

Objectives

A Preliminary Construction Management Plan checklist is a document that shows a development proposal's anticipated impacts to all modes of transportation and all elements in the right of way during construction. The purpose of these Terms of Reference is to assist the applicant and staff of the Traffic Management Unit, Public Works Department to identify the expected impacts of their proposal on the City's right of way before construction starts.

- Ensure the safety of workers, residents, and the public during the construction.
- Minimize disruptions to the surrounding community.
- Comply with all relevant City of Ottawa regulations and guidelines.
- Efficiently manage construction activities to meet the project timeline.

Project Information

Project Name:	Pulse
Location:	1108 Maisonneuve Street, Orleans
