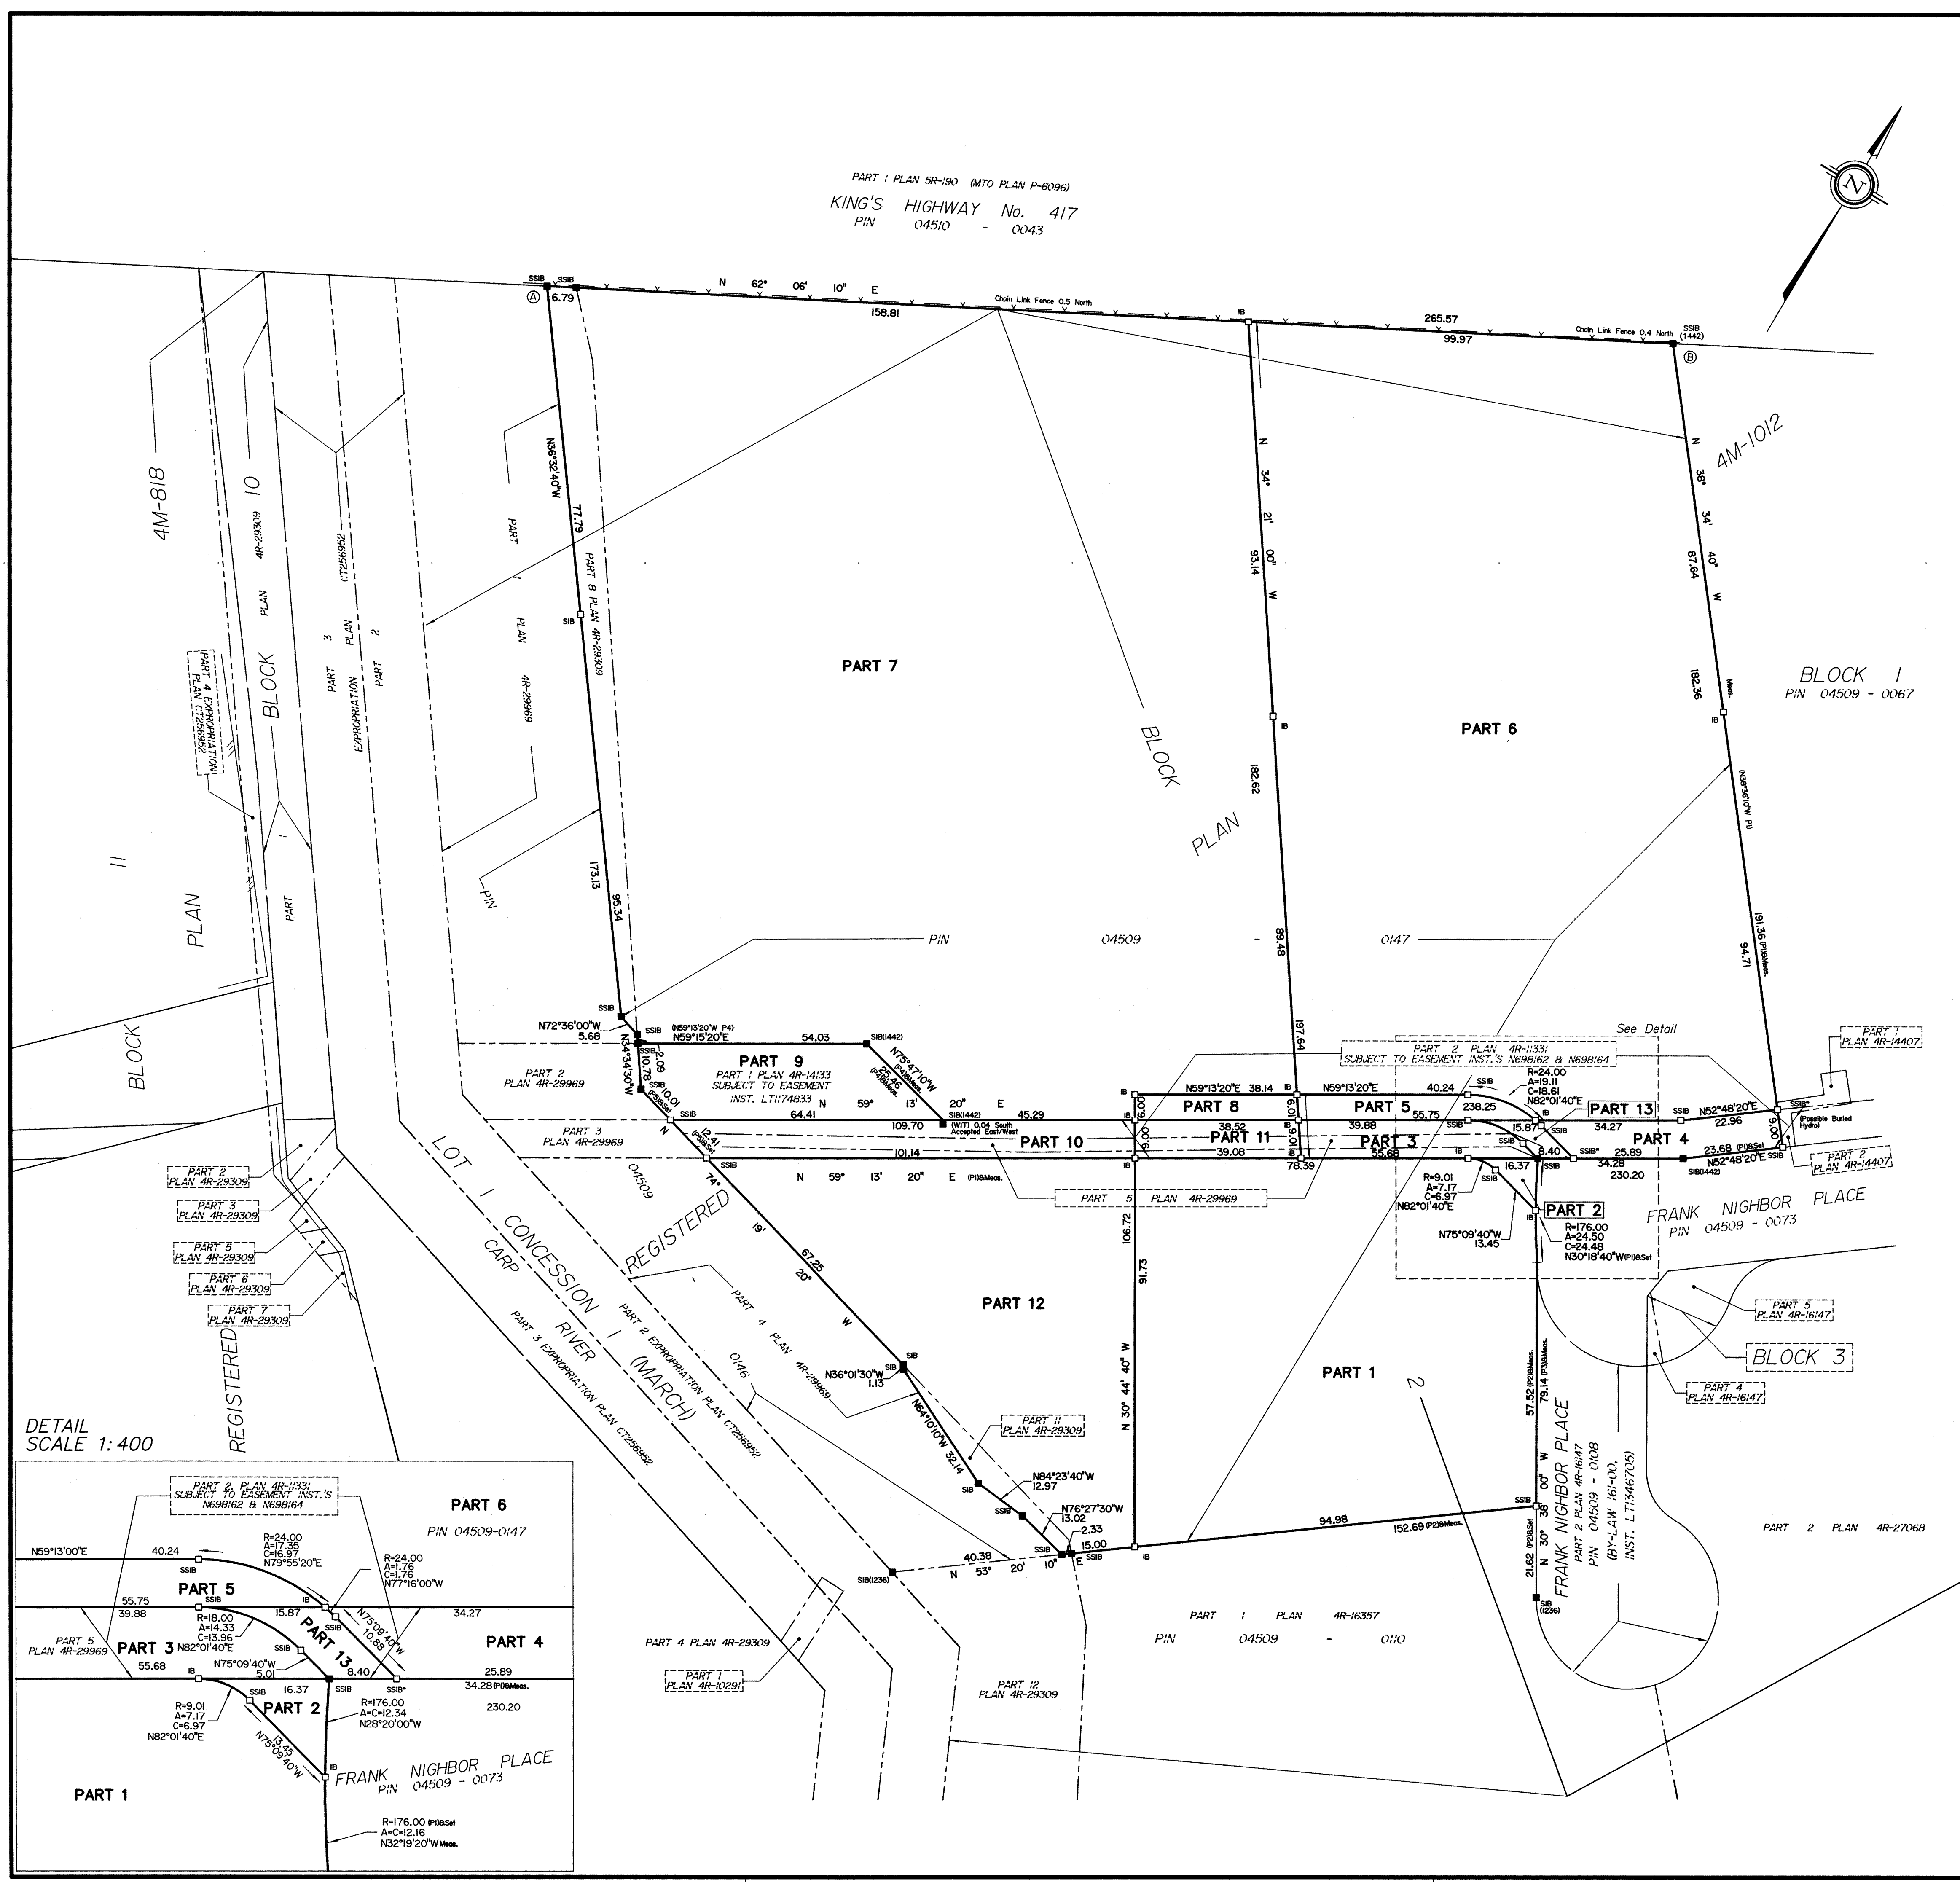

For bearing comparisons, a rotation of 0°26'00" counter-clockwise was applied to bearings on Plan (P1) & (P4) and a rotation of 0°23'50" counter-clockwise was applied to bearings on Plan (P2) & (P3).

Coordinates are derived from Can-Net 2016 Real Time Network GPS observations referenced to Specified Control Points 01919680037 and 01919791051, MTM Zone 9 (76°30' West Longitude) NAD-83 (original).

Coordinate values are to urban accuracy in accordance with O. Reg. 216/10.

. 01919680037	Northing 5023507.89	Eastings 351533.87
. 01919791051	Northing 5032569.51	Eastings 343633.72
. Point A	Northing 5018080.85	Eastings 350165.52
. Point B	Northing 5018205.11	Eastings 350400.22

Caution: Coordinates cannot, in themselves, be used to re-establish corners or boundaries shown on this plan.

Report

The documents (hereinafter referred to as the "Documents") to be released as part of the report (hereinafter referred to as the "Report") to be delivered to the purchaser as set out above are documents in Opta's records relating to the described property (hereinafter referred to as the "Property"). Opta makes no representations or warranties respecting the Documents whatsoever, including, without limitation, with respect to the completeness, accuracy or usefulness of the Documents, and does not represent or warrant that these are the only plans and reports prepared in association with the Property or in Opta's possession at the time of Report delivery to the purchaser. The Documents are current as of the date(s) indicated on them. Interpretation of the Documents, if any, is by inference based upon the information which is apparent and obvious on the face of the Documents only. Opta does not represent, warrant or guarantee that interpretations other than those referred to do not exist from other sources. The Report will be prepared for use by the purchaser of the services as shown above hereof only.

Disclaimer

Opta disclaims responsibility for any losses or damages of any kind whatsoever, whether consequential or other, however caused, incurred or suffered, arising directly or indirectly as a result of the services (which services include, but are not limited to, the preparation of the Report provided hereunder), including but not limited to, any losses or damages arising directly or indirectly from any breach of contract, fundamental or otherwise, from reliance on Opta Reports or from any tortious acts or omissions of Opta's agents, employees or representatives.

Entire Agreement

The parties hereto acknowledge and agree to be bound by the terms and conditions hereof. The request form constitutes the entire agreement between the parties pertaining to the subject matter hereof and supersedes all prior and contemporaneous agreements, negotiations and discussions, whether oral or written, and there are no representations or warranties, or other agreements between the parties in connection with the subject matter hereof except as specifically set forth herein. No supplement, modification, waiver, or termination of the request shall be binding, unless confirmed in writing by the parties hereto.

Governing Document

In the event of any conflicts or inconsistencies between the provisions hereof and the Reports, the rights and obligations of the parties shall be deemed to be governed by the request form, which shall be the paramount document.

Law

This agreement shall be governed by and construed in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein.

Executive Summary: Summary By Data Source

CA - Certificates of Approval

A search of the CA database, dated 1985-Oct 30, 2011* has found that there are 7 CA site(s) within approximately 0.25 kilometers of the project property.

<u>Site</u>	<u>Address</u>	<u>Distance (m)</u>	<u>Map Key</u>
	50 Frank Nighbor Place Ottawa ON K2V 1B9	107.1	<u>2</u>
IBM Canada Limited	770 Palladium Dr Ottawa ON	244.5	<u>7</u>
BreconRidge Manufacturing Solutions Corporation	500 Palladium Drive Ottawa ON	245.5	<u>8</u>
BreconRidge Manufacturing Solutions Corporation	500 Palladium Drive Ottawa ON	245.5	<u>8</u>
	500 Palladium Drive Kanata ON K2V 1C2	245.5	<u>8</u>
	500 Palladium Drive Kanata ON K2V 1C2	245.5	<u>8</u>
BreconRidge Manufacturing Solutions Corporation	500 Palladium Drive Ottawa ON	245.5	<u>8</u>

EASR - Environmental Activity and Sector Registry

A search of the EASR database, dated Oct 2011- Dec 31, 2022 has found that there are 1 EASR site(s) within approximately 0.25 kilometers of the project property.

<u>Site</u>	<u>Address</u>	<u>Distance (m)</u>	<u>Map Key</u>

Project Description:		Construction of stormwater management facilities for a proposed light industrial building and associated parking areas. Quantity control is provided by rooftop storage and a controlled release rate of 5.7 l/s via 9 roof drains. Quality control for the proposed parking area is provided in a vegetated swale and a small wet pond/wetland facility.

Client Name:	Nortel Networks Corporation, Palladium One				
Client Address:	185 Corkstown Road				
Client City:	Nepean				
Client Postal Code:	K2H 8V4				
Project Description:	The proposed facility will manufacture advanced gallium arsenide micro-electronic integrated circuits utilizing the following exhaust equipment: -one process exhaust, comprised of two stacks plus one back-up stack operating at a minimum flow rate of 15,000 cfm (each), from a common plenum; -one acid scrubber, exhausted through one stack plus one back-up acid scrubber exhausted through one back-up stack, operating at a minimum flow rate of 7,500 cfm each; -six 6,000,000 BTU/hour natural gas boilers; and -three cooling towers. The above sources were considered for air quality assessment. These sources as well as the sources listed below have been included for noise assessment: -fresh air and exhaust louvres; -outdoor air intakes; -boiler flues; -exhaust vent stacks; and -exhaust fans.

Client Name:		Nortel Networks Optical Components Corporation			
Client Address:		500 Palladium Drive			
Client City:		Kanata			
Client Postal Code:		K2V 1C2			
Project Description:		This application is an amendment to the existing Air Certificate of Approval which proposes to add the following air quality emission sources: one (1) general exhaust, comprised of three (3) stacks plus one (1) backup stack operating at 7,000 cfm each; seven (7) 6,000 MBH natural gas fired boilers (maximum 4 operating at once); one (1) 1,100 kW emergency diesel generators; and one (1) three-celled cooling tower (maximum 2 of 3 cells operating at once at 1000 tonnes each). The noise assessment for this C of A amendment includes all the sources listed above with the exception of the solvent storage tank as well as the following sources: fresh air and exhaust louvers; outdoor air intakes; exhaust fans; and chiller intake hoods.

Approval Type: Municipal & Private sewage
Status: Approved
Application Type: Notice
Client Name: Nortel Networks Corporation
Client Address: 2 Constellation Crescent
Client City: Nepean
Client Postal Code: K2G 5J9
Project Description: This proposal is for modifications to the existing storm sewer and stormwater management system to accommodate an additional 1.0 hectares parking lot. Runoff from this new area will be attenuated by underground storage. No increase in the site release rate is proposed. Modifications to the wet pond outlet structure are proposed to increase the permanent pond volume.

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. **Note:** Databases denoted with " * " indicates that the database will no longer be updated. See the individual database description for more information.

Abandoned Aggregate Inventory:

Provincial [AAGR](#)

The MAAP Program maintains a database of abandoned pits and quarries. Please note that the database is only referenced by lot and concession and city/town location. The database provides information regarding the location, type, size, land use, status and general comments.*

Government Publication Date: Sept 2002*

Aggregate Inventory:

Provincial [AGR](#)

The Ontario Ministry of Northern Development, Mines, Natural Resources and Forestry (ONDMNRF) maintains this database of pits and quarries. The database provides information regarding the registered owner/operator, location name, operation type, approval type, and maximum annual tonnage.

Government Publication Date: Up to Oct 2022

Abandoned Mine Information System:

Provincial [AMIS](#)

The Abandoned Mines Information System contains data on known abandoned and inactive mines located on both Crown and privately held lands. The information was provided by the Ministry of Northern Development and Mines (MNDM), with the following disclaimer: "the database provided has been compiled from various sources, and the Ministry of Northern Development and Mines makes no representation and takes no responsibility that such information is accurate, current or complete". Reported information includes official mine name, status, background information, mine start/end date, primary commodity, mine features, hazards and remediation.

Government Publication Date: 1800-Mar 2022

Anderson's Waste Disposal Sites:

Private [ANDR](#)

The information provided in this database was collected by examining various historical documents which aimed to characterize the likely position of former waste disposal sites from 1860 to present. The research initiative behind the creation of this database was to identify those sites that are missing from the Ontario MOE Waste Disposal Site Inventory, as well as to provide revisions and corrections to the positions and descriptions of sites currently listed in the MOE inventory. In addition to historic waste disposal facilities, the database also identifies certain auto wreckers and scrap yards that have been extrapolated from documentary sources. Please note that the data is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

Government Publication Date: 1860s-Present

Aboveground Storage Tanks:

Provincial [AST](#)

Historical listing of aboveground storage tanks made available by the Department of Natural Resources and Forestry. Includes tanks used to hold water or petroleum. This dataset has been retired as of September 25, 2014 and will no longer be updated.

Government Publication Date: May 31, 2014

Automobile Wrecking & Supplies:

Private [AUWR](#)

This database provides an inventory of known locations that are involved in the scrap metal, automobile wrecking/recycling, and automobile parts & supplies industry. Information is provided on the company name, location and business type.

Government Publication Date: 1999-May 31, 2022

Borehole:

Provincial [BORE](#)

A borehole is the generalized term for any narrow shaft drilled in the ground, either vertically or horizontally. The information here includes geotechnical investigations or environmental site assessments, mineral exploration, or as a pilot hole for installing piers or underground utilities. Information is from many sources such as the Ministry of Transportation (MTO) boreholes from engineering reports and projects from the 1950 to 1990's in Southern Ontario. Boreholes from the Ontario Geological Survey (OGS) including The Urban Geology Analysis Information System (UGAIS) and the York Peel Durham Toronto (YPDT) database of the Conservation Authority Moraine Coalition. This database will include fields such as location, stratigraphy, depth, elevation, year drilled, etc. For all water well data or oil and gas well data for Ontario please refer to WWIS and OOGW.

Government Publication Date: 1875-Jul 2018

Certificates of Approval:

Provincial CA

This database contains the following types of approvals: Air & Noise, Industrial Sewage, Municipal & Private Sewage, Waste Management Systems and Renewable Energy Approvals. The MOE in Ontario states that any facility that releases emissions to the atmosphere, discharges contaminants to ground or surface water, provides potable water supplies, or stores, transports or disposes of waste, must have a Certificate of Approval before it can operate lawfully. Fields include approval number, business name, address, approval date, approval type and status. This database will no longer be updated, as CofA's have been replaced by either Environmental Activity and Sector Registry (EASR) or Environmental Compliance Approval (ECA). Please refer to those individual databases for any information after Oct.31, 2011.

Government Publication Date: 1985-Oct 30, 2011*

Dry Cleaning Facilities:

Federal CDRY

List of dry cleaning facilities made available by Environment and Climate Change Canada. Environment and Climate Change Canada's Tetrachloroethylene (Use in Dry Cleaning and Reporting Requirements) Regulations (SOR/2003-79) are intended to reduce releases of tetrachloroethylene to the environment from dry cleaning facilities.

Government Publication Date: Jan 2004-Dec 2020

Commercial Fuel Oil Tanks:

Provincial CFOT

Locations of commercial underground fuel oil tanks. This is not a comprehensive or complete inventory of commercial fuel tanks in the province; this listing is a copy of records of registered commercial underground fuel oil tanks obtained under Access to Public Information.

Note that the following types of tanks do not require registration: waste oil tanks in apartments, office buildings, residences, etc.; aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

Government Publication Date: Feb 28, 2022

Chemical Manufacturers and Distributors:

Private CHEM

This database includes information from both a one time study conducted in 1992 and private source and is a listing of facilities that manufacture or distribute chemicals. The production of these chemical substances may involve one or more chemical reactions and/or chemical separation processes (i.e. fractionation, solvent extraction, crystallization, etc.).

Government Publication Date: 1999-Jan 31, 2020

Chemical Register:

Private CHM

This database includes a listing of locations of facilities within the Province or Territory that either manufacture and/or distributes chemicals.

Government Publication Date: 1999-May 31, 2022

Compressed Natural Gas Stations:

Private CNG

Canada has a network of public access compressed natural gas (CNG) refuelling stations. These stations dispense natural gas in compressed form at 3,000 pounds per square inch (psi), the pressure which is allowed within the current Canadian codes and standards. The majority of natural gas refuelling is located at existing retail gasoline that have a separate refuelling island for natural gas. This list of stations is made available by the Canadian Natural Gas Vehicle Alliance.

Government Publication Date: Dec 2012 -Sep 2022

Inventory of Coal Gasification Plants and Coal Tar Sites:

Provincial COAL

This inventory includes both the "Inventory of Coal Gasification Plant Waste Sites in Ontario-April 1987" and the Inventory of Industrial Sites Producing or Using Coal Tar and Related Tars in Ontario-November 1988) collected by the MOE. It identifies industrial sites that produced and continue to produce or use coal tar and other related tars. Detailed information is available and includes: facility type, size, land use, information on adjoining properties, soil condition, site operators/occupants, site description, potential environmental impacts and historic maps available. This was a one-time inventory.*

Government Publication Date: Apr 1987 and Nov 1988*

Compliance and Convictions:

Provincial CONV

This database summarizes the fines and convictions handed down by the Ontario courts beginning in 1989. Companies and individuals named here have been found guilty of environmental offenses in Ontario courts of law.

Government Publication Date: 1989-Nov 2022

Certificates of Property Use:

Provincial CPU

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include CPU's on the registry such as (EPA s. 168.6) - Certificate of Property Use.

Government Publication Date: 1994 - Dec 31, 2022

Drill Hole Database:

Provincial [DRL](#)

The Ontario Drill Hole Database contains information on more than 113,000 percussion, overburden, sonic and diamond drill holes from assessment files on record with the department of Mines and Minerals. Please note that limited data is available for southern Ontario, as it was the last area to be completed. The database was created when surveys submitted to the Ministry were converted in the Assessment File Research Image Database (AFRI) project. However, the degree of accuracy (coordinates) as to the exact location of drill holes is dependent upon the source document submitted to the MNDM. Levels of accuracy used to locate holes are: centering on the mining claim; a sketch of the mining claim; a 1:50,000 map; a detailed company map; or from submitted a "Report of Work".

Government Publication Date: 1886 - Oct 2022

Delisted Fuel Tanks:

Provincial [DTNK](#)

List of fuel storage tank sites that were once found in - and have since been removed from - the list of fuel storage tanks made available by the regulatory agency under Access to Public Information.

Government Publication Date: Feb 28, 2022

Environmental Activity and Sector Registry:

Provincial [EASR](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. The EASR allows businesses to register certain activities with the ministry, rather than apply for an approval. The registry is available for common systems and processes, to which preset rules of operation can be applied. The EASR is currently available for: heating systems, standby power systems and automotive refinishing. Businesses whose activities aren't subject to the EASR may apply for an ECA (Environmental Compliance Approval), Please see our ECA database.

Government Publication Date: Oct 2011- Dec 31, 2022

Environmental Registry:

Provincial [EBR](#)

The Environmental Registry lists proposals, decisions and exceptions regarding policies, Acts, instruments, or regulations that could significantly affect the environment. Through the Registry, thirteen provincial ministries notify the public of upcoming proposals and invite their comments. For example, if a local business is requesting a permit, license, or certificate of approval to release substances into the air or water; these are notified on the registry. Data includes: Approval for discharge into the natural environment other than water (i.e. Air) - EPA s. 9, Approval for sewage works - OWRA s. 53(1), and EPA s. 27 - Approval for a waste disposal site. For information regarding Permit to Take Water (PTTW), Certificate of Property Use (CPU) and (ORD) Orders please refer to those individual databases.

Government Publication Date: 1994 - Dec 31, 2022

Environmental Compliance Approval:

Provincial [ECA](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. In the past, a business had to apply for multiple approvals (known as certificates of approval) for individual processes and pieces of equipment. Today, a business either registers itself, or applies for a single approval, depending on the types of activities it conducts. Businesses whose activities aren't subject to the EASR may apply for an ECA. A single ECA addresses all of a business's emissions, discharges and wastes. Separate approvals for air, noise and waste are no longer required. This database will also include Renewable Energy Approvals. For certificates of approval prior to Nov 1st, 2011, please refer to the CA database. For all Waste Disposal Sites please refer to the WDS database.

Government Publication Date: Oct 2011- Dec 31, 2022

Environmental Effects Monitoring:

Federal [EEM](#)

The Environmental Effects Monitoring program assesses the effects of effluent from industrial or other sources on fish, fish habitat and human usage of fisheries resources. Since 1992, pulp and paper mills have been required to conduct EEM studies under the Pulp and Paper Effluent Regulations. This database provides information on the mill name, geographical location and sub-lethal toxicity data.

Government Publication Date: 1992-2007*

ERIS Historical Searches:

Private [EHS](#)

ERIS has compiled a database of all environmental risk reports completed since March 1999. Available fields for this database include: site location, date of report, type of report, and search radius. As per all other databases, the ERIS database can be referenced on both the map and "Statistical Profile" page.

Government Publication Date: 1999-Jul 31, 2022

Environmental Issues Inventory System:

Federal [EIIS](#)

The Environmental Issues Inventory System was developed through the implementation of the Environmental Issues and Remediation Plan. This plan was established to determine the location and severity of contaminated sites on inhabited First Nation reserves, and where necessary, to remediate those that posed a risk to health and safety; and to prevent future environmental problems. The EIIS provides information on the reserve under investigation, inventory number, name of site, environmental issue, site action (Remediation, Site Assessment), and date investigation completed.

Government Publication Date: 1992-2001*

Emergency Management Historical Event:

Provincial **EMHE**

List of locations of historical occurrences of emergency events, including those assigned to the Ministry of Natural Resources by Order-In-Council (OIC) under the Emergency Management and Civil Protection Act, as well as events where MNR provided requested emergency response assistance. Many of these events will have involved community evacuations, significant structural loss, and/or involvement of MNR emergency response staff. These events fall into one of ten (10) type categories: Dam Failure; Drought / Low Water; Erosion; Flood; Forest Fire; Soil and Bedrock Instability; Petroleum Resource Center Event, EMO Requested Assistance, Continuity of Operations Event, Other Requested Assistance. EMHE record details are reproduced by ERIS under License with the Ontario Ministry of Natural Resources © Queen's Printer for Ontario, 2017.

Government Publication Date: Apr 30, 2022

Environmental Penalty Annual Report:

Provincial **EPAR**

This database contains data from Ontario's annual environmental penalty report published by the Ministry of the Environment and Climate Change. These reports provide information on environmental penalties for land / water violations issued to companies in one of the nine industrial sectors covered by the Municipal Industrial Strategy for Abatement (MISA) regulations.

Government Publication Date: Jan 1, 2011 - Dec 31, 2021

List of Expired Fuels Safety Facilities:

Provincial **EXP**

List of facilities and tanks for which there was once a fuel registration. This is not a comprehensive or complete inventory of expired tanks/tank facilities in the province; this listing is a copy of previously registered tanks and facilities obtained under Access to Public Information. Includes private fuel outlets, bulk plants, fuel oil tanks, gasoline stations, marinas, propane filling stations, liquid fuel tanks, piping systems, etc; includes tanks which have been removed from the ground.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

Government Publication Date: Feb 28, 2022

Federal Convictions:

Federal **FCON**

Environment Canada maintains a database referred to as the "Environmental Registry" that details prosecutions under the Canadian Environmental Protection Act (CEPA) and the Fisheries Act (FA). Information is provided on the company name, location, charge date, offence and penalty.

Government Publication Date: 1988-Jun 2007*

Contaminated Sites on Federal Land:

Federal **FCS**

The Federal Contaminated Sites Inventory includes information on known federal contaminated sites under the custodianship of departments, agencies and consolidated Crown corporations as well as those that are being or have been investigated to determine whether they have contamination arising from past use that could pose a risk to human health or the environment. The inventory also includes non-federal contaminated sites for which the Government of Canada has accepted some or all financial responsibility. It does not include sites where contamination has been caused by, and which are under the control of, enterprise Crown corporations, private individuals, firms or other levels of government. Includes fire training sites and sites at which Per- and Polyfluoroalkyl Substances (PFAS) are a concern.

Government Publication Date: Jun 2000-Sep 2022

Fisheries & Oceans Fuel Tanks:

Federal **FOFT**

Fisheries & Oceans Canada maintains an inventory of aboveground & underground fuel storage tanks located on Fisheries & Oceans property or controlled by DFO. Our inventory provides information on the site name, location, tank owner, tank operator, facility type, storage tank location, tank contents & capacity, and date of tank installation.

Government Publication Date: 1964-Sep 2019

Federal Identification Registry for Storage Tank Systems (FIRSTS):

Federal **FRST**

A list of federally regulated Storage tanks from the Federal Identification Registry for Storage Tank Systems (FIRSTS). FIRSTS is Environment and Climate Change Canada's database of storage tank systems subject to the Storage Tank for Petroleum Products and Allied Petroleum Products Regulations. The main objective of the Regulations is to prevent soil and groundwater contamination from storage tank systems located on federal and aboriginal lands. Storage tank systems that do not have a valid identification number displayed in a readily visible location on or near the storage tank system may be refused product delivery.

Government Publication Date: May 31, 2018

Fuel Storage Tank:

Provincial **FST**

List of registered private and retail fuel storage tanks. This is not a comprehensive or complete inventory of private and retail fuel storage tanks in the province; this listing is a copy of registered private and retail fuel storage tanks, obtained under Access to Public Information.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

Government Publication Date: Feb 28, 2022

Fuel Storage Tank - Historic:

Provincial

[FSTH](#)

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks. Public records of private fuel storage tanks are only available since the registration became effective in September 1989. This information is now collected by the Technical Standards and Safety Authority.

Government Publication Date: Pre-Jan 2010*

Ontario Regulation 347 Waste Generators Summary:

Provincial

[GEN](#)

Regulation 347 of the Ontario EPA defines a waste generation site as any site, equipment and/or operation involved in the production, collection, handling and/or storage of regulated wastes. A generator of regulated waste is required to register the waste generation site and each waste produced, collected, handled, or stored at the site. This database contains the registration number, company name and address of registered generators including the types of hazardous wastes generated. It includes data on waste generating facilities such as: drycleaners, waste treatment and disposal facilities, machine shops, electric power distribution etc. This information is a summary of all years from 1986 including the most currently available data. Some records may contain, within the company name, the phrase "See & Use..." followed by a series of letters and numbers. This occurs when one company is amalgamated with or taken over by another registered company. The number listed as "See & Use", refers to the new ownership and the other identification number refers to the original ownership. This phrase serves as a link between the 2 companies until operations have been fully transferred.

Government Publication Date: 1986-Oct 31, 2022

Greenhouse Gas Emissions from Large Facilities:

Federal

[GHG](#)

List of greenhouse gas emissions from large facilities made available by Environment Canada. Greenhouse gas emissions in kilotonnes of carbon dioxide equivalents (kt CO₂ eq).

Government Publication Date: 2013-Dec 2019

TSSA Historic Incidents:

Provincial

[HINC](#)

List of historic incidences of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen recorded by the TSSA in their previous incident tracking system. The TSSA's Fuels Safety Program administers the Technical Standards & Safety Act 2000, providing fuel-related safety services associated with the safe transportation, storage, handling and use of fuels such as gasoline, diesel, propane, natural gas and hydrogen. Under this Act, the TSSA regulates fuel suppliers, storage facilities, transport trucks, pipelines, contractors and equipment or appliances that use fuels. Records are not verified for accuracy or completeness. This is not a comprehensive or complete inventory of historical fuel spills and leaks in the province. This listing is a copy of the data captured at one moment in time and is hence limited by the record date provided here.

Government Publication Date: 2006-June 2009*

Indian & Northern Affairs Fuel Tanks:

Federal

[IAFT](#)

The Department of Indian & Northern Affairs Canada (INAC) maintains an inventory of aboveground & underground fuel storage tanks located on both federal and crown land. Our inventory provides information on the reserve name, location, facility type, site/facility name, tank type, material & ID number, tank contents & capacity, and date of tank installation.

Government Publication Date: 1950-Aug 2003*

Fuel Oil Spills and Leaks:

Provincial

[INC](#)

Listing of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen reported to the Spills Action Centre (SAC). This is not a comprehensive or complete inventory of fuel-related leaks, spills, and incidents in the province; this listing is a copy of incidents reported to the SAC, obtained under Access to Public Information. Includes incidents from fuel-related hazards such as spills, fires, and explosions. Records are not verified for accuracy or completeness.

Government Publication Date: Feb 28, 2022

Landfill Inventory Management Ontario:

Provincial

[LIMO](#)

The Landfill Inventory Management Ontario (LIMO) database is updated every year, as the Ministry of the Environment, Conservation and Parks compiles new and updated information. Includes small and large landfills currently operating as well as those which are closed and historic. Operators of larger landfills provide landfill information for the previous operating year to the ministry for LIMO including: estimated amount of total waste received, landfill capacity, estimated total remaining landfill capacity, fill rates, engineering designs, reporting and monitoring details, size of location, service area, approved waste types, leachate of site treatment, contaminant attenuation zone and more. The small landfills include information such as site owner, site location and certificate of approval # and status.

Government Publication Date: Mar 21, 2022

Canadian Mine Locations:

Private

[MINE](#)

This information is collected from the Canadian & American Mines Handbook. The Mines database is a national database that provides over 290 listings on mines (listed as public companies) dealing primarily with precious metals and hard rocks. Listed are mines that are currently in operation, closed, suspended, or are still being developed (advanced projects). Their locations are provided as geographic coordinates (x, y and/or longitude, latitude). As of 2002, data pertaining to Canadian smelters and refineries has been appended to this database.

Government Publication Date: 1998-2009*

Mineral Occurrences:

Provincial [MNR](#)

In the early 70's, the Ministry of Northern Development and Mines created an inventory of approximately 19,000 mineral occurrences in Ontario, in regard to metallic and industrial minerals, as well as some information on building stones and aggregate deposits. Please note that the "Horizontal Positional Accuracy" is approximately +/- 200 m. Many reference elements for each record were derived from field sketches using pace or chain/tape measurements against claim posts or topographic features in the area. The primary limiting factor for the level of positional accuracy is the scale of the source material. The testing of horizontal accuracy of the source materials was accomplished by comparing the plan metric (X and Y) coordinates of that point with the coordinates of the same point as defined from a source of higher accuracy.

Government Publication Date: 1846-Feb 2022

National Analysis of Trends in Emergencies System (NATES):

Federal [NATE](#)

In 1974 Environment Canada established the National Analysis of Trends in Emergencies System (NATES) database, for the voluntary reporting of significant spill incidents. The data was to be used to assist in directing the work of the emergencies program. NATES ran from 1974 to 1994. Extensive information is available within this database including company names, place where the spill occurred, date of spill, cause, reason and source of spill, damage incurred, and amount, concentration, and volume of materials released.

Government Publication Date: 1974-1994*

Non-Compliance Reports:

Provincial [NCPL](#)

The Ministry of the Environment provides information about non-compliant discharges of contaminants to air and water that exceed legal allowable limits, from regulated industrial and municipal facilities. A reported non-compliance failure may be in regard to a Control Order, Certificate of Approval, Sectoral Regulation or specific regulation/act.

Government Publication Date: Dec 31, 2021

National Defense & Canadian Forces Fuel Tanks:

Federal [NDFT](#)

The Department of National Defense and the Canadian Forces maintains an inventory of all aboveground & underground fuel storage tanks located on DND lands. Our inventory provides information on the base name, location, tank type & capacity, tank contents, tank class, date of tank installation, date tank last used, and status of tank as of May 2001. This database will no longer be updated due to the new National Security protocols which have prohibited any release of this database.

Government Publication Date: Up to May 2001*

National Defense & Canadian Forces Spills:

Federal [NDSP](#)

The Department of National Defense and the Canadian Forces maintains an inventory of spills to land and water. All spill sites have been classified under the "Transportation of Dangerous Goods Act - 1992". Our inventory provides information on the facility name, location, spill ID #, spill date, type of spill, as well as the quantity of substance spilled & recovered.

Government Publication Date: Mar 1999-Apr 2018

National Defence & Canadian Forces Waste Disposal Sites:

Federal [NDWD](#)

The Department of National Defence and the Canadian Forces maintains an inventory of waste disposal sites located on DND lands. Where available, our inventory provides information on the base name, location, type of waste received, area of site, depth of site, year site opened/closed and status.

Government Publication Date: 2001-Apr 2007*

National Energy Board Pipeline Incidents:

Federal [NEBI](#)

Locations of pipeline incidents from 2008 to present, made available by the Canada Energy Regulator (CER) - previously the National Energy Board (NEB). Includes incidents reported under the Onshore Pipeline Regulations and the Processing Plant Regulations related to pipelines under federal jurisdiction, does not include incident data related to pipelines under provincial or territorial jurisdiction.

Government Publication Date: 2008-Jun 30, 2021

National Energy Board Wells:

Federal [NEBP](#)

The NEBW database contains information on onshore & offshore oil and gas wells that are outside provincial jurisdiction(s) and are thereby regulated by the National Energy Board. Data is provided regarding the operator, well name, well ID No./UWI, status, classification, well depth, spud and release date.

Government Publication Date: 1920-Feb 2003*

National Environmental Emergencies System (NEES):

Federal

[NEES](#)

In 2000, the Emergencies program implemented NEES, a reporting system for spills of hazardous substances. For the most part, this system only captured data from the Atlantic Provinces, some from Quebec and Ontario and a portion from British Columbia. Data for Alberta, Saskatchewan, Manitoba and the Territories was not captured. However, NEES is also a repository for previous Environment Canada spill datasets. NEES is composed of the historic datasets ' or Trends ' which dates from approximately 1974 to present. NEES Trends is a compilation of historic databases, which were merged and includes data from NATES (National Analysis of Trends in Emergencies System), ARTS (Atlantic Regional Trends System), and NEES. In 2001, the Emergencies Program determined that variations in reporting regimes and requirements between federal and provincial agencies made national spill reporting and trend analysis difficult to achieve. As a consequence, the department has focused efforts on capturing data on spills of substances which fall under its legislative authority only (CEPA and FA). As such, the NEES database will be decommissioned in December 2004.

Government Publication Date: 1974-2003*

National PCB Inventory:

Federal

[NPCB](#)

Environment Canada's National PCB inventory includes information on in-use PCB containing equipment in Canada including federal, provincial and private facilities. Federal out-of-service PCB containing equipment and PCB waste owned by the federal government or by federally regulated industries such as airlines, railway companies, broadcasting companies, telephone and telecommunications companies, pipeline companies, etc. are also listed. Although it is not Environment Canada's mandate to collect data on non-federal PCB waste, the National PCB inventory includes some information on provincial and private PCB waste and storage sites. Some addresses provided may be Head Office addresses and are not necessarily the location of where the waste is being used or stored.

Government Publication Date: 1988-2008*

National Pollutant Release Inventory:

Federal

[NPRI](#)

Environment Canada has defined the National Pollutant Release Inventory ("NPRI") as a federal government initiative designed to collect comprehensive national data regarding releases to air, water, or land, and waste transfers for recycling for more than 300 listed substances.

Government Publication Date: 1993-May 2017

Oil and Gas Wells:

Private

[OGWE](#)

The Nickle's Energy Group (publisher of the Daily Oil Bulletin) collects information on drilling activity including operator and well statistics. The well information database includes name, location, class, status and depth. The main Nickle's database is updated on a daily basis, however, this database is updated on a monthly basis. More information is available at www.nickles.com.

Government Publication Date: 1988-Nov 30, 2022

Ontario Oil and Gas Wells:

Provincial

[OOGW](#)

In 1998, the MNR handed over to the Ontario Oil, Gas and Salt Resources Corporation, the responsibility of maintaining a database of oil and gas wells drilled in Ontario. The OGSR Library has over 20,000+ wells in their database. Information available for all wells in the ERIS database include well owner/operator, location, permit issue date, and well cap date, license No., status, depth and the primary target (rock unit) of the well being drilled. All geology/stratigraphy table information, plus all water table information is also provide for each well record.

Government Publication Date: 1800-Aug 2021

Inventory of PCB Storage Sites:

Provincial

[OPCB](#)

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of PCB storage sites within the province. Ontario Regulation 11/82 (Waste Management - PCB) and Regulation 347 (Generator Waste Management) under the Ontario EPA requires the registration of inactive PCB storage equipment and/or disposal sites of PCB waste with the Ontario Ministry of Environment. This database contains information on: 1) waste quantities; 2) major and minor sites storing liquid or solid waste; and 3) a waste storage inventory.

Government Publication Date: 1987-Oct 2004; 2012-Dec 2013

Orders:

Provincial

[ORD](#)

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include Orders on the registry such as (EPA s. 17) - Order for remedial work, (EPA s. 18) - Order for preventative measures, (EPA s. 43) - Order for removal of waste and restoration of site, (EPA s. 44) - Order for conformity with Act for waste disposal sites, (EPA s. 136) - Order for performance of environmental measures.

Government Publication Date: 1994 - Dec 31, 2022

Canadian Pulp and Paper:

Private

[PAP](#)

This information is part of the Pulp and Paper Canada Directory. The Directory provides a comprehensive listing of the locations of pulp and paper mills and the products that they produce.

Government Publication Date: 1999, 2002, 2004, 2005, 2009-2014

Parks Canada Fuel Storage Tanks:

Federal

[PCFT](#)

Canadian Heritage maintains an inventory of known fuel storage tanks operated by Parks Canada, in both National Parks and at National Historic Sites. The database details information on site name, location, tank install/removal date, capacity, fuel type, facility type, tank design and owner/operator.

Government Publication Date: 1920-Jan 2005*

Pesticide Register:

Provincial PES

The Ontario Ministry of the Environment and Climate Change maintains a database of licensed operators and vendors of registered pesticides.

Government Publication Date: Oct 2011- Dec 31, 2022

Pipeline Incidents:

Provincial PINC

List of pipeline incidents (strikes, leaks, spills). This is not a comprehensive or complete inventory of pipeline incidents in the province; this listing in an historical copy of records previously obtained under Access to Public Information. Records are not verified for accuracy or completeness.

Government Publication Date: Feb 28, 2021

Private and Retail Fuel Storage Tanks:

Provincial PRT

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks and licensed retail fuel outlets. This database includes an inventory of locations that have gasoline, oil, waste oil, natural gas and/or propane storage tanks on their property. The MCCR no longer collects this information. This information is now collected by the Technical Standards and Safety Authority (TSSA).

Government Publication Date: 1989-1996*

Permit to Take Water:

Provincial PTTW

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include PTTW's on the registry such as OWRA s. 34 - Permit to take water.

Government Publication Date: 1994 - Dec 31, 2022

Ontario Regulation 347 Waste Receivers Summary:

Provincial REC

Part V of the Ontario Environmental Protection Act ("EPA") regulates the disposal of regulated waste through an operating waste management system or a waste disposal site operated or used pursuant to the terms and conditions of a Certificate of Approval or a Provisional Certificate of Approval. Regulation 347 of the Ontario EPA defines a waste receiving site as any site or facility to which waste is transferred by a waste carrier. A receiver of regulated waste is required to register the waste receiving facility. This database represents registered receivers of regulated wastes, identified by registration number, company name and address, and includes receivers of waste such as: landfills, incinerators, transfer stations, PCB storage sites, sludge farms and water pollution control plants. This information is a summary of all years from 1986 including the most currently available data.

Government Publication Date: 1986-1990, 1992-2019

Record of Site Condition:

Provincial RSC

The Record of Site Condition (RSC) is part of the Ministry of the Environment's Brownfields Environmental Site Registry. Protection from environmental cleanup orders for property owners is contingent upon documentation known as a record of site condition (RSC) being filed in the Environmental Site Registry. In order to file an RSC, the property must have been properly assessed and shown to meet the soil, sediment and groundwater standards appropriate for the use (such as residential) proposed to take place on the property. The Record of Site Condition Regulation (O. Reg. 153/04) details requirements related to site assessment and clean up.

RSCs filed after July 1, 2011 will also be included as part of the new (O.Reg. 511/09).

Government Publication Date: 1997-Sept 2001, Oct 2004-Dec 2022

Retail Fuel Storage Tanks:

Private RST

This database includes an inventory of retail fuel outlet locations (including marinas) that have on their property gasoline, oil, waste oil, natural gas and / or propane storage tanks.

Government Publication Date: 1999-May 31, 2022

Scott's Manufacturing Directory:

Private SCT

Scott's Directories is a data bank containing information on over 200,000 manufacturers across Canada. Even though Scott's listings are voluntary, it is the most comprehensive database of Canadian manufacturers available. Information concerning a company's address, plant size, and main products are included in this database.

Government Publication Date: 1992-Mar 2011*

Ontario Spills:

Provincial SPL

List of spills and incidents made available the Ministry of the Environment, Conservation and Parks. This database identifies information such as location (approximate), type and quantity of contaminant, date of spill, environmental impact, cause, nature of impact, etc. Information from 1988-2002 was part of the ORIS (Occurrence Reporting Information System). The SAC (Spills Action Centre) handles all spills reported in Ontario. Regulations for spills in Ontario are part of the MOE's Environmental Protection Act, Part X. The Ministry of the Environment, Conservation and Parks cites the coronavirus pandemic as an explanation for delays in releasing data pursuant to requests.

Government Publication Date: 1988-Sep 2020; Dec 2020-Mar 2021

Wastewater Discharger Registration Database:

Provincial

[SRDS](#)

Facilities that report either municipal treated wastewater effluent or industrial wastewater discharges under the Effluent Monitoring and Effluent Limits (EMEL) and Municipal/Industrial Strategy for Abatement Regulations. The Municipal/Industrial Strategy for Abatement (MISA) division of the Ontario Ministry of Environment keeps record of direct dischargers of toxic pollutants within nine sectors including: Electric Power Generation, Mining, Petroleum Refining, Organic Chemicals, Inorganic Chemicals, Pulp & Paper, Metal Casting, Iron & Steel, and Quarries.

Government Publication Date: 1990-Dec 31, 2020

Anderson's Storage Tanks:

Private

[TANK](#)

The information provided in this database was collected by examining various historical documents, which identified the location of former storage tanks, containing substances such as fuel, water, gas, oil, and other various types of miscellaneous products. Information is available in regard to business operating at tank site, tank location, permit year, permit & installation type, no. of tanks installed & configuration and tank capacity. Data contained within this database pertains only to the city of Toronto and is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

Government Publication Date: 1915-1953*

Transport Canada Fuel Storage Tanks:

Federal

[TCFT](#)

List of fuel storage tanks currently or previously owned or operated by Transport Canada. This inventory also includes tanks on The Pickering Lands, which refers to 7,530 hectares (18,600 acres) of land in Pickering, Markham, and Uxbridge owned by the Government of Canada since 1972; properties on this land has been leased by the government since 1975, and falls under the Site Management Policy of Transport Canada, but is administered by Public Works and Government Services Canada. This inventory provides information on the site name, location, tank age, capacity and fuel type.

Government Publication Date: 1970 - Apr 2020

Variances for Abandonment of Underground Storage Tanks:

Provincial

[VAR](#)

Listing of variances granted for storage tank abandonment. This is not a comprehensive or complete inventory of tank abandonment variances in the province; this listing is a copy of tank abandonment variance records previously obtained under Access to Public Information. In Ontario, registered underground storage tanks must be removed within two years of disuse; if removal of a tank is not feasible, an application may be sought for a variance from this code requirement.

Records are not verified for accuracy or completeness.

Government Publication Date: Feb 28, 2022

Waste Disposal Sites - MOE CA Inventory:

Provincial

[WDS](#)

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of known open (active or inactive) and closed disposal sites in the Province of Ontario. Active sites maintain a Certificate of Approval, are approved to receive and are receiving waste. Inactive sites maintain Certificate(s) of Approval but are not receiving waste. Closed sites are not receiving waste. The data contained within this database was compiled from the MOE's Certificate of Approval database. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number. All new Environmental Compliance Approvals handed out after Oct 31, 2011 for Waste Disposal Sites will still be found in this database.

Government Publication Date: Oct 2011- Dec 31, 2022

Waste Disposal Sites - MOE 1991 Historical Approval Inventory:

Provincial

[WDSH](#)

In June 1991, the Ontario Ministry of Environment, Waste Management Branch, published the "June 1991 Waste Disposal Site Inventory", of all known active and closed waste disposal sites as of October 30st, 1990. For each "active" site as of October 31st 1990, information is provided on site location, site/CA number, waste type, site status and site classification. For each "closed" site as of October 31st 1990, information is provided on site location, site/CA number, closure date and site classification. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number.

Government Publication Date: Up to Oct 1990*

Water Well Information System:

Provincial

[WWIS](#)

This database describes locations and characteristics of water wells found within Ontario in accordance with Regulation 903. It includes such information as coordinates, construction date, well depth, primary and secondary use, pump rate, static water level, well status, etc. Also included are detailed stratigraphy information, approximate depth to bedrock and the approximate depth to the water table.

Government Publication Date: Jun 30 2022

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

Dear Colette,

Re: Information Request
40 Frank Nighbor Place **Ottawa, Ontario ("Subject Property")**

Internal Department Circulation:

The Planning, Infrastructure and Economic Development Department has the following information in response to your request for information regarding the Subject Property:

- **Ottawa Public Health - Environmental Health:** all public inspection results are publicly available on the Ottawa Public Health website:
<https://www.ottawapublichealth.ca/en/public-health-services/public-health-inspections.aspx>

Documents Provided:

HLUI Summary Report and HLUI Map

The HLUI Summary Report Excel spreadsheet identifies HLUI area, point and line features within 250 metres of the Subject Property, as shown on the provided HLUI Map PDF. Within 500 metres of the Subject Property, landfills and Environmental Risk Management Area (ERMA) are also identified if applicable.

For more information on how to interpret the HLUI data identified in the attached excel sheet ('ADDRESS – HLUI Summary report.xlsx'), please refer to the [Overview and User Guide.](#)

Additional information may be obtained by contacting:

Ontario's Environmental Registry

The Environmental Registry found at <https://ero.ontario.ca/> contains "public notices" about environmental matters being proposed by all government ministries covered by the Environmental Bill of Rights. The public notices may contain information about proposed new laws, regulations, policies and programs or about proposals to change or eliminate

existing ones. By using key words i.e. name of proponent/owner and the address one can ascertain if there is any information on the proponent and address under the following categories: Ministry, keywords, notice types, Notice Status, Acts, Instruments and published date (all years).

The Ontario Land Registry Office

Registration of real property is recorded in the Ontario Land Registry Office through the Land Titles Act or the Registry Act. Documents relating to title and other agreements that may affect your property are available to the public for a fee. It is recommended that a property search at the Land Registry Office be included in any investigation as to the historic use of your property. The City of Ottawa cannot comment on any documents to which it is not a party.

Court House
161 Elgin Street 4th Floor
Ottawa ON K2P 2K1

Fax: (613) 239-1422

Ottawa Public Health

Ottawa Public Health inspects many different types of establishments. To view inspection results, please visit the Ottawa Public Health website: [Public Health Inspections - Ottawa Public Health](#)

Please note that Ottawa Public Health is not the lead agency on land use contamination in the City of Ottawa – contact the Ministry of Environment Conservation and Parks (MECP) for further information.

Please note, as per the HLUI Disclaimer, that the information contained in the HLUI database has been compiled from publicly available records and other sources of information. The HLUI may contain erroneous information given that the records used as sources of information may be flawed. For instance, changes in municipal addresses over time may introduce error. Accordingly, all information from the HLUI database is provided on an “as is” basis with no representation or warranty by the City with respect to the information’s accuracy or exhaustiveness in responding to the request.

Furthermore, the HLUI database and the results of this search in no way confirm the presence or absence of contamination or pollution of any kind. This information is provided on the assumption that it will not be relied upon by any person for any purpose whatsoever. The City of Ottawa denies all liability to any persons attempting to rely on any information provided from the HLUI database.

Please note that in responding to your request, the City of Ottawa does not guarantee or comment on the environmental condition of the Subject Property. You

may wish to contact the Ontario Ministry of Environment and Climate Change for additional information.

If you have any further questions or comments, please contact HLUI@ottawa.ca.

Sincerely,

Adwoa Achireko

Ms. Colette Robitaille
Englobe Corporation
2713 Lancaster Road, Unit 101
Ottawa, Ontario
K1B 5R6

Dear Ms. Robitaille,

This letter is in response to your request under the *Access to Information Act* for:

“Company: API Development Consultants Inc.

Property: 46 Frank Nighbor Place, Kanata, ON K2V 1B9

For a Phase 1 Environmental Site Assessment, can you please provide any environmentally related records (e.g., general correspondence, occurrence reports, abatement, orders, storage tanks, spills, investigations/prosecutions (with owner/tenant information), and any applicable waste generator number/classes) associated with the Property.

Authorization: {David Barnard}”

After a thorough search, no records were found concerning this request.

Please be advised that you are entitled to file a complaint with the Information Commissioner of Canada concerning the processing of your request within sixty days of the receipt of this notice. In the event you decide to avail yourself of this right, your notice of complaint should be addressed to:

Information Commissioner of Canada
30 Victoria Street
Gatineau, Québec K1A 1H3

If you have any questions regarding this request, please do not hesitate to contact Owen Matson by email at Owen.Matson@ec.gc.ca.

Yours sincerely,

Original signed by:

Dear Colette Robitaille:

RE: MECP FOI A-2023-01563, Your Reference 02211293.000 – Decision Letter

This letter is in response to your request made pursuant to the Freedom of Information and Protection of Privacy Act (the Act) relating to 40 Frank Nighbor Place, Ottawa.

After a thorough search through the files of the ministry's Ottawa District Office, Environmental Assessment and Permissions Division (EAPD), Environmental Monitoring and Reporting Branch (EMRB), Environmental Investigations and Enforcement Branch (EIEB), and Safe Drinking Water Branch (SDW) no records were located responsive to your request. **This file is now closed.**

You may request a review of my decision within 30 days from the date of this letter by contacting the Information and Privacy Commissioner/Ontario at <http://www.ipc.on.ca>. Please note there may be a fee associated with submitting the appeal.

If you have any questions, please contact Tolani Abraham at Tolani.Abraham2@ontario.ca.

Yours truly,
