

# PHASE ONE ENVIRONMENTAL SITE ASSESSMENT 200 ELGIN STREET, OTTAWA, ONTARIO

Project No.: CCO-22-3539

Prepared for:

Mr. Michael Morin  
Elgar Holdings Inc.  
50 Bayswater Avenue  
Ottawa, ON  
K1Y 2E9

Prepared by:

McIntosh Perry Consulting Engineers Ltd.  
115 Walgreen Road, RR3  
Carp, ON  
K0A 1L0

February 9, 2022

McINTOSH PERRY

## Executive Summary

---

McIntosh Perry was retained by Mr. Michael Morin of Elgar Holdings Inc. (Client) to conduct a Phase One Environmental Site Assessment (ESA) in support of a Record of Site Condition (RSC) for the property addressed as 200 Elgin Street, Ottawa, Ontario (“the Site”). It is our understanding that the Site is currently occupied by a 11-storey commercial/ office building with a basement level containing underground parking.

It is understood that the building will be redeveloped for residential use on the upper levels and remain commercial on the main level. This change to include residential usage represents a change to a more sensitive land use, and as such, a Record of Site Condition is required under the Ontario Environmental Protection Act and O.Reg. 153/04 (as amended).

This Phase One ESA has been prepared in general accordance with the requirements of Ontario Regulation (O.Reg.) 153/04 as amended. This report is also in general compliance with “Phase I Environmental Site Assessment”, Canadian Standards Association (CSA) standard CSA Z768-01, reaffirmed 2016.

Based on historical information (aerial photos, fire insurance plans, and inspection reports), the Site appears to have been first developed with residential homes prior to 1928 and then subsequently redeveloped with the present-day building in 1965 with additions made in 1986.

A total of 19 potentially contaminating activities (PCAs) were identified for the Phase One Property and Phase One Study Area. Of the 19 PCAs identified, 5 PCAs were deemed to represent areas of potential environmental concern (APECs). The APECs identified for the Phase One Property include:

- Historic oil-fired boilers used for heating the Site building;
- Historic printing operations that occurred at the Site;
- Historic 30-L oil spill that occurred at the Site;
- Two (2) aboveground storage tank containing diesel fuel and associated generator was identified on-Site;
- Past underground storage tanks which serviced a gasoline service station and an auto repair shop located north adjacent of the Site.

Tables 4 and 5, within the body of the report, present summaries for the identified PCAs and APECs identified for the Phase One Property and Phase One Study Area.

Based on the above-noted APECs and their proximity to the Site, a Phase Two ESA is required before an RSC can be filed for the Site.

## Executive Summary

---

McIntosh Perry was retained by Mr. Michael Morin of Elgar Holdings Inc. (Client) to conduct a Phase One Environmental Site Assessment (ESA) in support of a Record of Site Condition (RSC) for the property addressed as 200 Elgin Street, Ottawa, Ontario (“the Site”). It is our understanding that the Site is currently occupied by a 11-storey commercial/office building with a basement level containing underground parking.

It is understood that the building will be redeveloped for residential use on the upper levels and remain commercial on the main level. This change to include residential usage represents a change to a more sensitive land use, and as such, a Record of Site Condition is required under the Ontario Environmental Protection Act and O.Reg. 153/04 (as amended).

This Phase One ESA has been prepared in general accordance with the requirements of Ontario Regulation (O.Reg.) 153/04 as amended. This report is also in general compliance with “Phase I Environmental Site Assessment”, Canadian Standards Association (CSA) standard CSA Z768-01, reaffirmed 2016.

Based on historical information (aerial photos, fire insurance plans, and inspection reports), the Site appears to have been first developed with residential homes prior to 1928 and then subsequently redeveloped with the present-day building in 1965 with additions made in 1986.

A total of 19 potentially contaminating activities (PCAs) were identified for the Phase One Property and Phase One Study Area. Of the 19 PCAs identified, 5 PCAs were deemed to represent areas of potential environmental concern (APECs). The APECs identified for the Phase One Property include:

- Historic oil-fired boilers used for heating the Site building;
- Historic printing operations that occurred at the Site;
- Historic 30-L oil spill that occurred at the Site;
- Two (2) aboveground storage tank containing diesel fuel and associated generator was identified on-Site;
- Past underground storage tanks which serviced a gasoline service station and an auto repair shop located north adjacent of the Site.

Tables 4 and 5, within the body of the report, present summaries for the identified PCAs and APECs identified for the Phase One Property and Phase One Study Area.

Based on the above-noted APECs and their proximity to the Site, a Phase Two ESA is required before an RSC can be filed for the Site.

## **1.0 INTRODUCTION**

McIntosh Perry was retained by Mr. Michael Morin of Elgar Holdings Inc. to conduct a Phase One Environmental Site Assessment (ESA) in support of a Record of Site Condition (RSC) for the property addressed as 200 Elgin Street, Ottawa, Ontario (“the Site”). It is our understanding that the Site is currently occupied by a 11-storey commercial/multitenant office building with underground parking and will be redeveloped to contain commercial properties on the main level and residential apartment units for the upper levels.

It is understood that this Phase One ESA is being completed in support of the redevelopment of the Site as a multi-unit residential building. This change to include residential usage represents a change to a more sensitive land use, and as such, a Record of Site Condition is required under the Ontario Environmental Protection Act and O.Reg. 153/04 (as amended). Accordingly, this report has been prepared in general accordance with O.Reg. 153/04 (as amended).

The Site location is shown on Figure 1 (Site Location). The Site layout and features, including on-Site land use, are shown on Figure 2 (Site Layout).

The intended future use of the Site will be mixed commercial and residential.

### **1.1 Phase One Property Information**

#### **1.1.1 Property Identification**

The legal description of the Site is as follows:

PT LT 55 S/S NEPEAN ST. AND PT LT 55 N/S LISGAR ST. AND ALL LTS 56 & 57 N/S LISGAR ST. ON PLAN 2996,  
BEING PART 2 ON PLAN 4R-5640, OTTAWA. SUBJECT TO AND TOGETHER WITH RIGHTS AS IN LT494415.  
SUBJECT TO AN EASEMENT IN FAVOUR OF CARLETON CONDOMINIUM CORPORATION NO. 365 OVER LOT 55  
SOUTH SIDE OF NEPEAN STREET AND LOT 55 NORTH SIDE OF LISGAR STREET PLAN 2996 AS IN LT1242133.  
SUBJECT TO AN EASEMENT AS IN OC1649094

PIN: 041150270

#### **1.1.2 Property Ownership and Contact Details**

McIntosh Perry was retained to complete this Phase One ESA by Michael Morin of Elgar Holdings Inc. McIntosh Perry’s client contact person for the Site is Michael Morin. Mr. Morin can be contacted at michaelmorin@districtrealty.com

#### **1.1.3 Current and Proposed Future Uses**

The Site is currently occupied by a 11-storey commercial/multitenant office building having an underground parking (considered commercial land use under O.Reg. 153/04 as amended). It is proposed that the building will be retained and maintain commercial use on the main floor with the upper levels being converted to rental apartment units.

## **1.2 Surrounding Land Use**

The Site is bounded to the east by Elgin Street, to the west by a restaurant, to the north by commercial and residential buildings, and to the south by Lisgar Street followed by commercial and residential properties. Surrounding land use within the Phase One ESA study area is predominantly commercial with some residential land use.

## **2.0 SCOPE OF INVESTIGATION**

A Phase One ESA is a preliminary environmental screening tool designed to provide a qualitative assessment of the environmental condition of a site, based on a desktop review of available documentation pertaining to the site and observations made during a site visit. Sampling and chemical analysis of soils, groundwater, and/or other materials/substances are beyond the scope of work for a Phase One ESA.

The Phase One ESA has been prepared in general accordance with the requirements of the following legislation:

- Ontario Regulation (O. Reg.) 153/04 - Records of Site Condition (as amended).

The report is also in general compliance with:

- “Phase One Environmental Site Assessment”, Canadian Standards Association (CSA) standard CSA Z768-01, Reaffirmed 2016.

A designated substances survey was not completed as part of the current investigation.

The subject property is not an ‘Enhanced Investigation Property’ as defined in O.Reg. 153/04 (as amended).

## 3.0 RECORDS REVIEW

### 3.1 General

#### 3.1.1 Phase One Study Area Determination

The Phase One Study Area includes the following properties:

- The Site; and
- All properties within approximately 250 m of the Site boundary (Phase One Study Area).

The Phase One ESA Study Area, including surrounding land uses, is shown on Figure 3: Study Area & Surrounding Land Use.

#### 3.1.2 First Developed Use Determination

Based on a review of aerial photographs, insurance reports, and historical information, the Site appears to have been first developed with a residential building prior to 1928. Based on air photos and insurance inspection reports, the Site was redeveloped with the present-day high-rise building in approximately 1964-1965.

#### 3.1.3 Fire Insurance Plans

The following Fire Insurance Plans (FIPs) were reviewed as part of this Phase One ESA:

##### 3.1.3.1 1895 Fire Insurance Plans

The Site appears to be developed by three residential properties. The residential buildings are located on the northwest, southwest and southeast corner of the Site. Property usage for the surrounding properties consist mainly of residential, institutional, and some commercial.

The following PCA was noted:

- There was a drugstore located at the corner of Elgin and Maria Street (present day Laurier Street) approximately 200 m northeast of the Site, at its nearest point. Due to the distance and location of the drugstore, downstream of the inferred groundwater flow, this property does not represent and APEC.

##### 3.1.3.2 1922 Fire Insurance Plans

The Site appears to be developed by two apartment buildings along Elgin Street, two residential structures and one apartment building along Lisgar Street on the southwest corner of the Site, and two residential properties along Nepean Street. The surrounding properties consist mainly of residential, institutional, and some commercial.

The following PCA was noted:

- There was a drugstore located at the corner of Elgin and Maria Street (present day Laurier Street) approximately 200 m northeast of the Site, at its nearest point; this is the same PCA that was identified through review of the 1895 FIP. Due to the distance and location of the drugstore, downstream of the inferred groundwater flow, this property does not represent an APEC.

#### *3.1.3.3 1963 Fire Insurance Plans*

The Site is occupied by eight structures; four are residential apartments and two individual residential dwellings and two are detached storage buildings for automobiles or carriages. The apartment building on the southeast corner of the Site also has commercial use (hairdressers). Adjacent and surrounding properties are predominantly residential and commercial.

The following PCAs were noted:

- The adjacent property to the north of the Site boundary with side address 196 Elgin Street, was occupied by a gasoline service station containing three underground storage tanks. The historical usage of 196 Elgin Street as gasoline service station represents a PCA. Based on the proximity to the Site, the gasoline service station is considered to be an APEC in relation to the Site.
- There was a laundry facility associated with Notre Dame Convent located on Nepean Street, approximately 35m northwest of the Site. Based on the nature of the laundry facility and the possibility for chemicals use (dry-cleaning), the historic laundry represents a PCA. However, due to the location of this property being downstream of the inferred groundwater flow with respect to the Site, the laundry facility is not considered an APEC.
- There was a gasoline service station located at 170 Elgin Street, approximately 55 m north of the Site. Based on the nature of the service station containing petroleum hydrocarbons, the historic gasoline service station represents a PCA. However, due to the location of the facility being downstream of the inferred groundwater flow, this PCA does not represent an APEC in relation to the Site.
- There was an auto repair shop located at 15 Gloucester Street, approximately 95 m north of the Site. Based on the nature of the repair shop containing automotive fluids and other chemicals, the historic auto repair shop represents a PCA. However, due to its location downstream of the inferred groundwater flow, the shop does not represent an APEC in relation to the Site.

A copy of the Opta response is provided in Appendix A.

#### *3.1.4 Insurance Reports*

McIntosh Perry contacted Opta to obtain copies of Property Underwriters' Reports (PURs) and Property Underwriters' Plans (PUPs) for the Site. In a response dated December 21, 2021, Opta provided McIntosh Perry with a copy of a 1987 Cope Report, a 1987 Multirisk Report, and a 1983 Commercial Property Fire Inspection Survey Form Report.

The following insurance reports were available for review as part of this assessment.

*3.1.4.1 1983 Commercial Property Fire Inspection Survey Form Report*

Based on McIntosh Perry's review of the 1983 Commercial Property Fire Inspection Survey Form Report, the following information was noted:

- Building was built in 1965 and occupied 198-202 Elgin Street
- The building has a reinforced concrete framework
- The building consists of 11 storeys
- Heating is supplied by hot water, oil-fired boilers
- 100% Central air conditioning
- Basement contained an auto parking garage for tenant use
- Multiple tenants were present throughout the building floors consisting mainly of offices for banking, insurance, and architecture purposes.

*3.1.4.2 1987 Cope Report*

Based on McIntosh Perry's review of the 1987 Cope Report, the following information was noted:

- Report included information for address 200 Elgin Street, including 165-167 Lisgar street and 18 Nepean Street.
- Building is described as a 6 and 11 storey, and basement brick/concrete block building with poured reinforced concrete floor and roof.
- Building occupation consisted of offices, condominium apartments, bank, retail, and delicatessen and caterer.
- Building was built in 1965/86
- Central Air conditioning

*3.1.4.3 1987 Multirisk Report*

Based on McIntosh Perry's review of the 1987 Multirisk Report, the following information was noted:

- Report included information for address 200 Elgin Street, including 165-167 Lisgar street and 18 Nepean Street.
- Building is a 6 and 11 storey brick fire resistive high rise
- Building use is mainly commercial with offices, bank, and restaurant.
- The building was built in 1965 with additions in 1986
- Ground floor area is 2,458 m<sup>2</sup>, total area of 25,115 m<sup>2</sup>
- Natural Gas was used as fuel used to heat water

Based on the review of the 1987 Cope Report, a 1987 Multirisk Report, and a 1983 Commercial Property Fire Inspection Survey Form Report, one PCA was identified for the property; assumed fixed tank for heating fuel oil.

A copy of the Opta response is provided in Appendix A.

### 3.1.5 Chain of Title

At the time of this report, a Chain of Title has not been completed. McIntosh Perry is of the opinion that the lack of a Chain of Title search is not an impediment for the Phase One ESA as sufficient information and documentation has been obtained and reviewed to formulate a reasonable understanding for the Phase One property.

### 3.1.6 Previous Environmental Reports

McIntosh Perry was not provided with any environmental reports previously prepared for the Site.

### 3.1.7 Other Environmental Reports

#### 3.1.7.1 Designated Substances Survey Report for 200 Elgin St. by SEACOR Environmental Inc.

The report outlined that known and potential hazardous materials had been identified at the site which included the possibility for:

- Chlorofluorocarbons (CFC's);
- Ozone depleting substances (ODSs);
- Mercury;
- Polychlorinated biphenyls (PCBs); and,
- Silica.

Asbestos was detected through visual and laboratory analysis.

#### 3.1.7.2 Asbestos Management Program by PINCHIN

The report identified the following materials:

- Friable paring cement insulation;
- friable aircell insulation;
- non-friable wall plaster; and,
- non-friable wall plaster.

### 3.1.8 City Directories

City Directories were searched for the Site and surrounding properties for the years between 1869 to 2010. Availability of city directories was somewhat limited by the COVID-19 pandemic resulting in restricted access to library facilities. The following tables summarized the city directory search results for the Site:

Table 1: Civic Directory Summary – Phase One Property	
Year(s)	Occupancy Listing
1869 – 1875	- Address/Street not listed.
1880 - 1961	- Residential or not listed
1965 - 1966	- Royal Bank of Canada - Department of National Defence

Table 1: Civic Directory Summary – Phase One Property	
Year(s)	Occupancy Listing
	- Defence Technical Services Branch
1970 - 1971	- Royal Bank of Canada - Department of National Defence - Elgar building - Defence Technical Services Branch
1975 - 1976	-Royal Bank of Canada - Department of National Defence - Elgar building - Fraser Merchandising LTD
1981 - 1982	- Royal Bank of Canada - Selby Printers LTD - Barrister & Solicitor’s Office - Algonquin Management Centre - Cencan Petroleum LTD - Naiad Investments LTD - Place Cartier Shopping Centre - Versatile Vickers Systems Inc - Architects Office
1987	-Multi Tenant Offices - Suny’s Petroleum Inc
1992	- Multi Tenant Offices - H C Publishing - Suny’s Petroleum Inc
1996 - 1997	- Multi Tenant Offices - H C Publishing - Suny’s Petroleum Inc - Medical Office
2001 - 2002	- Multi Tenant Offices - H C Publishing - Medical Office
2006 - 2007	- Multi Tenant Offices - Medical Office
2011	- Multi Tenant Offices

The City Directory search did not identify any additional PCAs or APECs on the Site.

City directory records for surrounding properties surrounding the Site began in 1940 and were generally residential and commercial in nature. The following listings were noted:

- An automotive service station and garage was identified at 196 Elgin Street from 1940 – 1976. This property is located north adjacent to the Site and is inferred to be down-gradient in relation to the Site. Based on its proximity and use of the Site, the presence of the historic service station that was previously located at that property is considered to be a PCA and APEC for the Phase One Property.

City directory search results are appended to this report as Appendix B.

## **3.2 Environmental Source Information**

McIntosh Perry completed a records review to obtain information about the Site pertaining to items of actual and/or potential environmental concern.

### *3.2.1 Databases Searched*

McIntosh Perry obtained information contained in the databases listed below from ERIS of Toronto, Ontario. Details about the sources of information and the years included for each database, as well as the pertinent information obtained from these databases are included in the ERIS report which is included as Appendix C.

Federal Government Databases:

- Environmental Effects Monitoring;
- Environmental Issues Inventory System;
- Federal Convictions;
- Contaminated Sites on Federal Land;
- Fisheries & Oceans Fuel Tanks;
- Indian and Northern Affairs Fuel Tanks;
- National Analysis of Trends in Emergencies System (NATES);
- National Defense & Canadian Forces Fuel Tanks;
- National Defense & Canadian Forces Spills;
- National Defense & Canadian Forces Waste Disposal Sites;
- National Environmental Emergencies System (NEES);
- National PCB Inventory;
- National Pollutant Release Inventory;
- Parks Canada Fuel Storage Tanks; and,
- Transport Canada Fuel Storage Tanks.

Provincial Government Databases:

- Abandoned Aggregate Inventory;
- Aggregate Inventory;
- Abandoned Mines Information System;
- Certificates of Approval;
- Coal Gasification Plants;

- Compliance and Convictions;
- Drill Holes;
- Environmental Registry;
- Ontario Regulation 347 Waste Generators Summary;
- Mineral Occurrences;
- Non-Compliance Reports;
- Ontario Oil and Gas Wells;
- Ontario Inventory of PCB Storage Sites;
- Ministry Orders;
- Occurrence Reporting Information System;
- Pesticide Register;
- Private Fuel Storage Tanks;
- Ontario Regulation 347 Waste Receivers Summary;
- Record of Site Condition;
- Wastewater Discharger Registration Database;
- Waste Disposal Sites – MOE CA Inventory;
- Waste Disposal Sites – MOE 1991 Historical Approval Inventory; and,
- Water Well Information System.

Private Databases:

- Anderson’s Waste Disposal Sites;
- Automobile Wrecking and Supplies;
- Commercial Fuel Oil Tanks;
- Chemical Register;
- ERIS Historical Searches;
- Canadian Mine Locations;
- Oil and Gas Wells;
- Canadian Pulp and Paper;
- Retail Fuel Storage Tanks;
- Scott’s Manufacturing Directory; and,
- Anderson’s Storage Tanks.

**3.2.2 Database Findings Relevant to the Phase One ESA**

The databases searched by ERIS contained the following information pertaining to the Site:

- One (1) Ontario Spill record (SPL);
- One (1) ERIS Historical Searches; and,
- Four (4) Scott’s Manufacturing Directory records.

The following records were returned for properties within the Phase One Study Area:

- Twelve (12) borehole records (BORE);
- Seventeen (17) Certificates of Approval (CA);
- One (1) Delisted Fuel Tanks (DTNK);
- Four (4) Environmental Activity and Sector Registry records (EASR);
- One (1) Environmental Registry records (EBR);
- Eleven (11) Environmental Compliance Approvals (ECA);
- Fifty-seven (57) ERIS Historical Searches (EHS);
- One-hundred and sixty-six (166) O.Reg. 347 Waste Generator records (GEN);
- One (1) Fuel Oil Spills and Leaks (INC);
- One (1) Mineral Occurrence Record (MNR);
- Five (5) National PCB Inventory records (NPCB);
- Ten (10) National Pollutant Release Inventory records (NPRI);
- Three (3) PCB Inventory Storage Sites (OPCB);
- One (1) Pesticide Registry records (PES);
- Five (5) Pipeline Incident records (PINC);
- One (1) Private and Retail Fuel Storage Tank records (PRT);
- Two (2) Permit to Take Water record (PTTW);
- Two (2) Record of Site Condition (RSC);
- Eighteen (18) Scott's Manufacturing Directory records (SCT);
- Twenty-five (25) Ontario Spills records (SPL); and,
- Fourteen (14) WWIS records (WWIS).

Relevant information from the ERIS report is summarized as follows:

- **200 Elgin Street (On-Site)**

- Scott's Manufacturing records indicated there was commercial printing conducted at the Site in 1946 by the Canadian Library Association; and
- A spill occurred at the property in 1996 in which 30-L of oil was spilled to ground. No environmental impact was reported. The spill represents a PCA and an APEC in relation to the Site.

Based on the nature of the waste generated on the Site, and the spill that occurred in 1996, it is MP's opinion that the spill represents a PCA and an APEC in relation to the Site. Further to this, printing operations historically used solvents to clean printing equipment; as such the presence of commercial printing would be considered a PCA and APEC for the Site.

- **180 Elgin Street, located immediately north (inferred down-gradient) of the Site**

- One waste generator record indicated that the property listed under ON6032676 generated PCBs from 2018 to 2021; and,

- One waste generator record indicated that the property listed under ON9098579 generated aliphatic solvents from 2002 to 2005.

Based on the waste generator records associated with this property, it is MP's opinion that the hazardous wastes generated at this property are PCAs; however, it is also MP's opinion that these PCAs do not constitute an APEC in relation to the Site due to their down gradient location relative to the Phase One Property.

- **116 Lisgar Street, located approximately 85 m west (inferred cross-gradient) of the Site**

- Waste generator records under ON3833803 indicated that the property generated waste oils sludges from 2018 to 2021.

Based on the nature of the waste generated, it is MP's opinion that the hazardous wastes generated are not PCAs and do not constitute an APEC in relation to the Site.

- **245 Cooper Street, located approximately 40 m south (inferred up-gradient) of the Site**

- Waste generator records indicated that the property listed under ON1726400 generated multiple waste products consisting of paint/pigment/coating residues, petroleum distillates, waste and oils lubricants, photo processing wastes, and graphic art wastes from 1993 to 2001;
- Waste generator records indicated that the property listed under ON8437503 indicated that the property generated multiple waste products consisting of inorganic laboratory chemical, emulsified oils, and photo processing wastes from 2002 to 2004; and,
- Waste generator records indicated that the property listed under ON3910983 generated PCBs from 2018 to 2021.

Based on the nature of the waste generated, it is MP's opinion that the hazardous wastes generated are not PCAs and do not constitute an APEC in relation to the Site.

- **160 Elgin Street, located across Nepean Street, north (inferred down-gradient) of the Site**

- Waste generator records listed under ON4516816 indicated that multiple waste products consisting of organic chemicals, wastes from the used of pigments, coatings and paints, alkaline solutions containing heavy metals, alkaline solutions containing other metals and non-metals, inorganic chemicals, light fuels, acid solutions containing heavy metals, aliphatic solvents and residues, and petroleum distillates, other specified inorganic sludges, slurries or solids, waste compressed gases including cylinders, and waste crack case oils and lubricants were generated at the property from 2005 to 2021;
- Waste generator records listed under ON9017593 indicated that alkaline solutions containing heavy metals and waste compressed gases including cylinders were generated at the property from 2018 to 2021;

- Waste generator records listed under ON0191809 indicated that photo processing wastes were generated at the property from 1996 to 2004;
- Waste generator records listed under ON0473815 indicated that alkaline wastes, paint/pigment/coating residues, light fuels, PCB's, waste oils and lubricants, organic laboratory chemicals, and photo processing wastes were generated at the property from 1986 to 2005;
- Waste generator records listed ON1883500 indicated that photo processing wastes were generated at the property from 1994 to 1998;
- Waste generator records listed ON3963707 indicated that aliphatic solvents were generated at the property from 2009 to 2010; and,
- An Ontario Spill record indicated that a 10-L hydraulic oil spill occurred in 2003. The record indicated that environmental impact was not anticipated.

Based on the location of the property located downgradient from the Site and the nature of the waste generated, it is MP's opinion that the hazardous wastes generated are not PCAs and do not constitute an APEC in relation to the Site. The hydraulic oil spill represents a PCA; however, it does not constitute an APEC.

- **Corner of Gloucester Road and Elgin Road located approximately 85 m north (inferred down-gradient) of the Site**

An Ontario Spill record indicated that a 25-L hydraulic oil spill occurred in 2005. No environmental impact was anticipated; Due to the location of the spill, downgradient of the inferred groundwater flow, the spill represents a PCA; however, it does not represent an APEC in relation to the Site.

- **161 Elgin Street, located approximately 70 m northeast (inferred down-gradient) of the Site**
  - An Ontario Spill record indicated that an unknown quantity of diesel fuel was spilled in 2004. The record indicated there was possible water contamination;
  - An Ontario Spill record indicated that an unknown quantity of electrical oil was spilled and received by manhole. Environmental impact was not anticipated; and,
  - Waste generator records listed under ON9031726 indicated that aliphatic solvents, waste compressed gases, paint/pigment/coating residues, alkaline wastes heavy metals, and organic laboratory chemicals were generated at the property from 2010 to 2016.

Due to the location of the spills, downgradient of the inferred groundwater flow, the spills represent PCAs, however, they do not represent APECs in relation to the Site. Similarly, the usage of solvents at this site represents a PCA, but does not represent an APEC with respect to the Phase One Property.

- **179 Metcalfe Street, located approximately 55 m west (inferred cross-gradient) of the Site.**

- Waste generator records listed under ON8729569 generated petroleum waste oils and sludges in 2021.

Based on the nature of the waste generated and the inferred direction of the groundwater flow, it is MP's opinion that the hazardous wastes generated are not PCAs and do not constitute an APEC in relation to the Site.

- **268 Elgin Street, located approximately 190 m south (inferred up-gradient) of the Site**
  - Waste generator records listed under ON0240427 and ON0491104 indicated that a dry cleaner generated halogenated solvent from 1986 to 1998.

Based on the nature of the waste generated, the inferred direction of the groundwater flow, and the duration of business operation, it is MP's opinion that the hazardous wastes generated at the property are PCAs and does not constitute an APEC in relation to the Site due to spatial distance.

- **280 Elgin Street, located approximately 185 m south (inferred up-gradient) of the Site**
  - A Private Retail record indicated that a private fuel storage tank with an 8000-L storage capacity was present in 1994; and,
  - A Delisted Fuel tanks record indicated that there was a gasoline service station in 2012.

Based on the nature of the property use and the inferred direction of the groundwater flow, it is MP's opinion that fuel storage tanks stored at the property are PCAs and do not constitute APECs in relation to the Site due to spatial distance.

### **3.2.3 MECP Freedom of Information Request**

In order to identify any previous environmental reports concerning the subject property, a MECP Freedom of Information (FOI) request and a MECP Index Review Report request were submitted to the Local District Office for the Site by McIntosh Perry, on December 16, 2021 (the regular turn around time is one to two months).

At the time of this report, the Freedom of Information Request has not yet been received.

MECP correspondence is provided in Appendix D of this report.

### **3.2.4 TSSA Information Request**

An FOI request was submitted to the Technical Standards and Safety Authority (TSSA) on December 15, 2021. A response was received on December 16, 2021 in which TSSA indicated that no fuel storage tank records were returned for 200 Elgin Street; this is consistent with the ERIS search results.

A copy of the TSSA response is provided in Appendix D.

### *3.2.5 Historic Land Use Inventory (HLUI) Request*

A Historic Land Use Inventory (HLUI) request was submitted to the City of Ottawa to determine historic land uses for the Phase One Study Area. At the time of this report, the Historic Land Use Inventory Request has not yet been received.

## 4.0 PHYSICAL SETTING

### 4.1.1 Aerial Photographs and Satellite Images

Table 1 describes observations about current and historical land use for the Site and surrounding properties that were noted during a limited review of aerial photos, included in Appendix E. Current land uses are included on Figure 3.

<b>Date</b>	<b>Origin</b>	<b>Observations</b>
1928	GeoOttawa	The Site is inferred to be residential. The southeast side of the property contains a small, vegetated area. Two structures are apparent on site, a multistorey building, and a medium sized residential house. The surrounding properties appear to be mostly residential but cannot be confirmed due to the quality of the image. South adjacent to the property boundary is a paved road resembling Lisgar Street. East adjacent to the property is a paved road resembling Elgin Street. Across Elgin Street on the east side, there appears to be a large building resembling the Canadian Tribute to Human Right’s building.
1932	ERIS – Historical Aerials	The Site is developed with a new structure on the southwest corner of the property. This resembles another residential property but cannot be confirmed due to the quality of the image. There appears to be a new building structure on the property located at the southeast corner of Lisgar and Elgin Street. No other changes were observed.
1946	ERIS – Historical Aerials	No changes were observed at the Site. To the south, across Lisgar street, multiple new buildings have been built. To the northeast, across Elgin Street, there appears to be new large structure. There were no other changes observed.
1958	GeoOttawa	The photograph from 1950 provides a better-quality image which shows five buildings, likely residential, on the Site. The north adjacent property appears to be a car dealership or auto garage as there are multiple cars densely parked together. There are overall less trees in the nearby surrounding properties, no other changes were observed.
1965	GeoOttawa	The main building on Site has been replaced by a larger building which spans to the edge of Elgin and Lisgar street. One building has been removed from the southwest section of the Site and a tree removed. A parking lot has extended on the property at the corner of Lisgar and Metcalfe and resembles the lot of a dealership. Overall, there are more commercial buildings surrounding the Site.
1976	GeoOttawa	The site appears to be developed with a main building as in the 1965 aerial, however, one residential property remains on the southwest corner of the Site. To the west, multiple residential properties have been replaced by a parking lot. The surrounding area is mainly composed of high rise building to the north and the south is developed with multiple buildings.
1983	ERIS – Historical Aerials	No changes to the Site. The large structures to the northeast across Elgin street have been removed and appears as a vacant lot. No other changes were observed

Table 2: Aerial Photograph and Satellite Imagery Summary		
Date	Origin	Observations
1991	GeoOttawa	New multistorey building has been constructed north adjacent to the property. Extension to the main building on the southwest side. New large structure to the northeast of the Site, where there was a vacant lot. No other changes were observed
2002-2008	GeoOttawa	No significant changes since the 1991 photograph.
2011	GeoOttawa	Ongoing construction on the west adjacent property, parking lot covering the area has been removed. No other changes were observed.
2014	GeoOttawa	Two new high rises as well as ongoing west adjacent to the property. No other changes were observed.
2015	GeoOttawa	Site and surrounding properties resemble present day plan.

A review of the above aerial photographs did not indicate any additional PCAs on the Site or within the Study Area.

#### 4.1.2 Topography

Elevation at the Site is approximately 72 m above sea level (masl). The topography is generally flat, with regional topography sloping downward to the north (see Figure 4).

#### 4.1.3 Hydrology

The Site occurs within the Rideau Falls – Rideau River watershed. The Rideau Canal is located approximately 390 m northeast of the Site and the Ottawa River is located approximately 930 m north of the Site, at its closest point. Site drainage is presumed to consist of overland flow to municipal sewers along Elgin and Lisgar Street.

#### 4.1.4 Geology

##### 4.1.4.1 Surficial Geology

Geological maps of the area classify the overburden at the Site as silt and clay, minor sand and gravel, massive to well laminated (OGS, 2017).

##### 4.1.4.2 Bedrock Geology

Geological maps of the area classify the bedrock under the Site as predominantly shale, limestone, dolostone, siltstone of the Georgian Bay Formation (OGS, 2017).

#### 4.1.5 Hydrogeology

The Site occurs within the Rideau Falls – Rideau River watershed. Groundwater likely flows north based on local topography as well as the location of the Rideau Canal which flows north towards the Ottawa River.

#### **4.1.6 Fill Materials**

No fill material was observed at the Site during the Site reconnaissance on December 21, 2021.

#### **4.1.7 Water Bodies and Areas of Natural Significance**

The closest permanent waterbodies are the Rideau Canal and Ottawa River, located approximately 390 m northeast and 930 m northwest respectively.

When completing a Phase One ESA, considerations are made for the following MNRF-maintained areas of natural significance:

- Provincial Parks and conservation reserves;
- Areas of Natural and Scientific Interest (ANSIs);
- Provincially Significant Wetlands (PSWs);
- Areas identified by MNRF as significant habitat of a threatened or endangered species or areas of habitat of a species classified under section 7 of the Endangered Species Act; and,
- Areas set apart under the Wilderness Areas Act.

No areas of natural significance were observed within the Phase One Study Area.

#### **4.1.8 Well Records**

McIntosh Perry performed a well record search utilizing the ERIS Water Well Information System data (based on MECP GIS data). Fourteen (14) well records from within the Phase One Study Area were returned from this search; none of the well records were located on-Site.

#### **4.1.9 Site Operating Records**

Site operating records were not available for the Site.

## 5.0 INTERVIEWS

McIntosh Perry personnel conducted an interview with Mr. Morin, the Site representative for the Site, to obtain information about the subject property pertaining to items of actual and/or potential environmental concern. Information collected during this interview was used to corroborate data from other sources, and is presented in Appendix F.

The information obtained from the interview is summarized as follows:

Table 3: Interview Records	
Potential Environmental Concerns	Interview Comments
Accidents/Spills	No
Previous Use of Site	No
Adjacent Properties	No
Fuel Handling/Storage	Diesel generator and tank
Maintenance/Operational Areas	Maintenance Room
Hazardous Materials Storage	No
Fuel Storage Tanks	See above
Odours	No
Potable Water	City
Septic and Wastewater Discharges	City
Pesticides	No
Mould	No
Heating and Cooling Systems	Gas fired boilers and chiller with cooling tower (one tower per chiller)
Major Mechanical Equipment	No
Waste Oils, Solvents, Batteries	No
PCBs	No
Asbestos	Survey on file
Lead Paint	Unknown
ODS	No
Electromagnetic Radiation	No
UFFI	No
Mercury	No
Radon Gas	N/A
Soil and Groundwater Conditions	No
Wells	No
Waste Disposal and Recycling	Tomlinson for commercial, WCC for residential
Fill Material	N/A
Other	No

Note that statements made by those interviewed were not made categorically and are limited to personal knowledge of, and experience with, the subject property. The significance of environmental concerns that have been identified by other methods was not reduced based on the interview statements.

## 6.0 SITE RECONNAISSANCE

The objectives of the site reconnaissance were as follows:

- To identify potential environmental concerns associated with current and past uses of the Site;
- To identify Potentially Contaminating Activities (PCAs) on, in, or under the Site;
- To identify, as practical, current and past uses, activities, and PCAs in the vicinity of the Site; and,
- To identify details of potential contaminant pathways on, in, or under the Site and potential environmental concerns and contaminants of potential concern.

McIntosh Perry had open and ready access to all interior and exterior areas of the Site during the Site visit.

### 6.1 General Requirements

McIntosh Perry conducted the Site reconnaissance on December 21, 2021 (from approximately 9:15 am to 10:45 am). Dan Arnott of McIntosh Perry inspected all areas of the Site and observed other properties in the Study Area from publicly accessible locations.

Weather conditions at the time of the Site visit were clear and sunny with a temperature of approximately -3 degrees Celsius.

The Site is not considered an Enhanced Investigation Property under the requirements of O.Reg. 153/04. The Site is currently occupied by a 11-storey and basement commercial/residential building. The building is currently owned by Elgar Holdings Inc. Surrounding land use is primarily residential and commercial. Land use in the vicinity is shown on Figure 3.

Photographs of the Site are included in Appendix G. A brief description is included with each photograph, including location and orientation where applicable.

Field assessment and senior review was completed by Dan Arnott, P.Eng., of McIntosh Perry. Dan has successfully completed hundreds of Phase I/One and II/Two ESAs for residential, commercial, and institutional properties across Ontario and is a Qualified Person (QP) under O.Reg. 153/04.

Reporting for this report was conducted by Kevin Cortez of McIntosh Perry. Kevin is an environmental engineering intern and has conducted various Phase I/One and II/Two ESAs for residential and commercial properties across Ontario.

Senior review for this report was provided by Fraser Armstrong, P.Eng. Fraser has over 25-years experience in undertaking and reporting Phase I/One and II/Two ESAs for residential, commercial and institutional sites for public and private sector clients throughout Ontario. Fraser is a Qualified Person (QP) under O.Reg. 153/04.

McIntosh Perry is licensed to practice engineering and geoscience in the Province of Ontario. McIntosh Perry holds Certificates of Authorization with the Professional Engineers of Ontario (PEO) and Professional Geoscientists Ontario (PGO) and is a full member of the Association of Consulting Engineering Companies (ACEC).

## 6.2 Specific Observations at the Phase One Property

### 6.2.1 Structures and Other Improvements

The Site is currently occupied by a multi-storey brick/concrete block building with basement used as parking garage. No other structures or improvements are present on the Site.

### 6.2.2 Below Ground Structures

A parking garage was observed during the Site visit, no other below ground structures were observed.

### 6.2.3 Storage Tanks

One (1) 900-litre (L) above-ground fibreglass diesel storage tank (AST) was observed in the basement during the time of the Site visit. The storage tank provides fuel to the generator and is serviced by Mannion Petroleum; the AST was last serviced in February 2019. A vent pipe (presumably for the aforementioned AST) was observed at the exterior of the building.

### 6.2.4 Lead containing Paint

Due to the age of the building, it is likely that the older paint coating surfaces may contain lead; analytical testing would be required to confirm this.

### 6.2.5 Hazardous Materials

Cleaning chemicals were identified at the Site; no hazardous materials were identified.

### 6.2.6 Potable and Non-Potable Water Sources

The Site is serviced by the City of Ottawa municipal water distribution system. No potable water wells were encountered on-Site or within the Phase One Study Area.

### 6.2.7 Underground Service Trenches

Underground service trenches for water and storm/sanitary sewer are interpreted to run between the building and Lisgar Street, Elgin Street, and Nepean Street.

### 6.2.8 Exit and Entry Points

All exit and entry points to the Site were inspected. No concerns were identified.

### 6.2.9 Existing and Former Heating Systems

The Site is currently heated by natural gas-fired boilers. A 1983 Commercial Property Fire Inspection Survey Form Report details that the building's boilers were oil-fired, while the 1987 Multirisk Report details that the building's boilers are gas-fired. It is not known when the conversion from fuel oil to natural gas was performed.

#### *6.2.10 Cooling Systems*

Chillers with cooling towers and air handling system were observed during the Site visit.

#### *6.2.11 Drains, Pits, and Sumps*

Five sumps were observed during the Site visit. Two (2) were observed in the old basement, two (2) in basement addition, and one (1) in the garage section.

#### *6.2.12 Unidentified Substances*

No unidentified substances were observed at the Site.

#### *6.2.13 Stains and/or Corrosion Near Drains, Pits, and Sumps*

No staining was observed at the Site.

#### *6.2.14 Well Details*

No wells were observed at the Site.

#### *6.2.15 Details of Sewage Works*

The Site is serviced by the City of Ottawa sanitary sewer system. No private sewage systems are present on-Site.

#### *6.2.16 Ground Surface Details*

The building occupies the entire Site footprint.

#### *6.2.17 Current and Former Railway Lines*

No current or former railway lines were encountered at the Site or adjacent properties.

#### *6.2.18 Staining to Soil, Vegetation, or Pavement*

The building occupies the entire Site footprint, no staining to the soil, vegetation or pavement was identified at the time of the Site visit.

#### *6.2.19 Stressed Vegetation*

No vegetation, stressed or otherwise, were observed at the Site.

#### *6.2.20 Fill and Debris*

No areas of fill placement were observed at the Site.

#### *6.2.21 Mould*

No mould-like substances were observed at the Site.

#### *6.2.22 Asbestos-containing materials*

Some asbestos containing materials were observed on pipe elbow insulation, vinyl floor tiles, parking cement, and drywall during the Site visit.

#### *6.2.23 Generators and other large mechanical equipment*

A generator was observed in the mechanical room during the Site visit. The main fuel tank for the generator is located within the basement area with a secondary tank located in the 11<sup>th</sup> floor penthouse.

### **6.3 Surrounding Properties**

Surrounding land use in the vicinity of the Site generally consisted of the following:

- North – Nepean Street followed by commercial properties;
- South – Lisgar Street followed by commercial and residential properties;
- East – Elgin Street followed by a Historical Landmark; and,
- West – A restaurant followed by a commercial complex.

## 7.0 REVIEW AND EVALUATION OF INFORMATION

The following sections provide a review, evaluation and an interpretation of the information from the records review, interviews and site reconnaissance.

### 7.1 Current and Past Uses of Phase One Property

The Site is currently occupied by a 11-storey commercial/multitenant office building with basement and underground parking. Based on a review of insurance reports, the present-day site building was constructed on-Site in approximately 1965 with an addition in 1986. Prior to 1964, the Site was developed with residential buildings which were constructed before 1928. The residential buildings are considered to be the first developed use of the Site.

### 7.2 Potentially Contaminating Activities

A total of 19 PCAs were identified at the Site and within the Phase One ESA Study Area. As summary of identified PCAs is presented in Table 4 below.

No.	Potential Contaminating Activity (PCA)	Location of PCA	Proximity of PCA to Phase One ESA Property	Time Frame Associated with PCA	Information Source	Does the PCA warrant an area of potential environmental concern (APEC)
1	#28 Gasoline and Associated Products Storage in Fixed Tanks Oil Fired boilers	On-Site	On-Site	Historic	FIPs	Yes, occurred on Site
2	Other (Not Listed) Spill – Oil to ground	On-site	On-Site	Historic	ERIS	Yes, occurred on Site

Table 4: Potentially Contaminating Activities

No.	Potential Contaminating Activity (PCA)	Location of PCA	Proximity of PCA to Phase One ESA Property	Time Frame Associated with PCA	Information Source	Does the PCA warrant an area of potential environmental concern (APEC)
3	#31 Ink Manufacturing, Processing and Bulk Storage	On-site	On-Site	Historic	ERIS	<b>Yes, occurred on Site</b>
4	#28 Gasoline and Associated Products Storage in Fixed Tanks  (900-L Diesel tank, daily tank and connected generator)	On-Site	On-Site	Historic/Current	Site Visit	<b>Yes, due to location on Site</b>
5	#28 Gasoline and Associated Product Storage in Fixed Tanks  #10 Commercial Autobody Shops  (off-Site automotive garage)	196 Elgin Street	North adjacent of property	Historic	FIPs, ERIS, Aerials	<b>Yes, due to proximity to the Site</b>

Table 4: Potentially Contaminating Activities

No.	Potential Contaminating Activity (PCA)	Location of PCA	Proximity of PCA to Phase One ESA Property	Time Frame Associated with PCA	Information Source	Does the PCA warrant an area of potential environmental concern (APEC)
6	#42 Pharmaceutical Manufacturing and Processing	Corner of Elgin and Maria Street (Present day Laurier Street)	Approximately 200 m northeast of Site	Historic	FIPs	No, due to location
7	#37 Operation of Dry-cleaning equipment (Where chemicals are used)	34A Nepean Street	Approximately 35 m northwest of Site	Historic	FIP	No, due to distance and down-gradient location from the Site
8	#28 Gasoline and Associated Product Storage in Fixed Tanks	170 Elgin Street	Approximately 55 m north of the Site	Historic	FIP	No, due to distance and down-gradient location from the Site
9	#10 Commercial Autobody Shops (off-Site automotive garage)	15 Gloucester Street	Approximately 95 m north of the Site	Historic	FIP	No, due to distance and down-gradient location from the Site
10	Other (Not Listed) PCBs	180 Elgin Street	Immediately north of the Site	Historic/Current	ERIS	No, due to down-gradient location of PCA

Table 4: Potentially Contaminating Activities

No.	Potential Contaminating Activity (PCA)	Location of PCA	Proximity of PCA to Phase One ESA Property	Time Frame Associated with PCA	Information Source	Does the PCA warrant an area of potential environmental concern (APEC)
11	#51 Solvent Manufacturing, Processing and Bulk Storage	180 Elgin Street	Immediately north of the Site	Historic	ERIS	No, due to down-gradient location of PCA
12	Other (Not Listed) Spill – Hydraulic oil to ground	160 Elgin Street	Immediately north of the Site	Historic	ERIS	No, due to down-gradient location of PCA
13	Other (Not Listed) Spill – Hydraulic oil to ground	Corner of Gloucester Road and Elgin Street	Approximately 85 m north of the Site	Historic	ERIS	No, due to distance and down-gradient location of PCA from the Site
14	Other (Not Listed) Spill – Diesel to ground	161 Elgin Street	Approximately 70 m northeast of the Site	Historic	ERIS	No, due to distance and down-gradient location from the Site
15	Other (Not Listed) Spill – Electrical Oil	161 Elgin Street	Approximately 70 m northeast of the Site	Historic	ERIS	No, due to distance and down-gradient location from the Site

Table 4: Potentially Contaminating Activities

No.	Potential Contaminating Activity (PCA)	Location of PCA	Proximity of PCA to Phase One ESA Property	Time Frame Associated with PCA	Information Source	Does the PCA warrant an area of potential environmental concern (APEC)
16	#1 Acid and Alkali Manufacturing, Processing and Bulk Storage  #8 Chemical Manufacturing, Processing and Bulk Storage  #39 Paints Manufacturing, Processing and Bulk Storage	161 Elgin Street	Approximately 70 m northeast of the Site	Historic	ERIS	<b>No, due to distance and down-gradient location from the Site</b>
17	#37 Operation of Dry-cleaning equipment (Where chemicals are used)	268 Elgin Street	Approximately 190 m south of Site	Historic	ERIS	<b>No, due to distance from the Site</b>
18	#28 Gasoline and Associated Products Storage in Fixed Tanks	280 Elgin Street	Approximately 185 m south of Site	Historic	ERIS	<b>No, due to distance from the Site</b>
19	#28 Gasoline and Associated Products Storage in Fixed Tanks	280 Elgin Street	Approximately 185 m south of Site	Historic	ERIS	<b>No, due to distance from the Site</b>

### 7.3 Areas of Potential Environmental Concern (APEC)

Of the 19 PCAs identified for the Phase One Property and Phase One Study Area, 5 PCAs were deemed to represent APECs. The following tabulation presents a summary of the APECs identified for the Phase One Property.

Area of Potential Environmental Concern	Location of Area of Potential Environmental Concern on Phase One Property	Potentially Contaminating Activity	Location of PCA (on-Site or off-Site)	Contaminants of Potential Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
APEC-1	Southwest corner of property	#28 Gasoline and Associated Products Storage in Fixed Tanks Oil-Fired Boilers	On-Site	PHCs, BTEX	Soil and Groundwater
APEC-2	Unknown	#31 Ink Manufacturing, Processing and Bulk Storage	On-Site	VOCs, Heavy Metals	Soil and groundwater
APEC-3	Unknown	Other (Not Listed) Spill – Oil to ground	On-site	PAHs, PHCs	Soil and groundwater
APEC-4	Southwest corner of property	#28 Gasoline and Associated Products Storage in Fixed Tanks	On-Site	PHCs, BTEX	Soil and Groundwater

Area of Potential Environmental Concern	Location of Area of Potential Environmental Concern on Phase One Property	Potentially Contaminating Activity	Location of PCA (on-Site or off-Site)	Contaminants of Potential Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
APEC-5	North adjacent of property	#28 Gasoline and Associated Product Storage in Fixed Tanks #10 Commercial Autobody Shops (off-Site automotive garage)	196 Elgin Street	PHCs, BTEX, Metals, VOCs	Soil and groundwater

#### 7.4 Phase One Conceptual Site Model

This Phase One Conceptual Site Model is prepared as part of a Phase One Environmental Site Assessment (Phase One ESA) for the Phase One Property identified in Section 1.1.1 of this report, addressed as 200 Elgin Street, Ottawa, Ontario (hereinafter referred to as the “Phase One Property” or the “Site”). A Site Location Plan is presented on Figure 1 in Appendix A.

The Site is a mainly rectangular shaped with two branches on the northwest side, it is approximately 0.22 hectares in size and is located in the downtown portion of the city of Ottawa. Based on the records review, the Site appears to have been first developed with residential buildings prior to 1928 and redeveloped with the present-day 11-storey commercial/office building in 1965 with additions made in 1986. It is our understanding that the Site is to be repurposed with residential units on the upper floors and maintain a commercial section on the main floor, as such, a Record of Site Condition will be required.

The legal description of the Site is as follows:

PT LT 55 S/S NEPEAN ST. AND PT LT 55 N/S LISGAR ST. AND ALL LTS 56 & 57 N/S LISGAR ST. ON PLAN 2996, BEING PART 2 ON PLAN 4R-5640, OTTAWA. SUBJECT TO AND TOGETHER WITH RIGHTS AS IN LT494415. SUBJECT TO AN EASEMENT IN FAVOUR OF CARLETON CONDOMINIUM CORPORATION NO. 365 OVER LOT 55 SOUTH SIDE OF NEPEAN STREET AND LOT 55 NORTH SIDE OF LISGAR STREET PLAN 2996 AS IN LT1242133. SUBJECT TO AN EASEMENT AS IN OC1649094

PIN: 041150270

Land use at the Site is predominantly commercial with some residential.

#### *7.4.1 Areas Where Potentially Contaminating Activities Have Occurred*

A total of 19 PCAs were identified for the Phase One ESA Property and surrounding properties within the Phase One Study Area based on records review, interviews and site reconnaissance, as part of this Phase One ESA, as summarized in Table 4.

#### *7.4.2 Areas of Potential Environmental Concern*

Of the 19 PCAs identified for the Phase One Study area, 5 PCAs were identified to be APECs; Table 5 within the body of this report presents a summary for the APECs associated with the Phase One Property.

#### *7.4.3 Contaminants of Potential Concern*

The following contaminants of potential concern (COCs) were identified with respect to the Site:

- Petroleum Hydrocarbons, Fractions 1 through 4 (PHC F1-F4) – this parameter group includes petroleum hydrocarbons subdivided by carbon chain length, such as Fraction 1 (gasoline range), Fraction 2 (diesel/furnace oil range), and Fractions 3 and 4 (heavy oils). PHCs were selected as COPCs for the Site based on the presence of on-site ASTs, the presence of automotive service garages and underground fuel storage tanks within the Phase One Study Area, and historic spills that occurred on Site.
- Volatile Organic Compounds (VOCs) – this parameter group includes benzene, toluene, ethylbenzene, and xylenes (BTEX), common soluble parameters in gasoline and diesel fuels, as well as various other parameters including chlorinated solvents associated with dry cleaning and degreasing. This parameter group was selected as COPCs for the Site due to the presence of on-Site fuel storage tanks as well as automotive service garages and underground storage tanks in the Phase One Study Area.
- Polycyclic Aromatic Hydrocarbons (PAHs) – this parameter group includes various parameters commonly associated with heavy oils, coal, and combustion. PAHs were selected for COPCs at the Site due to the presence of the on-site ASTs, the historic use of oil fired heating, and associated spills recorded on Site, and the presence of automotive service garages within the Phase One Study Area.
- Metals, including Hydride-Forming Metals – this parameter group includes a variety of heavy metals for which site condition standards exist. This parameter group was selected due to the potential historical presence of lead in historically used fuels at surrounding retail fuel outlets.

#### *7.4.4 Potential for Underground Utilities to Affect Contaminant Distribution and Transport*

In general, there is the potential for underground service trenches to serve as preferential contaminant transport pathways. The presence and location of underground service trenches with respect to APECs can be confirmed by a Phase Two ESA.

#### *7.4.5 Geological and Hydrogeological Information*

Geological maps of the area classify the overburden at the Site as silt and clay, minor sand and gravel, massive to well laminated (OGS, 2017).

Geological maps of the area classify the bedrock under the Site as predominantly shale, limestone, dolostone, siltstone of the Georgian Bay Formation (OGS, 2017).

The Site occurs within the Rideau Falls – Rideau River watershed. The Rideau Canal is located approximately 390 m northeast of the Site and the Ottawa River is located approximately 930 m north of the Site, at its closest point. Site drainage is presumed to consist of overland flow to municipal sewers along Elgin and Lisgar Street.

#### ***7.4.6 Uncertainty or Absence of Information***

No uncertainty or absence of information noted in the Phase One ESA is considered to have the potential to affect the validity of this conceptual site model.

## 8.0 CONCLUSIONS

Based on a review of historical information, the following PCAs have resulted in APECs in relation to the Site:

- Historic oil-fired boilers used for heating the Site building;
- Historic printing operations that occurred at the Site;
- Historic 30-L oil spill that occurred at the Site;
- Two (2) aboveground storage tank containing diesel fuel and associated generator was identified on-site;
- Past underground storage tanks which serviced a gasoline service station and an auto repair shop located north adjacent of the Site.

Potentially Contaminating Activities within the Phase One Study Area include the following:

- Historical presence of drugstore located approximately 200 m northeast of the Site at the corner of Elgin and Maria Street (Present Day Laurier Street).
- A laundry/dry cleaning facility located at 34A Nepean Street, approximately 35 m northwest of the Site.
- A gasoline service station located at 170 Elgin Street, approximately 55-m north of the Site.
- An automotive service garage at 15 Gloucester Street, located approximately 95 m north of the Site.
- Waste generator record indicating PCBs were generated at 180 Elgin Street, immediately north of the Site.
- Waste generator record indicating aliphatic solvents were generated at 180 Elgin Street, immediately north of the Site.
- Hydraulic oil spills that occurred at 160 Elgin Street, immediately north of the Site, and at the corner of Gloucester Road and Elgin Street, approximately 85 m north of the Site.
- A diesel spill and an electrical oil spill that occurred at 161 Elgin Street, approximately 70 m northeast of the Site.
- Waste generator record indicating aliphatic solvents, paint/pigment/coating residues, alkaline waste heavy metals, and other wastes were generated at 161 Elgin Street, approximately 70 m northeast of the Site.
- A laundry/dry cleaning facility located at 268 Elgin Street, approximately 190 m south of the Site.
- A historic fuel storage tank and a delisted fuel tank record indicating a retail fuel outlet at 280 Elgin Street, approximately 185 m south of the Site.

Due to the separation distances, and/or down/cross gradient locations of the properties in relation to the Site, the PCAs identified at these properties are not considered to represent APECs to the Site.

### 8.1 Is a Phase 2 ESA Required?

Based on the on-Site diesel generator and the off-Site PCAs representing APECS to the Site, ***a Phase Two ESA is recommended for this Site.***

## 9.0 LIMITATIONS

The information presented in this report is based on the historical data obtained from readily available public records, information provided by others and direct visual observation made by personnel with McIntosh Perry as identified herein. This assessment did not include such tasks as sample gathering, laboratory testing, or intrusive investigations. Recommendations contained within our report reflect our informed opinion based on the information gathered during our investigation. The findings cannot be extended to components of the building or portions of the Site that were not reviewed or that were concealed or unavailable for direct observation at the time of our visit.

This report describes the potential for significant negative environmental conditions being present on the property and is intended to reduce, but not necessarily eliminate, uncertainty regarding the potential for significant environmental conditions to exist on the property. Where this potential exists, the further reduction or elimination of uncertainty requires the performance of a Phase II Environmental Site Assessment (ESA), i.e., sample gathering, laboratory testing and intrusive investigation.

No legal survey, soil test, detailed structural engineering investigation, or quantity survey compilation have been made. No responsibility, therefore, is assumed concerning these matters, or for any failure to carry out those technical or engineering procedures required to discover any inherent or hidden condition of this property since such investigation work was not included in the terms of reference governing this study.

This Phase I/One ESA is not an audit of environmental management practices and does not identify geotechnical conditions or geologic hazards of the Site.

The conclusions and recommendations detailed in this report are based upon the information available at the time of preparation of the report. No investigative method eliminates the possibility of obtaining imprecise or incomplete information. Professional judgement was exercised in gathering and analyzing the information obtained and in the formulation of our conclusions and recommendations. The recommendations are not intended to be utilized as a detailed specification for any remedial work that may be required. McIntosh Perry accepts no responsibility for interpretation of our recommendations, or actions taken based on them without our consultation and supervision.

McIntosh Perry does not certify or warrant the environmental status of the property nor the building on the property.

Information provided by McIntosh Perry is intended for Client use only. McIntosh Perry will not provide results or information to any party other than the Client, unless the Client, in writing, requests that information be provided to a third party or unless disclosure by McIntosh Perry is required by law. Any use by a third party, of reports or documents authored by McIntosh Perry, or any reliance by a third party, or decisions made by a third party, on the findings described in reports or documents authored by McIntosh Perry, is the sole responsibility of such third parties. McIntosh Perry accepts no responsibility for damages suffered by any third party as a result of decisions made or work carried out based on reports or documents authored by McIntosh Perry.

McIntosh Perry makes no representations concerning the legal and medical significance of our findings. With respect to regulatory compliance requirements, regulations change from time to time and interpretation of their meaning and intent may also change. McIntosh Perry accepts no responsibility for any legal interpretation of the Regulations, or the consequent financial effect on transactions, property values, or requirements for follow-up actions and costs.

The liability of McIntosh Perry or its staff is limited to the fees paid or actual damages incurred by the Client, whichever is less. McIntosh Perry is not responsible for consequential or indirect damages. All claims by the Client shall be deemed relinquished if not made within two years after last date of services provided.

Please note that the passage of time affects the information provided in the report. Environmental conditions of a Site can change. Opinions relating to the site conditions are based upon information that existed at the time that the conclusions were formulated.

The Client expressly agrees that it has entered into this agreement with McIntosh Perry, both on its own behalf and as agent on behalf of its employees and principals.

The Client expressly agrees that McIntosh Perry's employees and principals shall have no personal liability to the Client in respect of a claim, whether in contract, tort and/or any other cause of action in law. Accordingly, the Client expressly agrees that it will bring no proceedings and take no action in any court of law against any of McIntosh Perry's employees or principals in their personal capacity.

We trust that this information is satisfactory for your present requirements. Should you have any questions or require additional information, please do not hesitate to contact the undersigned.

Respectfully submitted,

**McIntosh Perry Consulting Engineers Ltd.**

## **Opta Historical Environmental Services Enviroscan<sup>TM</sup> Terms and Conditions**

### **Report**

The documents (hereinafter referred to as the "Documents") to be released as part of the report (hereinafter referred to as the "Report") to be delivered to the purchaser as set out above are documents in Opta's records relating to the described property (hereinafter referred to as the "Property"). Opta makes no representations or warranties respecting the Documents whatsoever, including, without limitation, with respect to the completeness, accuracy or usefulness of the Documents, and does not represent or warrant that these are the only plans and reports prepared in association with the Property or in Opta's possession at the time of Report delivery to the purchaser. The Documents are current as of the date(s) indicated on them. Interpretation of the Documents, if any, is by inference based upon the information which is apparent and obvious on the face of the Documents only. Opta does not represent, warrant or guarantee that interpretations other than those referred to do not exist from other sources. The Report will be prepared for use by the purchaser of the services as shown above hereof only.

### **Disclaimer**

Opta disclaims responsibility for any losses or damages of any kind whatsoever, whether consequential or other, however caused, incurred or suffered, arising directly or indirectly as a result of the services (which services include, but are not limited to, the preparation of the Report provided hereunder), including but not limited to, any losses or damages arising directly or indirectly from any breach of contract, fundamental or otherwise, from reliance on Opta Reports or from any tortious acts or omissions of Opta's agents, employees or representatives.

### **Entire Agreement**

The parties hereto acknowledge and agree to be bound by the terms and conditions hereof. The request form constitutes the entire agreement between the parties pertaining to the subject matter hereof and supersedes all prior and contemporaneous agreements, negotiations and discussions, whether oral or written, and there are no representations or warranties, or other agreements between the parties in connection with the subject matter hereof except as specifically set forth herein. No supplement, modification, waiver, or termination of the request shall be binding, unless confirmed in writing by the parties hereto.

### **Governing Document**

In the event of any conflicts or inconsistencies between the provisions hereof and the Reports, the rights and obligations of the parties shall be deemed to be governed by the request form, which shall be the paramount document.

### **Law**

This agreement shall be governed by and construed in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein.

NOTE: EXPLAIN CIRCLED ○ ANSWERS

1. BUILDING:

Year built 1965 Additions 1986
Building height (storeys) 6, 11
Exterior wall construction CBPF, CB
Floor construction POURED CONCRETE
Roof Const.: Support CONC Deck CONC Cover TIG
Area: Ground Floor 2458 Sq. M. Total 2515 Sq. M. (incl. basement)

Vertical openings protected? [X] Yes [ ] No [ ] None
Interior finish Walls & Ceilings [ ] None [X] Non-Comb [ ] Other
Building condition satisfactory? [X] Yes [ ] No
Basement in building? [X] Yes [ ] No
[ ] Finished [X] Unfinished Area \_\_\_\_\_ Sq. Metres
Any vacant areas? [X] Yes [ ] No (1 sq. m. = 10.76 sq ft)

2. COMMON HAZARDS:

Heating Type HOT WATER
Fuel: [X] Gas [ ] Electric [ ] Wood [ ] Coal [ ] LP Gas
[ ] Oil [ ] Other:
Appears safely arranged? [X] Yes [ ] No
Chimneys: [X] Masonry [ ] ULC Factory Bld. [ ] Other
Electrical type: [X] Conduit [X] Bx [ ] Non Met. Cable
[ ] Other
Overcurrent protection: [X] Cct. bkr. [ ] Fuses (Type S)
[ ] Fuses (Other)
Appears safely arranged? [X] Yes [ ] No

Are the following satisfactory?
Housekeeping [X] Yes [ ] No
Maintenance [X] Yes [ ] No
Trash removal [X] Yes [ ] No
Smoking Control [X] Yes [ ] No
\* Restaurant Cooking [ ] Yes [ ] No [ ] None
Flam./combust. liquids [ ] Yes [ ] No [X] None noted
Welding/hot work [ ] Yes [ ] No [X] None noted
Other special hazards [ ] Yes [ ] No [X] None noted

3. MUNICIPAL PROTECTION:

FUS Municipal Protection Class: 03
Responding Fire Department: CFD
[X] Paid [ ] Volunteer [ ] Combination
Distance to fire department (Km) [X] Under 5 [ ] Over 5
Roads: [X] Paved [ ] Unpaved
Accessible year-round? [X] Yes [ ] No
Difficult access to build. for fire dept. [ ] Yes [X] No
Hydrants: 3 Within 155 m. 156-312 m. [ ] over 312 m. (Number of Hydrants) (1 m = 3.28 ft)

4. PRIVATE PROTECTION:

Adequate fire extinguishers [X] Yes [ ] No [ ] None
Extinguishers properly tagged and serviced? [X] Yes [ ] No
Standpipe and hose [X] Yes [ ] No
Restaurant cooking protection? [ ] Yes [ ] No
Sprinkler System? [ ] Yes [X] No IAO File \_\_\_\_\_
Coverage: [ ] Full [ ] Partial
Alarm: [ ] Local [ ] Central Station [ ] Other
Fire Detection / alarm system? [ ] Yes [X] No
Watchman service? [ ] Yes [X] No

5. EXPOSURES: Include exposures within 15 m. of risk (Omit if information provided on diagram)

Distance: Height: Construction: Occupancy:
North:
South:
East:
West:

6. BUSINESS INTERRUPTION:

Insured's estimated replacement time:
Building UNKNOWN Contents 4 WKS
Difficult to replace (e.g. Foreign)?
Equipment [ ] Yes [ ] No Fixtures [ ] Yes [X] No Stock [ ] Yes [X] No
Climatic factor effect rebuilding? [ ] Yes [X] No
Insured has other location(s) to conduct business? [ ] Yes [X] No Interdependency [ ] Yes [X] No
Is there a single source of any stock or materials? [ ] Yes [X] No
Seasonal fluctuations? [ ] Yes [ ] No Local Competition? [ ] Yes [X] No

 Condition of Building: Good ; Average ; Poor   
 Is building completely finished & out of workmens hands? Yes ; No  IBC Code: Terr: 63 Ind: 651 Cons: 1 Prot: 2

BASIC CONSTRUCTION - (SECTION II)

- EXTERIOR WALLS:

NSEW  (Refers to compass point direction of wall i.e. North, South, East or West)  
 INDEPENDENT  BEARING  NON-BEARING  PARTY  PARAPET   
 (Describe material & thickness of all walls including make-up of combustible walls & any fire retardant impregnation. Also, check off appropriate wall supports below.)  
Poured Reinforced Concrete Framework  
BFCB & Precast Spine Slab 5"  
 COLUMNS OF WOOD ; HEAVY WOOD (min. 150mm x 300mm) ; UNPROTECTED STEEL ; PROTECTED STEEL  protected by \_\_\_\_\_ having a fire-resistance rating of \_\_\_\_\_ hrs.  
 PANELS of Non-Combustible material or GLASS ; COMBUSTIBLE  (describe) \_\_\_\_\_  
 Wall: N. 20 %; S. 10 %; E. 20 %; W. 20 %.

- FLOORS & ROOF: (Describe Floor & Roof Materials Including Thickness & Nature Of Supports)

Floor Level	% Aut. Spk. Sec	Fire Resistive & Masonry	Fire Res. in Hrs.	Non-Combustible	Combustible
Grade	0%	(7 1/2") Poured Concrete	2		
Roof					

COMBUSTIBLE FLR. on Lowest BASEMENT Level: Yes ; No . If Yes, Describe & Give Percentage - \_\_\_\_\_

SECONDARY CONSTRUCTION - (SECTION III)

- HEIGHT: (Nbr.) 11 Storeys High; Basement: Yes ; No . (Nbr.) — Combustible Storeys Without Ground Level Access.  
 - VERTICAL OPENINGS: Number of Elevators - Passenger 2 Freight \_\_\_\_\_

(Describe Construction & Type of Enclosure (s) & Door (s) Fully)

Elev., S' way or Other	Nbr.	From:	To:	ENCLOSURE (S)	DOOR (S)
ELEV.	2	B1	11TH	CONCRETE	1 1/2 HR. S/C DOORS
STAIRS	2	B1	ROOF	CON. BLOCKS	1 1/2 HR S/C DOORS

- AREA: Basement : 43.9 x 24.4 ; 33.5 x 6.7 ; \_\_\_\_\_ x \_\_\_\_\_ = 1295.6 m<sup>2</sup>  
 1st. Floor : 43.9 x 24.4 ; 33.5 x 6.7 ; \_\_\_\_\_ x \_\_\_\_\_ = 1295.6 m<sup>2</sup>  
 2nd. Floor : \_\_\_\_\_ x \_\_\_\_\_ ; \_\_\_\_\_ x \_\_\_\_\_ ; \_\_\_\_\_ x \_\_\_\_\_ = \_\_\_\_\_ m<sup>2</sup>  
 3rd. (& Other) : 2ND TO 11TH ; 43.9 x 24.4 x 10 FLOORS ; \_\_\_\_\_ x \_\_\_\_\_ = 10712.0 m<sup>2</sup>  
 Separation Walls  (describe) \_\_\_\_\_ . Total Area 13303.2 m<sup>2</sup>

- ROOF SURFACE: Non-Combustible  (describe) \_\_\_\_\_ . Combustible  (describe) \_\_\_\_\_  
 Patent . FALSE ROOF over Masonry or Fire Resistive Roof  (describe) \_\_\_\_\_

- COMBUSTIBLE CONCEALED SPACES: Combustible Space In Roof of , &/or Ceiling . If In Roof, Is This Artic , Cut Off , Shut Off , With Access Limited By Trap(s)/Hatchway(s) . In Proportion To Total Roof/Ceiling Area COMBUSTIBLE CONCEALED SPACE Comprises      % In ROOF &/or      % In CEILING. Describe     .

- COMBUSTIBLE INTERIOR CONSTRUCTION: Floor Surfacing  (describe & give % of total floor area affected)     .  
 Partitions/Walls  (describe & give % of total interior wall area)     .  
 Mezzanines/Decks  (describe & give % of total area of floors & roof)     .

- INTERIOR FINISH or INSULATION: (Specify Where SPECIAL DAMAGE Materials Are Used)

Specify FLOOR	BT.	(157 TO 174)		PHASE	
Walls:	COALC	PL/SIPRAGE, PL/CA		CB	
Ceilings:	CONC	A.M.T.		CANC.	
Interior Partitions	CB	CB, 470		CB	
Smoke Developed	-	-		-	
Flame Spread	-	-		-	

Ordinary Damage Materials Attached To Fire Resistive or Non-Combustible Walls  and/or Ceiling  -

- COMB. EXTERIOR ATTACHMENTS OR FINISH: Attachments  Comprise Of (describe & give chargeable %)     .  
 Finish  Comprises Of (describe & give chargeable %)     .  
 Smoke Developed - 200 or Less ; Over 200 ; Flame Spread Rating     .  
 None Of The Above . Are Attachments/Finish Attached/Applied To Fire Resistive or Non-Comb., Walls or Roof? Yes ; No .

- BUILDING CONDITION: Moderate , Major , Extreme Deficiencies . Describe Sub-Standard Structural Conditions good.

COMMON HAZARDS - (SECTION VII, Items 720-724)

- HEATING: Building Heated? Yes ; No . Borrowed Heat . Describe Heating System Including Controls & Fuel Used: Hot Water oil fired Boilers.  
 Describe Chimney(s) & Deficiencies If Any:     

- ELECTRICAL: FUSES: Type "S" ; Type "C" & Rejector System ; Circuit Breakers ; ORDINARY ; Used Exclusively .  
 Aluminum Wiring ; Rigid Conduit ; Other  (describe) SC. Open .  
 Electrical Equipment Defects: None ; Minor ; Moderate ; Major ; Serious . Describe Condition:     

- AIR CONDITIONING: 100 %; Central ; Window .

- HOUSEKEEPING: See General Underwriting Comments Section (Page 3) good.

MUNICIPAL PROTECTION - (SECTION IX)

- FIRE DEPARTMENT: Risk Within 2.5 km Of Nearest Fire Hall? Yes ; No . If No - State Distance To Fire Hall:      km.  
 - HYDRANTS: Two Hydrants Within 155m of Risk? Yes ; No . And All Parts Of Building Within 155m Of At Least One Hydrant? Yes ; No . MAINS - 150mm ; 200mm ; 300mm . Other (describe)     .  
 Circulating ; and/or Dead End  Mains. Describe Efficiency (if any):     .  
 - ACCESSIBILITY: Risk Accessible At Least On One Side By Street 15m In Width? Yes ; No . If No - Describe     .  
 - CONGESTED AREA: Congested/Conflagration Hazard Prevails? Yes ; No . If Yes, Describe Under General Underwriting Comments:     .  
 - PRIVATE PROTECTION: Is There Exclusive Private Protection , Or Supplement To Municipal Protection . Describe     .

INTERNAL PROTECTION - (SECTION XI)

- MANUAL FIRE FIGHTING EQUIPMENT: Standard ; Non-Standard . (See Occupancy Section, page 3).  
 - WATCHMAN SERVICE: Standard , Including Proprietary Supervision , Including Central Station Supervisory Ser. . Describe:     .  
 - AUTOMATIC FIRE DETECTION SYSTEM: Full Protection ; Partial Protection (i.e. Minimum Requirements ; Describe (& Attach Form No. 2184-6/80, for Automatic Fire Alarm Detection Systems, After Completion)     .  
 - PARTIAL AUTOMATIC SPRINKLER SYSTEMS: Acceptable Waterflow Alarm To Approved CENTRAL STATION , No Such Alarm . Total area Protected by Automatic Sprinklers Comprises      M<sup>2</sup>.  
 - OTHER LIMITED AUTOMATIC FIRE PROTECTION SYSTEMS: Area Protected by: HALON ; CO<sub>2</sub> ; HIGH EXPANSION FOAM ; Other (describe)     , Comprises      m<sup>2</sup>.  
 (Other Than A.S.)

COMMERCIAL PROPERTY FIRE INSPECTION SURVEY FORM  
 OCCUPANCY & SPECIAL HAZARDS - (SECTIONS IV, V, VI & VII)

- SEPARATED OCCUPANCY: Is There Any Occupant(s) Cut-Off VERTICALLY  / HORIZONTALLY ? Yes ; No .  
 If Yes - Such Occupant Occupies \_\_\_\_\_ m<sup>2</sup>, Comprising \_\_\_\_\_ % Of The Total Floor Area;

Describe: \_\_\_\_\_

OCCUPANCY DETAILS: Indicate:				1) Business Name Of Each Tenant, 2) Special Hazards Including Process Operation(s) And Faults Of Management, 3) Number, Type and Location Of Manual Fire Fighting Equipment, 4) Any Other Exceptional Features Of The Risk Not Discussed Elsewhere, and 5) Any Vacant Section(s).

## **Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY**

**Reliance on information in Report:** This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as a database review of environmental records.

**License for use of information in Report:** No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

**Your Liability for misuse:** Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

**No warranty of Accuracy or Liability for ERIS:** The information contained in this report has been produced by ERIS Information Limited Partnership ("ERIS") using various sources of information, including information provided by Federal and Provincial government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

**Trademark and Copyright:** You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report (s) are protected by copyright owned by ERIS Information Limited Partnership. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

**Investigation 2:**  
**Penalty Imposed:**  
**Description:** Taggart Construction Limited, Paterson Group Inc. and Robert Passmore have been fined \$5,000 each, totalling \$15,000 plus a victim fine surcharge, after pleading guilty on January 15, 2009 to violations under the Ontario Water Resources Act. Taggart Construction Limited and Paterson Group Inc. were convicted of failing to comply with a Provincial Officer Order by taking more than 50,000 litres of water per day, and Mr. Passmore was convicted of giving false or misleading information to the ministry. The parties were given six months to pay the fine. The Court heard that Taggart Construction Limited was contracted by a developer to install municipal services at a subdivision in Ottawa which required dewatering activities. After being issued a Provincial Officer Order to restrict water taking activities to below 50,000 litres per day until a permit had been obtained, Taggart hired Paterson Group Inc. to submit an application for the permit. Taggart then pumped over 50,000 litres of water based on information provided by Paterson Group employee, Mr. Passmore, that the go ahead to pump had been given

when a permit had yet to be issued. In an interview with ministry investigators, Mr. Passmore denied giving Taggart verbal approval to pump in excess of 50,000 litres per day. Taggart Construction Limited, Paterson Group Inc. and Mr. Passmore were charged following an investigation by the Ministry of the Environment's Investigations and Enforcement Branch.

**Penalty Imposed:**  
**Description:**

Santaro Development LLC has been fined \$10,000 plus a victim fine surcharge, and Waste Services (CA) Inc. has been fined \$7,500 plus a victim fine surcharge, after pleading guilty on November 13, 2008 to violations under the Environmental Protection Act. Santaro Development LLC pleaded guilty to operating a Waste Management System without a Certificate of Approval, and Waste Services (CA) Inc. pleaded guilty to arranging for the use of equipment, namely transport trucks, for the handling and transportation of waste that was not part of a Waste Management System for which a Certificate of Approval had been issued. The companies were given 60 days to pay. The Court heard that Santaro Development LLC is a New York Based trucking company. Waste Services (CA) Inc. is an Ontario company that operates waste disposal sites, transfer facilities and waste management systems, including a facility in Ottawa. During a ministry surveillance program, Santaro trucks were observed crossing the border into Canada, picking up waste at the Waste Services facility in Ottawa, and crossing back into the United States to dispose of the waste. At the time, Santaro did not have an approval from the ministry for a Waste Management System, and Waste Services did not ensure that Santaro had the necessary approval prior to arranging for it to transport waste from its facility. Santaro Development LLC and Waste Services (CA) Inc. were charged following an investigation by the Ministry of the Environment's Investigations and Enforcement Branch

# Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. **Note:** Databases denoted with " \* " indicates that the database will no longer be updated. See the individual database description for more information.

## **Abandoned Aggregate Inventory:**

Provincial

[AAGR](#)

The MAAP Program maintains a database of abandoned pits and quarries. Please note that the database is only referenced by lot and concession and city/town location. The database provides information regarding the location, type, size, land use, status and general comments.\*

**Government Publication Date: Sept 2002\***

## **Aggregate Inventory:**

Provincial

[AGR](#)

The Ontario Ministry of Natural Resources maintains a database of all active pits and quarries. The database provides information regarding the registered owner/operator, location name, operation type, approval type, and maximum annual tonnage.

**Government Publication Date: Up to Sep 2020**

## **Abandoned Mine Information System:**

Provincial

[AMIS](#)

The Abandoned Mines Information System contains data on known abandoned and inactive mines located on both Crown and privately held lands. The information was provided by the Ministry of Northern Development and Mines (MNDM), with the following disclaimer: "the database provided has been compiled from various sources, and the Ministry of Northern Development and Mines makes no representation and takes no responsibility that such information is accurate, current or complete". Reported information includes official mine name, status, background information, mine start/end date, primary commodity, mine features, hazards and remediation.

**Government Publication Date: 1800-Oct 2018**

## **Anderson's Waste Disposal Sites:**

Private

[ANDR](#)

The information provided in this database was collected by examining various historical documents which aimed to characterize the likely position of former waste disposal sites from 1860 to present. The research initiative behind the creation of this database was to identify those sites that are missing from the Ontario MOE Waste Disposal Site Inventory, as well as to provide revisions and corrections to the positions and descriptions of sites currently listed in the MOE inventory. In addition to historic waste disposal facilities, the database also identifies certain auto wreckers and scrap yards that have been extrapolated from documentary sources. Please note that the data is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

**Government Publication Date: 1860s-Present**

## **Aboveground Storage Tanks:**

Provincial

[AST](#)

Historical listing of aboveground storage tanks made available by the Department of Natural Resources and Forestry. Includes tanks used to hold water or petroleum. This dataset has been retired as of September 25, 2014 and will no longer be updated.

**Government Publication Date: May 31, 2014**

## **Automobile Wrecking & Supplies:**

Private

[AUWR](#)

This database provides an inventory of known locations that are involved in the scrap metal, automobile wrecking/recycling, and automobile parts & supplies industry. Information is provided on the company name, location and business type.

**Government Publication Date: 1999-Sep 30, 2021**

## **Borehole:**

Provincial

[BORE](#)

A borehole is the generalized term for any narrow shaft drilled in the ground, either vertically or horizontally. The information here includes geotechnical investigations or environmental site assessments, mineral exploration, or as a pilot hole for installing piers or underground utilities. Information is from many sources such as the Ministry of Transportation (MTO) boreholes from engineering reports and projects from the 1950 to 1990's in Southern Ontario. Boreholes from the Ontario Geological Survey (OGS) including The Urban Geology Analysis Information System (UGAIS) and the York Peel Durham Toronto (YPDT) database of the Conservation Authority Moraine Coalition. This database will include fields such as location, stratigraphy, depth, elevation, year drilled, etc. For all water well data or oil and gas well data for Ontario please refer to WWIS and OOGW.

**Government Publication Date: 1875-Jul 2018**

**Certificates of Approval:**

Provincial CA

This database contains the following types of approvals: Air & Noise, Industrial Sewage, Municipal & Private Sewage, Waste Management Systems and Renewable Energy Approvals. The MOE in Ontario states that any facility that releases emissions to the atmosphere, discharges contaminants to ground or surface water, provides potable water supplies, or stores, transports or disposes of waste, must have a Certificate of Approval before it can operate lawfully. Fields include approval number, business name, address, approval date, approval type and status. This database will no longer be updated, as CofA's have been replaced by either Environmental Activity and Sector Registry (EASR) or Environmental Compliance Approval (ECA). Please refer to those individual databases for any information after Oct.31, 2011.

**Government Publication Date: 1985-Oct 30, 2011\***

**Dry Cleaning Facilities:**

Federal CDRY

List of dry cleaning facilities made available by Environment and Climate Change Canada. Environment and Climate Change Canada's Tetrachloroethylene (Use in Dry Cleaning and Reporting Requirements) Regulations (SOR/2003-79) are intended to reduce releases of tetrachloroethylene to the environment from dry cleaning facilities.

**Government Publication Date: Jan 2004-Dec 2019**

**Commercial Fuel Oil Tanks:**

Provincial CFOT

Locations of commercial underground fuel oil tanks. This is not a comprehensive or complete inventory of commercial fuel tanks in the province; this listing is a copy of records of registered commercial underground fuel oil tanks obtained under Access to Public Information.

Note that the following types of tanks do not require registration: waste oil tanks in apartments, office buildings, residences, etc.; aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: May 31, 2021**

**Chemical Manufacturers and Distributors:**

Private CHEM

This database includes information from both a one time study conducted in 1992 and private source and is a listing of facilities that manufacture or distribute chemicals. The production of these chemical substances may involve one or more chemical reactions and/or chemical separation processes (i.e. fractionation, solvent extraction, crystallization, etc.).

**Government Publication Date: 1999-Jan 31, 2020**

**Chemical Register:**

Private CHM

This database includes a listing of locations of facilities within the Province or Territory that either manufacture and/or distributes chemicals.

**Government Publication Date: 1999-Sep 30, 2021**

**Compressed Natural Gas Stations:**

Private CNG

Canada has a network of public access compressed natural gas (CNG) refuelling stations. These stations dispense natural gas in compressed form at 3,000 pounds per square inch (psi), the pressure which is allowed within the current Canadian codes and standards. The majority of natural gas refuelling is located at existing retail gasoline that have a separate refuelling island for natural gas. This list of stations is made available by the Canadian Natural Gas Vehicle Alliance.

**Government Publication Date: Dec 2012 -Nov 2021**

**Inventory of Coal Gasification Plants and Coal Tar Sites:**

Provincial COAL

This inventory includes both the "Inventory of Coal Gasification Plant Waste Sites in Ontario-April 1987" and the Inventory of Industrial Sites Producing or Using Coal Tar and Related Tars in Ontario-November 1988) collected by the MOE. It identifies industrial sites that produced and continue to produce or use coal tar and other related tars. Detailed information is available and includes: facility type, size, land use, information on adjoining properties, soil condition, site operators/occupants, site description, potential environmental impacts and historic maps available. This was a one-time inventory.\*

**Government Publication Date: Apr 1987 and Nov 1988\***

**Compliance and Convictions:**

Provincial CONV

This database summarizes the fines and convictions handed down by the Ontario courts beginning in 1989. Companies and individuals named here have been found guilty of environmental offenses in Ontario courts of law.

**Government Publication Date: 1989-Jul 2021**

**Certificates of Property Use:**

Provincial CPU

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all CPU's on the registry such as (EPA s. 168.6) - Certificate of Property Use.

**Government Publication Date: 1994 - Oct 31, 2021**

**Drill Hole Database:**

Provincial [DRL](#)

The Ontario Drill Hole Database contains information on more than 113,000 percussion, overburden, sonic and diamond drill holes from assessment files on record with the department of Mines and Minerals. Please note that limited data is available for southern Ontario, as it was the last area to be completed. The database was created when surveys submitted to the Ministry were converted in the Assessment File Research Image Database (AFRI) project. However, the degree of accuracy (coordinates) as to the exact location of drill holes is dependent upon the source document submitted to the MNDM. Levels of accuracy used to locate holes are: centering on the mining claim; a sketch of the mining claim; a 1:50,000 map; a detailed company map; or from submitted a "Report of Work".

**Government Publication Date: 1886 - Sep 2020**

**Delisted Fuel Tanks:**

Provincial [DTNK](#)

List of fuel storage tank sites that were once found in - and have since been removed from - the list of fuel storage tanks made available by the regulatory agency under Access to Public Information.

**Government Publication Date: May 31, 2021**

**Environmental Activity and Sector Registry:**

Provincial [EASR](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. The EASR allows businesses to register certain activities with the ministry, rather than apply for an approval. The registry is available for common systems and processes, to which preset rules of operation can be applied. The EASR is currently available for: heating systems, standby power systems and automotive refinishing. Businesses whose activities aren't subject to the EASR may apply for an ECA (Environmental Compliance Approval), Please see our ECA database.

**Government Publication Date: Oct 2011- Sep 30, 2021**

**Environmental Registry:**

Provincial [EBR](#)

The Environmental Registry lists proposals, decisions and exceptions regarding policies, Acts, instruments, or regulations that could significantly affect the environment. Through the Registry, thirteen provincial ministries notify the public of upcoming proposals and invite their comments. For example, if a local business is requesting a permit, license, or certificate of approval to release substances into the air or water; these are notified on the registry. Data includes: Approval for discharge into the natural environment other than water (i.e. Air) - EPA s. 9, Approval for sewage works - OWRA s. 53(1), and EPA s. 27 - Approval for a waste disposal site. For information regarding Permit to Take Water (PTTW), Certificate of Property Use (CPU) and (ORD) Orders please refer to those individual databases.

**Government Publication Date: 1994- Oct 31, 2021**

**Environmental Compliance Approval:**

Provincial [ECA](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. In the past, a business had to apply for multiple approvals (known as certificates of approval) for individual processes and pieces of equipment. Today, a business either registers itself, or applies for a single approval, depending on the types of activities it conducts. Businesses whose activities aren't subject to the EASR may apply for an ECA. A single ECA addresses all of a business's emissions, discharges and wastes. Separate approvals for air, noise and waste are no longer required. This database will also include Renewable Energy Approvals. For certificates of approval prior to Nov 1st, 2011, please refer to the CA database. For all Waste Disposal Sites please refer to the WDS database.

**Government Publication Date: Oct 2011- Sep 30, 2021**

**Environmental Effects Monitoring:**

Federal [EEM](#)

The Environmental Effects Monitoring program assesses the effects of effluent from industrial or other sources on fish, fish habitat and human usage of fisheries resources. Since 1992, pulp and paper mills have been required to conduct EEM studies under the Pulp and Paper Effluent Regulations. This database provides information on the mill name, geographical location and sub-lethal toxicity data.

**Government Publication Date: 1992-2007\***

**ERIS Historical Searches:**

Private [EHS](#)

ERIS has compiled a database of all environmental risk reports completed since March 1999. Available fields for this database include: site location, date of report, type of report, and search radius. As per all other databases, the ERIS database can be referenced on both the map and "Statistical Profile" page.

**Government Publication Date: 1999-Jun 30, 2021**

**Environmental Issues Inventory System:**

Federal [EIIS](#)

The Environmental Issues Inventory System was developed through the implementation of the Environmental Issues and Remediation Plan. This plan was established to determine the location and severity of contaminated sites on inhabited First Nation reserves, and where necessary, to remediate those that posed a risk to health and safety; and to prevent future environmental problems. The EIIS provides information on the reserve under investigation, inventory number, name of site, environmental issue, site action (Remediation, Site Assessment), and date investigation completed.

**Government Publication Date: 1992-2001\***

**Emergency Management Historical Event:**

Provincial **EMHE**

List of locations of historical occurrences of emergency events, including those assigned to the Ministry of Natural Resources by Order-In-Council (OIC) under the Emergency Management and Civil Protection Act, as well as events where MNR provided requested emergency response assistance. Many of these events will have involved community evacuations, significant structural loss, and/or involvement of MNR emergency response staff. These events fall into one of ten (10) type categories: Dam Failure; Drought / Low Water; Erosion; Flood; Forest Fire; Soil and Bedrock Instability; Petroleum Resource Center Event, EMO Requested Assistance, Continuity of Operations Event, Other Requested Assistance. EMHE record details are reproduced by ERIS under License with the Ontario Ministry of Natural Resources © Queen's Printer for Ontario, 2017.

**Government Publication Date: Dec 31, 2016**

**Environmental Penalty Annual Report:**

Provincial **EPAR**

This database contains data from Ontario's annual environmental penalty report published by the Ministry of the Environment and Climate Change. These reports provide information on environmental penalties for land / water violations issued to companies in one of the nine industrial sectors covered by the Municipal Industrial Strategy for Abatement (MISA) regulations.

**Government Publication Date: Jan 1, 2011 - Dec 31, 2020**

**List of Expired Fuels Safety Facilities:**

Provincial **EXP**

List of facilities and tanks for which there was once a fuel registration. This is not a comprehensive or complete inventory of expired tanks/tank facilities in the province; this listing is a copy of previously registered tanks and facilities obtained under Access to Public Information. Includes private fuel outlets, bulk plants, fuel oil tanks, gasoline stations, marinas, propane filling stations, liquid fuel tanks, piping systems, etc; includes tanks which have been removed from the ground.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: May 31, 2020**

**Federal Convictions:**

Federal **FCON**

Environment Canada maintains a database referred to as the "Environmental Registry" that details prosecutions under the Canadian Environmental Protection Act (CEPA) and the Fisheries Act (FA). Information is provided on the company name, location, charge date, offence and penalty.

**Government Publication Date: 1988-Jun 2007\***

**Contaminated Sites on Federal Land:**

Federal **FCS**

The Federal Contaminated Sites Inventory includes information on known federal contaminated sites under the custodianship of departments, agencies and consolidated Crown corporations as well as those that are being or have been investigated to determine whether they have contamination arising from past use that could pose a risk to human health or the environment. The inventory also includes non-federal contaminated sites for which the Government of Canada has accepted some or all financial responsibility. It does not include sites where contamination has been caused by, and which are under the control of, enterprise Crown corporations, private individuals, firms or other levels of government. Includes fire training sites and sites at which Per- and Polyfluoroalkyl Substances (PFAS) are a concern.

**Government Publication Date: Jun 2000-Aug 2021**

**Fisheries & Oceans Fuel Tanks:**

Federal **FOFT**

Fisheries & Oceans Canada maintains an inventory of aboveground & underground fuel storage tanks located on Fisheries & Oceans property or controlled by DFO. Our inventory provides information on the site name, location, tank owner, tank operator, facility type, storage tank location, tank contents & capacity, and date of tank installation.

**Government Publication Date: 1964-Sep 2019**

**Federal Identification Registry for Storage Tank Systems (FIRSTS):**

Federal **FRST**

A list of federally regulated Storage tanks from the Federal Identification Registry for Storage Tank Systems (FIRSTS). FIRSTS is Environment and Climate Change Canada's database of storage tank systems subject to the Storage Tank for Petroleum Products and Allied Petroleum Products Regulations. The main objective of the Regulations is to prevent soil and groundwater contamination from storage tank systems located on federal and aboriginal lands. Storage tank systems that do not have a valid identification number displayed in a readily visible location on or near the storage tank system may be refused product delivery.

**Government Publication Date: May 31, 2018**

**Fuel Storage Tank:**

Provincial **FST**

List of registered private and retail fuel storage tanks. This is not a comprehensive or complete inventory of private and retail fuel storage tanks in the province; this listing is a copy of registered private and retail fuel storage tanks, obtained under Access to Public Information.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: May 31, 2021**

**Fuel Storage Tank - Historic:**

Provincial

[FSTH](#)

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks. Public records of private fuel storage tanks are only available since the registration became effective in September 1989. This information is now collected by the Technical Standards and Safety Authority.

**Government Publication Date: Pre-Jan 2010\***

**Ontario Regulation 347 Waste Generators Summary:**

Provincial

[GEN](#)

Regulation 347 of the Ontario EPA defines a waste generation site as any site, equipment and/or operation involved in the production, collection, handling and/or storage of regulated wastes. A generator of regulated waste is required to register the waste generation site and each waste produced, collected, handled, or stored at the site. This database contains the registration number, company name and address of registered generators including the types of hazardous wastes generated. It includes data on waste generating facilities such as: drycleaners, waste treatment and disposal facilities, machine shops, electric power distribution etc. This information is a summary of all years from 1986 including the most currently available data. Some records may contain, within the company name, the phrase "See & Use..." followed by a series of letters and numbers. This occurs when one company is amalgamated with or taken over by another registered company. The number listed as "See & Use", refers to the new ownership and the other identification number refers to the original ownership. This phrase serves as a link between the 2 companies until operations have been fully transferred.

**Government Publication Date: 1986-Aug 31, 2021**

**Greenhouse Gas Emissions from Large Facilities:**

Federal

[GHG](#)

List of greenhouse gas emissions from large facilities made available by Environment Canada. Greenhouse gas emissions in kilotonnes of carbon dioxide equivalents (kt CO<sub>2</sub> eq).

**Government Publication Date: 2013-Dec 2019**

**TSSA Historic Incidents:**

Provincial

[HINC](#)

List of historic incidences of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen recorded by the TSSA in their previous incident tracking system. The TSSA's Fuels Safety Program administers the Technical Standards & Safety Act 2000, providing fuel-related safety services associated with the safe transportation, storage, handling and use of fuels such as gasoline, diesel, propane, natural gas and hydrogen. Under this Act, the TSSA regulates fuel suppliers, storage facilities, transport trucks, pipelines, contractors and equipment or appliances that use fuels. Records are not verified for accuracy or completeness. This is not a comprehensive or complete inventory of historical fuel spills and leaks in the province. This listing is a copy of the data captured at one moment in time and is hence limited by the record date provided here.

**Government Publication Date: 2006-June 2009\***

**Indian & Northern Affairs Fuel Tanks:**

Federal

[IAFT](#)

The Department of Indian & Northern Affairs Canada (INAC) maintains an inventory of aboveground & underground fuel storage tanks located on both federal and crown land. Our inventory provides information on the reserve name, location, facility type, site/facility name, tank type, material & ID number, tank contents & capacity, and date of tank installation.

**Government Publication Date: 1950-Aug 2003\***

**Fuel Oil Spills and Leaks:**

Provincial

[INC](#)

Listing of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen reported to the Spills Action Centre (SAC). This is not a comprehensive or complete inventory of fuel-related leaks, spills, and incidents in the province; this listing is a copy of incidents reported to the SAC, obtained under Access to Public Information. Includes incidents from fuel-related hazards such as spills, fires, and explosions. Records are not verified for accuracy or completeness.

**Government Publication Date: May 31, 2021**

**Landfill Inventory Management Ontario:**

Provincial

[LIMO](#)

The Landfill Inventory Management Ontario (LIMO) database is updated every year, as the Ministry of the Environment, Conservation and Parks compiles new and updated information. Includes small and large landfills currently operating as well as those which are closed and historic. Operators of larger landfills provide landfill information for the previous operating year to the ministry for LIMO including: estimated amount of total waste received, landfill capacity, estimated total remaining landfill capacity, fill rates, engineering designs, reporting and monitoring details, size of location, service area, approved waste types, leachate of site treatment, contaminant attenuation zone and more. The small landfills include information such as site owner, site location and certificate of approval # and status.

**Government Publication Date: Feb 28, 2019**

**Canadian Mine Locations:**

Private

[MINE](#)

This information is collected from the Canadian & American Mines Handbook. The Mines database is a national database that provides over 290 listings on mines (listed as public companies) dealing primarily with precious metals and hard rocks. Listed are mines that are currently in operation, closed, suspended, or are still being developed (advanced projects). Their locations are provided as geographic coordinates (x, y and/or longitude, latitude). As of 2002, data pertaining to Canadian smelters and refineries has been appended to this database.

**Government Publication Date: 1998-2009\***

**Mineral Occurrences:**

Provincial

[MNR](#)

In the early 70's, the Ministry of Northern Development and Mines created an inventory of approximately 19,000 mineral occurrences in Ontario, in regard to metallic and industrial minerals, as well as some information on building stones and aggregate deposits. Please note that the "Horizontal Positional Accuracy" is approximately +/- 200 m. Many reference elements for each record were derived from field sketches using pace or chain/tape measurements against claim posts or topographic features in the area. The primary limiting factor for the level of positional accuracy is the scale of the source material. The testing of horizontal accuracy of the source materials was accomplished by comparing the plan metric (X and Y) coordinates of that point with the coordinates of the same point as defined from a source of higher accuracy.

**Government Publication Date: 1846-Dec 2020**

**National Analysis of Trends in Emergencies System (NATES):**

Federal

[NATE](#)

In 1974 Environment Canada established the National Analysis of Trends in Emergencies System (NATES) database, for the voluntary reporting of significant spill incidents. The data was to be used to assist in directing the work of the emergencies program. NATES ran from 1974 to 1994. Extensive information is available within this database including company names, place where the spill occurred, date of spill, cause, reason and source of spill, damage incurred, and amount, concentration, and volume of materials released.

**Government Publication Date: 1974-1994\***

**Non-Compliance Reports:**

Provincial

[NCPL](#)

The Ministry of the Environment provides information about non-compliant discharges of contaminants to air and water that exceed legal allowable limits, from regulated industrial and municipal facilities. A reported non-compliance failure may be in regard to a Control Order, Certificate of Approval, Sectoral Regulation or specific regulation/act.

**Government Publication Date: Dec 31, 2019**

**National Defense & Canadian Forces Fuel Tanks:**

Federal

[NDFT](#)

The Department of National Defense and the Canadian Forces maintains an inventory of all aboveground & underground fuel storage tanks located on DND lands. Our inventory provides information on the base name, location, tank type & capacity, tank contents, tank class, date of tank installation, date tank last used, and status of tank as of May 2001. This database will no longer be updated due to the new National Security protocols which have prohibited any release of this database.

**Government Publication Date: Up to May 2001\***

**National Defense & Canadian Forces Spills:**

Federal

[NDSP](#)

The Department of National Defense and the Canadian Forces maintains an inventory of spills to land and water. All spill sites have been classified under the "Transportation of Dangerous Goods Act - 1992". Our inventory provides information on the facility name, location, spill ID #, spill date, type of spill, as well as the quantity of substance spilled & recovered.

**Government Publication Date: Mar 1999-Apr 2018**

**National Defence & Canadian Forces Waste Disposal Sites:**

Federal

[NDWD](#)

The Department of National Defence and the Canadian Forces maintains an inventory of waste disposal sites located on DND lands. Where available, our inventory provides information on the base name, location, type of waste received, area of site, depth of site, year site opened/closed and status.

**Government Publication Date: 2001-Apr 2007\***

**National Energy Board Pipeline Incidents:**

Federal

[NEBI](#)

Locations of pipeline incidents from 2008 to present, made available by the Canada Energy Regulator (CER) - previously the National Energy Board (NEB). Includes incidents reported under the Onshore Pipeline Regulations and the Processing Plant Regulations related to pipelines under federal jurisdiction, does not include incident data related to pipelines under provincial or territorial jurisdiction.

**Government Publication Date: 2008-Jun 30, 2021**

**National Energy Board Wells:**

Federal

[NEBP](#)

The NEBW database contains information on onshore & offshore oil and gas wells that are outside provincial jurisdiction(s) and are thereby regulated by the National Energy Board. Data is provided regarding the operator, well name, well ID No./UWI, status, classification, well depth, spud and release date.

**Government Publication Date: 1920-Feb 2003\***

**National Environmental Emergencies System (NEES):**

Federal

NEES

In 2000, the Emergencies program implemented NEES, a reporting system for spills of hazardous substances. For the most part, this system only captured data from the Atlantic Provinces, some from Quebec and Ontario and a portion from British Columbia. Data for Alberta, Saskatchewan, Manitoba and the Territories was not captured. However, NEES is also a repository for previous Environment Canada spill datasets. NEES is composed of the historic datasets ' or Trends ' which dates from approximately 1974 to present. NEES Trends is a compilation of historic databases, which were merged and includes data from NATES (National Analysis of Trends in Emergencies System), ARTS (Atlantic Regional Trends System), and NEES. In 2001, the Emergencies Program determined that variations in reporting regimes and requirements between federal and provincial agencies made national spill reporting and trend analysis difficult to achieve. As a consequence, the department has focused efforts on capturing data on spills of substances which fall under its legislative authority only (CEPA and FA). As such, the NEES database will be decommissioned in December 2004.

**Government Publication Date: 1974-2003\***

**National PCB Inventory:**

Federal

NPCB

Environment Canada's National PCB inventory includes information on in-use PCB containing equipment in Canada including federal, provincial and private facilities. Federal out-of-service PCB containing equipment and PCB waste owned by the federal government or by federally regulated industries such as airlines, railway companies, broadcasting companies, telephone and telecommunications companies, pipeline companies, etc. are also listed. Although it is not Environment Canada's mandate to collect data on non-federal PCB waste, the National PCB inventory includes some information on provincial and private PCB waste and storage sites. Some addresses provided may be Head Office addresses and are not necessarily the location of where the waste is being used or stored.

**Government Publication Date: 1988-2008\***

**National Pollutant Release Inventory:**

Federal

NPRI

Environment Canada has defined the National Pollutant Release Inventory ("NPRI") as a federal government initiative designed to collect comprehensive national data regarding releases to air, water, or land, and waste transfers for recycling for more than 300 listed substances.

**Government Publication Date: 1993-May 2017**

**Oil and Gas Wells:**

Private

OGWE

The Nickle's Energy Group (publisher of the Daily Oil Bulletin) collects information on drilling activity including operator and well statistics. The well information database includes name, location, class, status and depth. The main Nickle's database is updated on a daily basis, however, this database is updated on a monthly basis. More information is available at [www.nickles.com](http://www.nickles.com).

**Government Publication Date: 1988-Feb 28, 2021**

**Ontario Oil and Gas Wells:**

Provincial

OOGW

In 1998, the MNR handed over to the Ontario Oil, Gas and Salt Resources Corporation, the responsibility of maintaining a database of oil and gas wells drilled in Ontario. The OGSR Library has over 20,000+ wells in their database. Information available for all wells in the ERIS database include well owner/operator, location, permit issue date, and well cap date, license No., status, depth and the primary target (rock unit) of the well being drilled. All geology/stratigraphy table information, plus all water table information is also provide for each well record.

**Government Publication Date: 1800-Jan 2021**

**Inventory of PCB Storage Sites:**

Provincial

OPCB

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of PCB storage sites within the province. Ontario Regulation 11/82 (Waste Management - PCB) and Regulation 347 (Generator Waste Management) under the Ontario EPA requires the registration of inactive PCB storage equipment and/or disposal sites of PCB waste with the Ontario Ministry of Environment. This database contains information on: 1) waste quantities; 2) major and minor sites storing liquid or solid waste; and 3) a waste storage inventory.

**Government Publication Date: 1987-Oct 2004; 2012-Dec 2013**

**Orders:**

Provincial

ORD

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all Orders on the registry such as (EPA s. 17) - Order for remedial work, (EPA s. 18) - Order for preventative measures, (EPA s. 43) - Order for removal of waste and restoration of site, (EPA s. 44) - Order for conformity with Act for waste disposal sites, (EPA s. 136) - Order for performance of environmental measures.

**Government Publication Date: 1994-Oct 31, 2021**

**Canadian Pulp and Paper:**

Private

PAP

This information is part of the Pulp and Paper Canada Directory. The Directory provides a comprehensive listing of the locations of pulp and paper mills and the products that they produce.

**Government Publication Date: 1999, 2002, 2004, 2005, 2009-2014**

**Parks Canada Fuel Storage Tanks:**

Federal

PCFT

Canadian Heritage maintains an inventory of known fuel storage tanks operated by Parks Canada, in both National Parks and at National Historic Sites. The database details information on site name, location, tank install/removal date, capacity, fuel type, facility type, tank design and owner/operator.

**Government Publication Date: 1920-Jan 2005\***

**Pesticide Register:**

Provincial PES

The Ontario Ministry of the Environment and Climate Change maintains a database of licensed operators and vendors of registered pesticides.

**Government Publication Date: Oct 2011- Sep 30, 2021**

**Pipeline Incidents:**

Provincial PINC

List of pipeline incidents (strikes, leaks, spills). This is not a comprehensive or complete inventory of pipeline incidents in the province; this listing in an historical copy of records previously obtained under Access to Public Information. Records are not verified for accuracy or completeness.

**Government Publication Date: May 31, 2021**

**Private and Retail Fuel Storage Tanks:**

Provincial PRT

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks and licensed retail fuel outlets. This database includes an inventory of locations that have gasoline, oil, waste oil, natural gas and/or propane storage tanks on their property. The MCCR no longer collects this information. This information is now collected by the Technical Standards and Safety Authority (TSSA).

**Government Publication Date: 1989-1996\***

**Permit to Take Water:**

Provincial PTTW

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all PTTW's on the registry such as OWRA s. 34 - Permit to take water.

**Government Publication Date: 1994 - Oct 31, 2021**

**Ontario Regulation 347 Waste Receivers Summary:**

Provincial REC

Part V of the Ontario Environmental Protection Act ("EPA") regulates the disposal of regulated waste through an operating waste management system or a waste disposal site operated or used pursuant to the terms and conditions of a Certificate of Approval or a Provisional Certificate of Approval. Regulation 347 of the Ontario EPA defines a waste receiving site as any site or facility to which waste is transferred by a waste carrier. A receiver of regulated waste is required to register the waste receiving facility. This database represents registered receivers of regulated wastes, identified by registration number, company name and address, and includes receivers of waste such as: landfills, incinerators, transfer stations, PCB storage sites, sludge farms and water pollution control plants. This information is a summary of all years from 1986 including the most currently available data.

**Government Publication Date: 1986-1990, 1992-2019**

**Record of Site Condition:**

Provincial RSC

The Record of Site Condition (RSC) is part of the Ministry of the Environment's Brownfields Environmental Site Registry. Protection from environmental cleanup orders for property owners is contingent upon documentation known as a record of site condition (RSC) being filed in the Environmental Site Registry. In order to file an RSC, the property must have been properly assessed and shown to meet the soil, sediment and groundwater standards appropriate for the use (such as residential) proposed to take place on the property. The Record of Site Condition Regulation (O. Reg. 153/04) details requirements related to site assessment and clean up.

RSCs filed after July 1, 2011 will also be included as part of the new (O.Reg. 511/09).

**Government Publication Date: 1997-Sept 2001, Oct 2004-Oct 2021**

**Retail Fuel Storage Tanks:**

Private RST

This database includes an inventory of retail fuel outlet locations (including marinas) that have on their property gasoline, oil, waste oil, natural gas and / or propane storage tanks.

**Government Publication Date: 1999-Sep 30, 2021**

**Scott's Manufacturing Directory:**

Private SCT

Scott's Directories is a data bank containing information on over 200,000 manufacturers across Canada. Even though Scott's listings are voluntary, it is the most comprehensive database of Canadian manufacturers available. Information concerning a company's address, plant size, and main products are included in this database.

**Government Publication Date: 1992-Mar 2011\***

**Ontario Spills:**

Provincial SPL

List of spills and incidents made available the Ministry of the Environment, Conservation and Parks. This database identifies information such as location (approximate), type and quantity of contaminant, date of spill, environmental impact, cause, nature of impact, etc. Information from 1988-2002 was part of the ORIS (Occurrence Reporting Information System). The SAC (Spills Action Centre) handles all spills reported in Ontario. Regulations for spills in Ontario are part of the MOE's Environmental Protection Act, Part X.

**Government Publication Date: 1988-Sep 2020**

**Wastewater Discharger Registration Database:**

Provincial [SRDS](#)

Information under this heading is combination of the following 2 programs. The Municipal/Industrial Strategy for Abatement (MISA) division of the Ontario Ministry of Environment maintained a database of all direct dischargers of toxic pollutants within nine sectors including: Electric Power Generation; Mining; Petroleum Refining; Organic Chemicals; Inorganic Chemicals; Pulp & Paper; Metal Casting; Iron & Steel; and Quarries. All sampling information is now collected and stored within the Sample Result Data Store (SRDS).

**Government Publication Date: 1990-Dec 31, 2018**

**Anderson's Storage Tanks:**

Private [TANK](#)

The information provided in this database was collected by examining various historical documents, which identified the location of former storage tanks, containing substances such as fuel, water, gas, oil, and other various types of miscellaneous products. Information is available in regard to business operating at tank site, tank location, permit year, permit & installation type, no. of tanks installed & configuration and tank capacity. Data contained within this database pertains only to the city of Toronto and is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

**Government Publication Date: 1915-1953\***

**Transport Canada Fuel Storage Tanks:**

Federal [TCFT](#)

List of fuel storage tanks currently or previously owned or operated by Transport Canada. This inventory also includes tanks on The Pickering Lands, which refers to 7,530 hectares (18,600 acres) of land in Pickering, Markham, and Uxbridge owned by the Government of Canada since 1972; properties on this land has been leased by the government since 1975, and falls under the Site Management Policy of Transport Canada, but is administered by Public Works and Government Services Canada. This inventory provides information on the site name, location, tank age, capacity and fuel type.

**Government Publication Date: 1970 - Dec 2020**

**Variances for Abandonment of Underground Storage Tanks:**

Provincial [VAR](#)

Listing of variances granted for storage tank abandonment. This is not a comprehensive or complete inventory of tank abandonment variances in the province; this listing is a copy of tank abandonment variance records previously obtained under Access to Public Information. In Ontario, registered underground storage tanks must be removed within two years of disuse; if removal of a tank is not feasible, an application may be sought for a variance from this code requirement.

Records are not verified for accuracy or completeness.

**Government Publication Date: May 31, 2021**

**Waste Disposal Sites - MOE CA Inventory:**

Provincial [WDS](#)

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of known open (active or inactive) and closed disposal sites in the Province of Ontario. Active sites maintain a Certificate of Approval, are approved to receive and are receiving waste. Inactive sites maintain Certificate(s) of Approval but are not receiving waste. Closed sites are not receiving waste. The data contained within this database was compiled from the MOE's Certificate of Approval database. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number. All new Environmental Compliance Approvals handed out after Oct 31, 2011 for Waste Disposal Sites will still be found in this database.

**Government Publication Date: Oct 2011- Sep 30, 2021**

**Waste Disposal Sites - MOE 1991 Historical Approval Inventory:**

Provincial [WDSH](#)

In June 1991, the Ontario Ministry of Environment, Waste Management Branch, published the "June 1991 Waste Disposal Site Inventory", of all known active and closed waste disposal sites as of October 30st, 1990. For each "active" site as of October 31st 1990, information is provided on site location, site/CA number, waste type, site status and site classification. For each "closed" site as of October 31st 1990, information is provided on site location, site/CA number, closure date and site classification. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number.

**Government Publication Date: Up to Oct 1990\***

**Water Well Information System:**

Provincial [WWIS](#)

This database describes locations and characteristics of water wells found within Ontario in accordance with Regulation 903. It includes such information as coordinates, construction date, well depth, primary and secondary use, pump rate, static water level, well status, etc. Also included are detailed stratigraphy information, approximate depth to bedrock and the approximate depth to the water table.

**Government Publication Date: Apr 30, 2021**

# Definitions

**Database Descriptions:** This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

**Detail Report:** This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

**Distance:** The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

**Direction:** The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

**Elevation:** The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

**Executive Summary:** This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

**Map Key:** The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

**Unplottables:** These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

# PHASE ONE ENVIRONMENTAL SITE ASSESSMENT 200 ELGIN STREET, OTTAWA, ONTARIO

## APPENDIX D – CORRESPONDANCE

Kevin Cortez

---

From: Kevin Cortez  
Sent: Friday, December 17, 2021 9:32 AM  
To: hlui@ottawa.ca  
Cc: Dan Arnott  
Subject: Application for Address 200 Egin Street, Ottawa  
Attachments: HLUI Consent letter.pdf; application\_for\_hlui\_en\_200 Egin Street, Ottawa, ON.pdf

Good afternoon,

Please find the attached completed HLUI application and consent form for address 200 Egin Street, Ottawa, ON with legal description:

PT LT 55 S/ SNEPEAN ST. AND PT LT 55 N/ S LISGAR ST. AND ALL LTS 56 & 57 N/ S LISGAR ST. ON PLAN 2996, BEING PART 2 ON PLAN 4R-5640, OTTAWA. SUBJECT TO AND TOGETHER WITH RIGHTS AS IN LT494415. SUBJECT TO AN EASEMENT IN FAVOUR OF CARLETON CONDOMINIUM CORPORATION NO. 365 OVER LOT 55 SOUTH SIDE OF NEPEAN STREET AND LOT 55 NORTH SIDE OF LISGAR STREET PLAN 2996 AS IN LT1242133. SUBJECT TO AN EASEMENT AS IN OC1649094

PIN 041150270

This application will be used as a standing requirement of a Phase One Environmental Assessment completed for the respective address. If you have any questions regarding the application, please don't hesitate to contact myself or Dan Arnott (cc'd), the project manager overseeing the project. Thank you for your time.

Regards,  
Kevin

**Please refrain from sending documents to head office and only submit your requests electronically via email along with credit card payment. We are all working remotely and mailing in applications with cheques will lengthen the overall processing time.**

**NO RECORD FOUND**

Hello Kevin,

Thank you for your request for confirmation of public information.

- We confirm that there are no records in our database of any fuel storage tanks at the subject addresses.

For a further search in our archives please complete our release of public information form found at [https://www.tssa.org/en/about-tssa/release-of-public-information.aspx?\\_mid\\_=392](https://www.tssa.org/en/about-tssa/release-of-public-information.aspx?_mid_=392) and email the completed form to [publicinformationsservices@tssa.org](mailto:publicinformationsservices@tssa.org) along with a fee of \$56.50 (including HST) per location. The fee is payable with credit card (Visa or MasterCard).

Although TSSA believes the information provided pursuant to your request is accurate, please note that TSSA does not warrant this information in any way whatsoever.

Kind regards,

Sherees

## APPENDIX F – INTERVIEW/FIELD RECORDS

## Phase I ESA Interviews

Interviewer (MP) D. Arnott 21-3539  
MP Project No. CCO-21-2432-08Interviewee M. MasonRelationship to Subject Property Sr. Comm. Prop. mg. r.Date 21-Dec-2021

Potential Item of Concern	Interview Comments
Accidents/Spills	No
Previous Use of Site	No
Adjacent Properties	No
Fuel Handling/Storage	Diesel genry + tank
Maintenance/Operational Areas	Maint. room
Hazardous Materials Storage	No
Fuel Storage Tanks	See above
Odours	No

Potential Item of Concern	Interview Comments
Potable Water	City
Septic and Wastewater Discharges	City
Pesticides	No
Mould	No
Heating and Cooling Systems	Gas-fired boilers + chiller w/cooling towers (one tower per chiller)
Major Mechanical Equipment	No
Waste Oils, Solvents, Batteries	No
PCBs	No
Asbestos	- Survey on file
Lead Paint	- Unknown
ODS	- No
Electromagnetic Radiation	- No
UFFI	- No

Potential Item of Concern	Interview Comments
Mercury	- No
Radon Gas	N/A
Soil and Groundwater Conditions	- No
Wells	- No
Waste Disposal and Recycling	- Tomlinson for commercial - WCC for res.
Fill Material	- N/A
Other	- No

# PHASE ONE ENVIRONMENTAL SITE ASSESSMENT 200 ELGIN STREET, OTTAWA, ONTARIO

## APPENDIX G – SITE PHOTOGRAPHS

Photo 1: Site building, facing west from Elgin Street

Photo 2: Typical interior of basement level (original portion of building), facing west

Photo 3: Basement storage room along north building wall, facing east

Photo 4: Basement storage room at northeast corner of building, facing northeast.

Photo 5: Custodial room basement level, original portion of building, showing sump pit (1 of 2) and commercially-available cleaning products

Photo 6: Custodial room, showing sump pit (2 of 2) and commercially-available cleaning products

Photo 7: Basement interior showing VFTs and transition from original portion of building to 1985 addition

Photo 8: Basement mechanical room showing sprinkler pumps and sump pits

Photo 9: AST containing diesel fuel for backup generator. Tank is in basement mechanical room.

Photo 10: Pumps associated with diesel tank to bring diesel to generator on 11<sup>th</sup> floor

Photo 11: Underground parking garage, facing north

Photo 12: Basement electrical room

Photo 13: Ramp of underground parking garage, north wall

Photo 14: Sump pit in underground parking garage

Photo 15: Diesel backup generator in mechanical penthouse (11<sup>th</sup> floor)

Photo 16: Typical interior of office unit

Photo 17: Interior of office unit, undergoing renovation

Photo 18: Foreground: grease trap cleanout pipe associated with Clocktower Brew Pub (food grease); vent and fill pipes for diesel generator at adjacent building to north in background

Photo 19: Adjacent building to the north, facing south along Egin Street
