- ¹ This template represents a small selection of applicable provisions. Please consider the lot's geography (i.e. corner/through lot, proximity to water, inside/outside Greenbelt) and proposed land use (i.e. drive through operation, outdoor commercial patio, Planned Unit Development, long semi) and consult the by-law to determine which other sections of the By-law must be met. This can be attached in a separate document.
- ² Note that different performance standards apply to low-rise residential development inside the Greenbelt. Please reference Section 144 for these standards, where applicable.
- ³ This includes maximum building height, minimum building height and stepback provisions, where they exist.
